1867-8	77,254,182
1868-9	92,499.842
1869-70	96,414,276
1870-1	126,123,210
1871-2	139,903,902
1872-3	125,086,690
1873-4	106,706,644
1874-5	106,501,249

These figures represent only the foreign cost of the goods in gold, freight and duty not included.

Chesapeake and Ohio Canal.

The report of President Gorman, submitted at the monthly meeting of the directors in Annapolis, Md., on the 6th inst., states that the coal tonnage for the month of June, 1875, was 145,736—an increase, as compared with the tonnage of June, 1874, of 26,561 tons; 1,297 boats cleared during the month, being an increase of 255 over June of last year. The accrued revenue of the month for tolls and wharfage was $77,877 35; from rents, $4,163 75; from accrued interest on deposits, $354 46; total, $82,395 56, being an increase over the corresponding month of last year of $7,-247 96, when the tolls were 6 4-5 cents higher than now, and being larger than the revenue of any preceding month. The operating expenses for the month on all ordinary accounts were $19,-046 56; extraordinary expenses, as dredging, enlargement of locks, &c, $6 086 59; total $25,133 15. Net revenue over expenses $57,262 41.

Exports of Wheat and Flour from California.

The exports of wheat and flour from California during the crop year ending June 30, 1875, is given by the San Francisco correspondent of the Sacramento Record-Union as follows:

EXPORTS OF WHEAT.

	Cargoes.	Centals.	Value.
July....	15	283,100	$473,700

Yuba	60,000	200,000
Total	2,125,720	13,142,000

Surplus for exports 7,822,000 centals.

Railroads in Peru.

The very general interest felt in the progress of the railroads inaugurated in Peru by President Balta, and contracted for by Mr. Meiggs, warrants the following translation of an important document, addressed by the last named gentleman to the President of the Republic, Mr. Pardo:

Your Excellency: In consequence of the inability of the Supreme Government to furnish the necessary funds for the proper fulfillment of the contracts for constructing railways intrusted to my care, the condition of affairs has become so perplexing as to render it impossible for me to continue in such a ruinous and disastrous position.

It is beyond doubt that the loan of fifteen millions sterling, authorized by the law passed by Congress on the 27th of January, 1871, would never have been sufficient for the purpose desired, even had the bonds been placed at a higher figure, of covering the cost of the works stipulated for, and this insufficiency is all the greater from the low rate at which it was found necessary to dispose of the bonds. The Supreme Government, convinced of this fact, declared that one of the most pressing measures to be determined by the Extraordinary Congress was to take action on the matter referring to the conclusion of the railways; but, up to the present time only has this subject been partially treated, in the pending bill regarding the nitrate question. Even this project is still under discussion, and supposing that it be approved, the funds to be appropriated are by no means sufficient for the proper termination of the works. It therefore becomes absolutely necessary that before the present sessions of Congress are closed, the railway question be arranged in such manner that the contractor may be enabled to duly comply with the terms of the contracts agreed upon.

Acting in accordance with the indications your Excellency was pleased to make, toward obtaining means for continuing the railway works, I have consulted with several capitalists with a view of arriving at the wished for result.

But, although I cannot as yet venture to say that my efforts in this regard will be crowned with success, I am quite confident that the Supreme Government can reach such an end, by virtue of arrangements which would prove to be highly advantageous, provide Congress vote the respective permission and authorization.

If the Government were so empowered, I do not doubt that the proposed result could be obtained through such negotiations.

HENRY MEIGGS.

Lima, 15th May, 1875.

United States Internal Revenue Receipts.

The following detailed statement shows the aggregate of certificates of deposit received at the Treasury Department from internal revenue during the fiscal year ending June 30, 1875, as compared with receipts from the same source during the year ending June 30, 1874:

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

W. M. Brigham, KINGSTON, N. Y

J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER CEMENT COMPANY.

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average **300** lbs. Cement to each barrel.

J. B. JAMES, President.

W. G. JAMES, Treasurer.

41 Dey Street, New York.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. Subscriptions to American Loans in Europe.

From the London Investors' Manual is compiled the following statement of amounts called for payment in connection with subscriptions to American loans effected in London and on the Continent for the months of January, February and March of this year:

January.	
Baltimore and Ohio, equal to	$1,006,250
Chicago and Alton	100,000
Little Rock Bridge	200,000
Pennsylvania Railroad	1,500,000
Central Railroad of New Jersey	150,000
Total January	$2,956,250
February.	
Chicago and Alton	$865,000
Little Rock Bridge	200,000
Pennsylvania Railroad	3,750,000
Central Railroad of New Jersey	2,550 000
Real estate (New York) loan	412,000
United N. J. Railroad and Canal	230,000
Utica, Ithaca and Elmira Railroad	337,000
Western Union Telegraph bonds	1,030,000
Total February	$9,525,000
March.	
Pennsylvania Railroad	$3 750,000
People's Gas, &c., of Chicago	840,000
United N. J. Railroad and Canal	2,070,000
Western Union Telegraph bonds	1,287,400
Delaware and Hudson Canal	1,000,000
Lehigh Valley Railroad	2,340,000
Total March	$11,287,500

The transactions in January were limited, amounting to only $2,956,250; the February calls, however, were important, aggregating $9,525,000, while the sum called up for March reached the important total of $11,287,500. The aggregate amount called up for payment during the first quarter of the year is $23,768,750. The subscriptions called during the first quarter compare thus with last year:

	1875.	1874.
January	$2,956,250	$4,982,400
February	9,525,000	5,450,000
March	11,287,500	10,850,000
Total	$23,768,750	$21,287,400

The movement this year exceeds somewhat that of last. At the rate established for the first three months, we are borrowing in Europe, on corporate securities, about $90,000,000 in gold per annum. This perhaps conforms pretty closely to the ratio that has prevailed during late years, and so far corrects an impression which has very generally prevailed that this resource for drawing exchange is less than in late years.

☞ The Mexican Congress has definitely approved the Plumb International Railroad contract by a vote of 116 to 13. By the terms of the contract the construction of the road must be commenced within three years. The building of this road will do much to put an end to border troubles.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York Central and Hudson River R. R.

INTERNAL REVENUE TAX ON INTEREST CERTIFICATES.—DECISION OF THE UNITED STATES SUPREME COURT.

In the case of John N. Bailey, late Collector of Internal Revenue, plaintiff in error, vs. The New York Central and Hudson River Railroad Company—error to the Circuit Court for the Northern district of New York—Mr. Justice Clifford delivered the opinion of the Court.

Dividends, in scrip or money, declared by a railroad company, due and payable to their stockholders, whether resident or non-resident citizens or aliens, as part of the earnings, profits, income, or gains of the company, are defined by the act of the 13th of July, 1866, as proper objects of taxation, and also all profits of such company, carried to the account of any fund or used for construction; and the same section of the act provides that such railroad company shall pay a tax of five per centum on the amount of all such interest or coupons, dividends, or profits, whenever and wherever, and to whatsoever party or person the same may be payable, including non-residents, whether citizens or aliens. (14 Stat., at Large, 139.)

Two railroad companies, to wit: the New York Central and the Hudson River, each created and existing by the laws of the State of New York, on the 1st day of November, 1869, became consolidated, as authorized by the law of the State, and the two companies were ever thereafter and still are known as the New York Central and Hudson River Railroad Company.

By the record it also appears that that consolidated company own, operate, and maintain their railroad from the City of New York to the City of Buffalo and Niagara Falls, and that they have their principal office in the City of Albany, within the Fourteenth Collection District of the State; that in and by the act of consolidation the rights of all creditors and all liens upon the property of either of the corporations were preserved unimpaired, and that the respective corporations were deemed to continue in existence to preserve the same, and that all debts and liabilities incurred by either of the corporations, except mortgages, shall thenceforth attach to the new corporation, and may be enforced against the same and their property to the same extent as if the debts or liabilities had been incurred or contracted by such new company.

Prior to that time, to wit, on the 19th of December, 1868, the New York Central Railroad Company ascertained and determined that they had expended moneys, of the earnings of the company, equal in amount to eighty per cent. of the capital stock, for the purpose of constructing and equipping their railroad, and in the purchase of real estate and other properties, with a view to the increase of their traffic; and in order that the stockholders might have evidence of such expenditure, and be entitled to reimbursement of the same at some convenient future period, they directed that a certificate, signed by the President and Treasurer of the company, be issued to the stockholders severally, declaring that such stockholder is entitled to eighty per cent. of the amount of the capital stock held by him, payable ratably with the other certificates issued under the same resolution, at the option of the company, out of their future earnings, with dividends thereon at the same rates and times as dividends shall be paid on the shares of the capital stock of the company, and that such certificates may be, at the option of the company, converted into stock whenever the company shall be authorized to increase its capital stock to an amount sufficient for such conversion.

Certificates of the kind were accordingly issued and delivered to the stockholders, severally entitled "interest certificates," and each "certifies that ——, being the holder, of —— shares of the capital stock of the company, is entitled to —— dollars, payable ratably with other certificates issued under the same resolution, at the pleasure of the company, out of their future earnings, with dividends thereon at the same rates and times as dividends shall be paid upon the shares of the capital stock of the company." Annexed thereto is also a memorandum that the certificate may be transferred on the books of the company, and a blank form for such transfer is also appended, as more fully set forth in the record.

Pursuant to the act of Congress the Assessor of the proper district assessed against the President, Directors, and company of the New York Central Railroad the following taxes, to wit:

Capital stock, Dec. 19, 1868	$28,795,000
Scrip dividend or interest certificate, equal to eighty per cent. of the capital stock	23,036,000
Tax on the same at five per cent.	$1,151,800
Penalty	1,000
Total	$1,152,800

Considerable delay ensued before any measures were adopted to collect the tax, and on the 24th of February, 1872, the Commissioner informed the Assessor of the district that on appeal to him he had come to the conclusion that the company was liable to pay a tax of five per cent., without penalty of six fifteenths of the entire dividend, which reduced the assessment to the sum of $460,720, and that he had instructed the Collector to collect that amount, adding that on the payment and presentation of proper vouchers the remainder of the assessment, to wit, $692,080, including the $1,000 penalty, would be abated. Part of the reduced assessment was collected from the proceeds of the sale of property belonging to the company, and the residue was paid by the company under protest.

Payment of the reduced assessment having been made by distraint or under protest, the plaintiffs brought suit against the Collector, in the State Court, to recover back the amount, and the suit, on motion of the defendant, was duly removed in to the Circuit Court of the United States for trial. Service was made and the defendant appeared and pleaded the general issue, and upon that issue the parties went to trial, and the verdict and judgment were for the plaintiffs for the whole amount claimed, with interest and costs of suit amounting to $600,981 12. Exceptions were filed by the defendant, and he sued out a writ of error and removed the cause into this court. Since the case was entered here the defendant has filed the following assignment of errors:

First—That he Circuit Court erred, in excluding the reports offered by the defendant for the purpose of showing that the interest certificates were subsequently merged in the capital stock of the plaintiff corporation.

Second—That the Circuit Court erred in instructing the jury that the action of the company, as evidenced by the resolution and the certificates issued to the stockholders, was not a declaration of a dividend scrip within the meaning of the Internal Revenue act then in force.

Third—That the Circuit Court erred in instructing the jury to render a verdict for the plaintiffs for the amount of the tax they paid to the defendant.

The court sustained these assignments of error in a long opinion, and reversed the judgment.

The Coal Trade.

The production for the week ending 10th inst is stated by the Philadelphia *Ledger* at 430,441 tons, and for the year 7,301 635 tons, against 10,911,656 tons to corresponding date last year, a decrease of 3,610,021 tons. The bituminous tonnage for the week was 72,452 tons, and for the year 1,673,522 tons, making a total of all kinds for the week of 502,893, and for the year of 8,975,157 tons, against 12,472,621 tons to same time last year, a decrease of 3,497,464 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 114,122 tons, and for the year 1,938,080 tons, of which 1,623,-904 was coal and 317,986 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 17th instant there were receipts of 75,000 tons of coal, shipments of 65,000 tons, leaving 50,000 tons on hand. The total receipts at Perth Amboy, to 12th inst., were 10,711 tons; total shipments, 6,747 tons; on hand, 3,963 tons. The *Ledger* adds:

The total production of coal this year to this date, it will be seen, is within a few pounds of 3⅛ millions of tons less than it was last year to corresponding date. The Schuylkill region is sending coal forward freely. The tonnage by both road and canal last week amounted to 118,807 tons, while in corresponding week last year it was but 4720 tons. The orders for coal come in freely for all sizes except those of lump and steamer. The demand for these sizes is slack, because of the great prostration of business in the manufacturing districts and the limited consumption by our steam marine. Unless there shall be some revival in the pursuits named the demand for coal will be materially shortened from what it would otherwise be.

☞ A series of experiments with safety valves will be commenced on September 14th, at the Washington Navy Yard, under the direction of Wm. Burnett, the Supervising Inspector General of steam vessels. Professor Barnard, of Columbia College, has been appointed chairman of the experimental steam boiler commissioner.

Marietta and Cincinnati Railroad.

The earnings of this road for the years ending December 31, 1873 and 1874, were as follows:

	1873.	1874.
From passengers.....	$503,816 91	$514,098 50
" freight	1,507,617 35	1,389,887 88
" mail.....	42,787 48	115,060 13
" express	63,765 70	59,910 81
" telegraph.....	8,227 03	8,508 47
" miscellaneous ..	660 26	7,044 85
	$2,126,874 73	$2,094,510 64
Expenses, viz:		
Machinery d'partment	$653 381 13	$565,801 00
Road department....	460,955 04	468,876 54
Transportation depart	414,144 90	391,350 69
Mileage of cars.....	54,442 67	48,159 38
Telegraph department	37,562 10	28,259 83
General expenses....	73,849 87	68,912 45
	$1,694,335 71	$1,571,359 89
Earnings more than expenses.....	$432,539 02	$528,150 75

The ratio of working expenses in 1873 was 79⅔ per cent; in 1874 it was 75 per cent. The decrease in gross earnings was $32,364 09; the decrease in expenses was $122,975 82; and the increase in net earnings $90,611 73. The net earnings for 1874 show an increase of 21 per cent., as compared with 1873, and of 27½ per cent., as compared with 1872.

The revenue from passengers was $514,098 50.

There was an increase in the number of through passengers of 6,257, and an increase in revenue of $4,457 23.

The increase in the number of local passengers was 37,121, and in revenue $6,718 95.

The total number of passengers, through and local, was 607,503—an increase in the number of 43,046, and in revenue of $10,281 59, as compared with 1873.

The revenue from freight was $1,389,887 88.

There was an increase of 18,275 tons of through freight transported, and a decrease in revenue of $121,990 29.

The depression in almost every description of trade—the natural result of the panic of 1873—the diminished European demand for the products of this country, and the consequent severe competition by all railways for the limited amount of trade offering, obliged this company to transport through freights at rates much lower than in any previous year.

That increased tonnage should be secured in a period of general dullness is remarkable.

If the rates of 1873, which were much lower than previous years, had been obtained, the revenue for 1874, from the transportation of through freights, would have exceeded by $132,746 79, the amount earned from this source.

The increase from local freights transported was 22,852 tons, and the increase in revenue $4,-260 82.

The reduction in rates for transportation of iron, oil, and some other articles of heavy freight, made necessary because of the depression in those particular branches of trade, explains the slight increase of revenue as compared with the largely increased tonnage.

In July, 1873, the Post office Department decided to forward by this most direct route the principal Western and Southwestern mails, and required for this service, daily, two postal cars in each direction. The revenue for 1874 from the transportation of mails is stated at $115,060 13. Of this amount, $27,673 were earned in the six months ended December 31, 1873, but not included in the revenue of that year, as the additional compensation was not adjusted until the close of 1874.

The receipts from express, telegraph, and miscellaneous sources were $75,464 13.

4,539 tons of new and rerolled rails and 156,-474 cross ties were laid during the year in the main line and branches.

Six miles of additional sidings were laid, at a cost of $59,154 42, and there were expended $42,-806 94 for ballasting, and $80,486 52 for widening embankments and cuts.

$7,297 03 were expended for new baggage and passenger cars, and $116,698 54 for 28 box, 50 side dump coal, 50 double deck stock, and 100 gondola cars.

The work of reducing Norwood grade from 105.6 feet to the mile to 26.4 feet to the mile was completed in the spring of 1874, and a second track laid for a distance of 8½ miles, making a continuous double track from Cincinnati of 9½ miles. The amount expended on this account was $43,149 84.

A wrought iron bridge for passing the Montgomery turnpike over the railroad, at Norwood, was built, and a new wrought iron bridge of three spans, each 124 feet, was commenced in December, over the Little Miami river, at Loveland, which will be completed in February next.

$29,828 17 were expended on account of new bridges.

The cost of right of way during the year was $1,976 30; and for grading depot grounds, $3,383 22.

There were expended $1,913 20 on account of new water stations, $2,041 on account of new machine shops, and $3,660 26 on account of new culverts.

11¼ miles of fencing were added during the year, at a cost of $7,294 17.

The necessity of improved depot facilities in Cincinnati, for the increasing freight business, has long been experienced, and, in place of the small and insufficient shed, a brick fire proof freight house, 624 feet long by 40 feet wide, fronting upon Second street, and extending from Park to Rose streets, has been built upon stone foundation walls, and divided into two sections by fire walls. The cost of this structure was $37,024.

A new station house has been commenced at Norwood. New stock pens at Martinsville and Leesburg, and a new oil house at Chillicothe, were completed at a cost of $4,909 66. New coal shutes were erected at Zaleski and Chillicothe, costing $2,273 98.

The coal used in Cincinnati is brought there principally by river from Pittsburgh, and in protracted seasons of low water, coal can be transported by rail, via Athens, from the mines upon the Hocking Valley road, and from those upon the Marietta and Cincinnati road, with profit. But a considerable traffic can be regularly obtained by transporting coal to Brighton station, for distribution in the western part of the city—successfully competing with "river coal," which requires a long and expensive haul from the river bank to that locality. To provide suitable facilities for the prompt and economical handling of this business, coal bins, with conveniences for discharging from cars to the bins, and from the bins to wagons, were completed in December, at a cost of $18,722, upon the land leased by the company, at Brighton.

This experiment, put into operation in December, when, from the river, coal was remarkably cheap and abundant, has proved very satisfactory, and a marked increase in the coal trade may be reasonably expected hereafter.

An examination of the working expenses, as exhibited in table C, will show that a decrease of expenditures was made in every item except "Rails and Cross ties."

It was regarded as true economy to maintain the road bed at the highest standard, and the entire line between the Ohio river and Cincinnati is certainly in better condition than at any previous time in the company's history. The reduction in the machinery and transportation department expenses, and the remarkable freedom from

accidents, may be properly attributed in a great degree to this cause.

The company's shops at Zaleski, which were auxiliary to the principal machine shops at Chillicothe, were destroyed by fire, on September 9, 1874, together with supplies and 24 cars—the total loss being estimated at $45,000. A competition at once arose at the principal towns upon the line, to secure the shops, which would have to be rebuilt. After a spirited contest, the decision was made in favor of Zaleski, upon a donation of $47,500, being the largest amount offered. This sum will enable the company to substitute shops built of brick, in place of the frame structures destroyed.

CINCINNATI AND BALTIMORE RAILWAY.

The increase of live stock trade and the requirements for additional track facilities in the neighborhood of Cincinnati, have made it necessary to widen the embankment on the Cincinnati and Baltimore road, to accommodate additional tracks. This work has been contracted for, and the Cincinnati and Baltimore road will be laid with four tracks from the intersection with the Indianapolis and Cincinnati road to the stock yards, a distance of about three miles, during the year 1875.

For the interchange of through cars between the Marietta and Cincinnati and the Ohio and Mississippi companies, the construction of the Storr's Branch of the Cincinnati and Baltimore Railway, to connect the tracks of the two railways, was commenced in 1873. This track diverges from the main track of the Cincinnati and Baltimore Railway, near Eighth street, in Cincinnati, and extends to the Ohio and Mississippi Company's tracks, at Storr's, and, when completed, will greatly relieve the city yards, and perfect the most economical system of transfer which can possibly be arranged for the large and constantly increasing traffic with the Ohio and Mississippi road. $52,435 27 have been expended on this account.

BALTIMORE SHORT LINE RAILWAY.

The Baltimore Short Line was opened for business on the 15th of November, 1874.

"It commences at a point 5¼ miles east of Athens; follows the valley of Hocking river 17 miles, to near Coolville; thence, by the ravine of Skunk run, it ascends in 8 miles to the summit of the ridge dividing the tributaries of the Hocking from those of the Ohio river, at Torch. From the summit, the descent toward the Ohio river is made along and across the branches of Knowles' run, across Sawyer's run, and, at 8¼ miles from Torch, across the Little Hocking river near the confluence with the Ohio. The line, after crossing Little Hocking river, passes for nearly 2 miles along 'Narrows,' between the hill and the river, and then reaches Belpre Plain, over which it runs, nearly in a direct line, to the western approach to the bridge of the Baltimore and Ohio R. R. Co., crossing the Ohio river from Belpre to Parkersburg. The entire length of the line is 80 miles, being a reduction of 10 miles as compared with the old route via Scott's Landing. The location for the line is well chosen. The maximum gradient is 1 in 100, or at the rate of 52.8 feet per mile; and the minimum radius of curvature 1,320 feet. The planes on which the maximum gradient is used are not of great length, most of the line having light grades, and the minimum radius of curvature was resorted to but in very few cases. The Hocking river is crossed six times. At each crossing substantial masonry was built, founded, in every case but one, on rock or piles. The superstructures of the bridges are of wrought iron, built by the Keystone Bridge Company of Pittsburgh. The frequent crossing of so large a stream as the Hocking river, the masonry and bridges for other streams, the necessity for maintaining the grade of the road in the Hocking Valley, and everywhere, above the highest flood which is known to have occurred, and the general heavy character of the graduation and masonry, together with the substantial manner adopted for the construction of all of the work, have caused the cost of the railway to be large; but its advantages will, in the end, amply compensate for its cost of construction. All of the line was ballasted before the opening for traffic on it; the westerly 25 miles with broken sandstone or limestone, and the remainder with Belpre gravel. The Baltimore and Ohio Company has established, near the eastern terminus of the Short Line, at Belpre, extensive stock yards for the accommodation of the large number of animals which are passed to the East by the Marietta and Cincinnati and Baltimore and Ohio Railroads."

The authorized capital stock of the Baltimore Short Line is $1,125,000, and a first mortgage has been placed upon the road for $750,000.

The stock is guaranteed by the Marietta and Cincinnati Company at the rate of eight per cent., and the bonds at seven per cent. per annum; and the sum of these guarantees, with an amount not exceeding $3,000, for maintenance of the organization, will fix the rental to be paid by the Marietta and Cincinnati Company for the use of the Baltimore Short Line, upon its completion, which will be in the spring of 1875, as only some additional sloping and widening of cuts and embankments remain to be done.

It is designed to place the stock of the Baltimore Short Line upon the market for sale, and from the amount realized repay to the Baltimore and Ohio Company the cash advanced to the Marietta and Cincinnati Company for the construction of the line.

The improper location, imperfect construction, steep and irregular grades, and high and long trestles of the old road between Warren's and Scott' Landing, made it a most expensive and difficult line to maintain, and one which, notwithstanding the great care and constant watchfulness of the company's employees, and heavy outlay in operating, was always regarded by the traveler with apprehension. The entire through trade is now run over the Baltimore Short Line.

The schedule of passenger trains between Athens and Parkersburg has been reduced one hour, and a line much shorter, perfectly built, and in all respects most satisfactory, is presented to the public, and will doubtless attract a very large and regular through travel. Freight engines which hauled only 12 loaded cars over the old line between those points, have no difficulty, in view of the easy grades and curvatures of the new route, in hauling 30 loads. The increased economy thus derived in operating the road is very decided.

Since the opening of the Baltimore Short Line, one mixed train, daily, in each direction, has been found sufficient to accommodate all the local passengers and freight traffic upon the old line.

The completion of the Baltimore Short Line furnishes the last link in forming a perfect route between Baltimore, Washington and Cincinnati.

To Washington, the distance from Cincinnati, via Parkersburg, is 135 miles, and to Baltimore 67 miles, shorter than the competing route by the Pennsylvania road, via Pittsburgh. From Cincinnati to New York, via New York Central, the distance is 882 miles; via Erie Railway, 861 miles; via Pennsylvania Railroad, 744 miles. To Baltimore, via Baltimore Short Line, the distance is 579 miles, being 250 miles less to the seaboard than the average distance to New York. From St. Louis, the difference in favor of Baltimore, as compared with the average distance to New York, is 220 miles, and from Louisville 256 miles.

The superior location and excellent shipping facilities of Baltimore are attracting to that point a very large foreign trade, the benefits of which are shared by the Marietta and Cincinnati Company.

During the year, the Baltimore and Ohio Company has completed an elevator with a capacity of 1,500,000 bushels, making the total capacity for storage of grain 2,000,000 bushels at Locust Point. With such advantages, it is safe to assume that an immense and profitable traffic will be secured by the Marietta and Cincinnati road, whenever the trade of the country is restored to its normal condition.

Rapid Transit in the City of New York.

CHAPTER 606, LAWS OF 1875.

AN ACT further to provide for the construction and operation of a steam railway or railways in counties of the State.

Passed June 18,1875; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Whenever it shall appear, by the application of fifty reputable householders and tax payers of any county in this state, verified upon oath before a justice of the supreme court, that there is need in such county of a steam railway or railways for the transportation of passengers, mails or freight, the board of supervisors of said county may within thirty days after presentation to them of such application, duly verified as aforesaid, appoint five commissioners who shall be residents of the said county and who shall have full power and authority to do and provide all that they are hereinafter directed to do and provide, and a certificate of whose appointment, signed by the chairman and clerk of such board, shall be filed in the office of the secretary of state, and a duplicate thereof in the office of the clerk of such county. But whenever any such proposed railway shall be wholly within the limits of any city in the state, then such application shall be made only to the mayor of said city, and such mayor shall appoint such commissioners as aforesaid.

Sec. 2. Within ten days after their appointment, each of said commissioners shall take and subscribe an oath, faithfully to perform the duties of his office, the said oath to be filed in the office of the secretary of state, and a duplicate thereof in the office of the clerk of such county, and shall give a bond to the people of the State of New York, in the penal sum of twenty five thousand dollars, conditioned for the faithful performance of the duties required by this act, which bond shall have two or more sureties, to be approved by a justice of the department of the supreme court including such county, and shall be filed in said clerk's office, before said commissioner shall assume or perform any of the duties of his office.

Sec. 3. Within fifteen days after their appointment, the said commissioners shall meet at some convenient place in such county, and organize themselves as a board with appropriate officers.

Sec. 4. Said commissioners shall, within thirty days after such organization, determine upon the necessity of such steam railway or railways, and if they find such railway or railways to be necessary in such county, they shall, within sixty days after such organization, fix and determine the route or routes for such steam railway or railways, and the said commissioners shall have the exclusive power to locate the route or routes of such railway or railways, over, under, through or across the streets, avenues, places or lands in such county, except "Broadway and Fifth avenue, below Fifty-ninth street, and Fourth avenue, above Forty-second street, in the city of New York," and except such portions of streets and avenues as are legally designated for the main line of or occupied by an elevated or underground railway, in actual operation, and except such as are contained in public parks, or occupied by buildings belonging to such county, or to this state, or to the United States, and except that portion of the city of Buffalo lying between Michigan and Main streets, and to provide for the connection or junction with any other railway or bridge, provided that the consent of the owners of one half in value of the property bounded on, and the consent also of the local authorities having the control of that portion of a street or highway upon which it is proposed to construct or operate such railway or railways be first obtained, or in case the consent of such property owners cannot be obtained, that the determination of three commissioners, appointed by the general term of the supreme court in the district of the proposed construction given after a due hearing of all parties interested and confirmed by the court, that such railway or railways ought to be constructed or operated be taken in lieu of the consent of such property owners.

Sec. 5. The said commissioners having, by such public notice as they may deem most proper and effective, under such conditions and with such inducements as to them may seem most expedient, invited the submission of plans for the construction and operation of such railway or railways the said commissioners shall meet at a place and upon a day, in such public notice named, not more than ninety days after their organization, and decide upon the plan or plans for the construction of such railway or railways with the necessary supports, turnouts, switches, sidings, connections, landing places, stations, buildings, platforms, stairways, elevators, telegraph and signal devices, or other requisite appliances upon the route or routes, and in the locations determined by them.

Sec. 6. The said commissioners shall, within the like period of ninety days after their organization, fix and determine the time within which such railway or railways, or portions of the same, shall be constructed and ready for operation, together with the maximum rates to be paid for transportation and conveyance over such railway, or railways, and the hours during which special cars or trains shall be run at reduced rates of fares. The said commissioners shall also, within the like period of ninety days after their organization, fix and determine the amount of the capital stock of the company to be formed for the purpose of constructing, maintaining and operating such railway, or railways, for public use in the conveyance of persons and property, the number of shares into which such capital stock shall be divided, and the percentage thereof to be paid in cash on subscribing for such shares.

Sec. 7. The said commissioners shall prepare appropriate articles of association for the company, in the last section mentioned, in which said articles of association shall be set forth and embodied as component parts thereof, the several conditions, requirements and particulars by said commissioners determined pursuant to sections four, five and six of this act, and which further shall provide for the release and forfeiture, to the supervisors of the county, of all rights and franchises acquired by such corporation in case such railway, or railways, shall not be completed within the time and upon the conditions therein provided; and the said commissioners shall thereupon, and within one hundred and twenty days after their organization as aforesaid, cause a suitable book of subscription to the capital stock of such company to be opened, pursuant to due public notice, at a banking office in such county.

Sec. 8. Whenever the whole capital stock of such company, or an amount of such capital stock proportioned to the part of such railway or railways directed by said commissioners to be first constructed, shall have been subscribed by not less than twenty-five persons, and the fixed percentage of such subscriptions shall have been paid in cash, the said commissioners shall, by written or printed notice of ten days, served personally, or by mail, call a meeting of such subscribers for organization. At such meeting, or at any subsequent one to which the same may be adjourned, a majority in number and amount of said subscribers may elect persons, of a number to be theretofore determined by said commissioners, who shall be directors for one year of the corporation formed for the purpose of constructing and operating said railway or railways.

Sec. 9. Within ten days after the election of said directors, said commissioners shall deliver to said directors a certificate in duplicate, verified by the oath of three commissioners, before a justice of the supreme court, setting forth the said articles of association and the organization of the company for the purposes in this act mentioned and provided for; and within five days after the reception by them of such certificate, three of the directors so elected shall make affidavit, in duplicate, that the full amount of stock has been subscribed in good faith, and the prescribed percentage paid in cash thereon, and that it is intended, in good faith, to construct, maintain and operate the railway or railways in such articles of association mentioned, and the said directors shall file said certificates and articles in the office of the secretary of state, and a duplicate of the same in the office of the clerk of the county wherein such railway or railways shall be located, and thereupon the persons who have so subscribed such articles of association, and all persons who shall become stockholders in such company, shall be a corporation by the name specified in such articles of association, and shall possess the powers and privileges granted to corporations, and be subject to the duties and restrictions of corporations. A copy of such certificate and affidavit, certified to be a copy by the secretary of this state, or his deputy, shall be presumptive evidence of the incorporation of such company and of the facts therein stated.

Sec. 10. Said directors shall be chosen annually, by a majority of the votes of the stockholders voting at such election, in such manner as may be prescribed in the by-laws of the corporation, and they may and shall continue to be directors until others are elected in their places. In the election of directors, each stockholder shall be entitled to one vote for each share of stock held by him. Vacancies in the board of directors shall be filled in such manner as shall be prescribed by the by-laws of the corporation. Every corporation formed under this act shall be subject to the regulations concerning the election of directors of moneyed corporations, contained in article second of the second title of the eighteenth chapter of the first part of the Revised Statutes. The inspectors of the first election of directors shall be appointed by the commissioners. No person shall be a director unless he shall be a stockholder owning stock absolutely in his own right, and qualified to vote for directors at the election at which he shall be chosen. At every election of directors the books and papers of such company shall be exhibited to the meeting, provided a majority of the stockholders present shall require it. The directors shall appoint one of their number present; they may also appoint a treasurer and secretary, and such other officers and agents as shall be prescribed by the by-laws.

Sec. 11. The directors may require the subscribers to the capital stock of the company to pay the amount by them respectively subscribed, in such manner and in such installments as they may deem proper. If any stockholder shall neglect to pay any installment as required by a resolution of the board of directors, the said board shall be authorized to declare his

stock, and all previous payments thereon, forfeited for the use of the company; but they shall not declare it so forfeited until they shall have caused a notice in writing to be served on him personally, or by depositing the same in the post office, postage prepaid, properly directed to him at the post office nearest his usual place of residence, stating that he is required to make such payment at the time and place specified in said notice; and that if he fails to make the same, his stock, and all previous payments thereon, will be forfeited for the use of the company; which notice shall be served as aforesaid, at least sixty days previous to the day on which such payment is required to be made.

Sec. 12. Each stockholder of any company formed under this act shall be individually liable to the creditors of such company, to an amount equal to the amount unpaid on the stock held by him, for all the debts and liabilities of such company, until the whole amount of the capital stock so held by him shall have been paid to the company, and all the stockholders of any such company shall be jointly and severally liable for the debts due or owing to any of its laborers and servants, other than contractors, for personal services for thirty days' service performed for such company, but shall not be liable to an action therefor before an execution shall be returned unsatisfied in whole or in part against the corporation, and the amount due on such executions shall be the amount recoverable with costs against such stockholders; before such laborer or servant shall charge such stockholder for such thirty days' service, he shall give him notice in writing within twenty days after the performance of such service, that he intends so to hold him liable, and shall commence such action therefor within thirty days after the return of such execution unsatisfied, as above mentioned; and every such stockholder against whom any such recovery by such laborer or servant shall have been had, shall have a right to recover the same of the other stockholders in said corporation, in ratable proportion to the amount of the stock they shall respectively hold with himself.

Sec. 13. The stock of every company formed under this act shall be deemed personal estate, and shall be transferable in the manner prescribed by the by-laws of the company, but no share shall be transferable until all previous calls thereon shall have been fully paid in.

Sec. 14. In case the capital stock of any company formed under this act is found to be insufficient for constructing and operating its road, such company may, with the concurrence of two-thirds in amount of all its stockholders, increase its capital stock from time to time, to any amount required for the purposes aforesaid. Such increase must be sanctioned by a vote in person, or by proxy, of two-thirds in amount of all the stockholders of the company, at a meeting of such stockholders, called by the directors of the company for that purpose, by a notice in writing to each stockholder, to be served on him personally, or by depositing the same, properly folded and directed to him at the post office nearest his usual place of residence, in the post office, postage prepaid, at least twenty days prior to such meeting. Such notice must state the time and place of the meeting, and its object, and the amount to which it is proposed to increase the capital stock. The proceedings of such meeting must be entered on the minutes of the proceedings of the company, and thereon the capital stock of the company may be increased to the amount sanctioned by a vote of two-thirds in amount of all the stockholders of the company as aforesaid.

Sec. 15. No person holding stock in any such company, as executor, administrator, guardian, or trustee, and no person holding such stock as collateral security, shall be personally subject to any liability as stockholder of such company; but the person pledging such stock shall be considered as holding the same, and shall be liable as a stockholder accordingly; and the estates and funds in hands of such executor, administrator, guardian or trustee, shall be liable in like manner, and to the same extent as the testator or intestate or the ward or person interested in such trust fund would have been if he had been living and competent to act, and held the same stock in his own name.

Sec. 16. As often as any contractor for the construction of any part of a railroad, which is in progress of construction, shall be indebted to any laborer for thirty or any less number of days' labor performed in constructing said road, such laborer may give notice of such indebtedness to said company in the manner herein provided; and said company shall thereupon become liable to pay such laborer the amount so due him for such labor, and an action may be maintained against said company therefor. Such notice shall be given by said laborer to said company within twenty days after the performance of the number of days' labor for which the claim is made. Such notice shall be in writing and shall state the amount and number of days' labor, and the time when the same was performed, for which the claim is made, and the name of the contractor from whom due, and shall be signed by such laborer or his attorney; and shall be served on an engineer, agent or superintendent employed by such company having charge of the section of the road on which such labor was performed, personally, or by leaving the same at the office or usual place of business of such engineer, agent or superintendent with some person of suitable age. But no action shall be maintained against any company under the provisions of this section, unless the same is commenced within thirty days after notice is given to the company by such laborer as above provided.

Sec. 17. Every such corporation shall have the right to acquire and hold such real estate, or interest therein, as may be necessary to enable them to construct, maintain and operate the said railway or railways and such as may be necessary for stations, depots, engine-houses, car-houses and machine-shops, and, in case any such corporation cannot agree with the owner or owners of any such real estate, or of any interest therein, it shall have the right to acquire title to the same in the manner and by the special proceedings prescribed in this act.

Sec. 18. For the purpose of acquiring such title, the said company may present a petition, praying for the appointment of commissioners of appraisal, to the supreme court, at any general or special term thereof, held in the judicial district in which the real estate described in the petition is situated. Such petition shall be signed and verified according to the rules and practice of such court. It must contain a description of the real estate which the company seeks to acquire; and it must, in effect, state that the company is duly incorporated, and that it is the intention of the company, in good faith, to construct and finish a railroad from and to the places named for that purpose in its articles of association; that the whole capital stock of the company has been in good faith subscribed as required by this act; that the land described in the petition is required for the purpose of constructing or operating the proposed road; and that the company has not been able to acquire title thereto, and the reason of such inability. The petition must also state the names and places of residence of the parties, so far as the same can by reasonable diligence be ascertained, who own or have, or claim to own or have, estates or interests in the said real estate; and, if any such persons are infants, their ages as near as may be, must be stated; and, if any of such persons are idiots or persons of unsound mind, or are unknown, that fact must be stated, together with such other allegations and statements of liens or incumbrances of said real estate as the company may see fit to make. A copy of such petition, with a notice of the time and place the same will be presented to the supreme court, must be served on all persons whose interests are to be affected by the proceedings, at least ten days prior to the presentation of the same to the said court.

Sec. 19. On presenting such petition to the supreme court as aforesaid, with proof of service of a copy thereof, and notice as aforesaid, all persons whose estates or interests are to be affected by the proceedings, may show cause against granting the prayer of the petition, and may disprove any of the facts alleged in it. The court shall hear the proofs and allegations of the parties, and if no sufficient cause is shown against granting the prayer of the petition, it shall make an order for the appointment of five disinterested and competent persons, who reside in the county where the premises to be appraised are situated, commissioners to ascertain and appraise the compensation to be made to the owners or persons interested in the real estate proposed to be taken in such county for the purposes of the company, and to fix the time and place for the first meeting of such commissioners.

Sec. 20. The comissioners shall take and subscribe the oath prescribed by the twelfth article of the constitution. Any one of them may issue subpœnas, administer oaths to witnesses, and any three of them may adjourn the proceedings before them from time to time, in their discretion. Whenever they meet, except by the appointment of the court, or pursuant to adjournment, they shall cause reasonable notice of such meetings to be given to the parties who are to be affected by their proceedings, or their attorney or agent. They shall view the premises described in the petition, and hear the proofs and allegations of the parties, and reduce the testimony, if any is taken by them, to writing; and after the testimony is closed in each case, and without any unnecessary delay, and before proceeding to the examination of any other claim, a majority of them, all being present and acting, shall ascertain and determine the compensation which ought justly to be made by the company to the party or parties owning or interested in the real estate appraised by them; and in determining the amount of such compensation, they shall not make an allowance or deduction on account of any real or supposed benefits which the party in interest may derive from the construction of the proposed railroad. They, or a majority of them, shall also determine and certify what sum ought to be paid to a general or special guardian or committee of an infant, idiot, or person of unsound mind, or to an attorney appointed by the court to attend to the interest of any unknown owner or party in interest not personally served with notice of the proceedings, and who has not appeared, for costs, expenses and counsel fees. They shall make a report to the supreme court, signed by them or a majority of them, of the proceedings before them, with the minutes of the testimony taken by them, if any. Said commissioners shall be entitled to three dollars for their expenses and services for each day they are engaged in the performance of their duties, to be paid by the company.

(To be continued.)

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, July 24, 1875.

Financial and Commercial Affairs.

Further advices from Europe have been confirmatory of the injury to the crops of France and England, through the recent heavy rains, and to the crops of Hungary and other portions of the Continent, through unfavorable weather also; accompanied by reports of very active, buoyant, and excited markets for Breadstuffs—due partly to the manipulations of speculative operators. These advices have tended to stimulate the dealings in Flour and Grain in our own markets, and to strengthen values materially. The export inquiry for Spring Wheat, new mixed Western Corn, and Shipping grades of Flour has been very brisk, during the week, and prices have advanced sharply. Speculation has likewise been quite active, and has more or less adversely affected the course of legitimate movements. The speculative feature has been most prominent in the Chicago and Milwaukee markets. With the largely increased call for Breadstuffs, and the unusually protracted abundance of Money, the Money market has been working very easy, with call loans quoted down to the almost nominal rates of 1½@2½; and rates on strictly choice to prime mercantile credits at from 3½@5 per cent per annum. At even these low figures, the requirements of borrowers have not been equal to the absorption of the current offerings of capital; and a further accumulation has been noted at this point, which has been reflected by the augmented reserves, in all items, of the City banks. The very gratifying increase of demand for Breadstuffs for shipment, and the encouraging home news as regards the harvested or maturing crops have tended to the improvement of the Fall trade prospects, which are now looked on as unexpectedly favorable. The probabilities are deemed altogether as on the side of a prosperous business, which will benefit all interests, and must be a very welcome source of profit and relief to the great carrying lines, communicating with the interior, as well as to the shipping world. The City Banks last week augmented their reserve of legal tender notes $3,134,100; while adding to their deposit item $421,400, and their specie average $27,600. They report a reduction of $1,308,000, in the loans and discounts, and a falling off of $52,300 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $58,771,858 against $53,850,112,

the preceding week; and a coin board of $34,262,591 against $36,016,665 on the previous return. The City bank exchanges in currency during the week, were $385,945,749, or a daily average of $64,324,291. The customs revenue of the port, during the week, was $2,168,000. The City banks reported their average of gold last week at $16,964,900, and their greenback average at $73,795,300. Their deposits stood at $250,826,600. The loan item was $279,558,800. The circulation was $18,801,600.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $28,053,550.

The aggregate of the outstanding U. S. currency, of all denominations, July 1, was $417,971,111 69. The outstanding amount of legal tender notes is $375,771,580. The National bank circulation is now $351,618,724, including $2,538,500 of national gold bank notes.

On Wednesday, the cash balances of the Treasury Department at Washington were of Currency, $3,094,382; special deposit of legal tenders for the redemption of certificates of deposit, $61,500,000. Coin, $68,653,819. Coin certifiates, $23,437,100.

The week's import entries of Foreign Merchandise at New York, were $6,641,229, and included of dry goods $1,442,471.

The income of the Government from internal revenues in the fiscal year, since July 1. 1875, has been about seven millions.

Gold has again declined materially, and has been much less confidently dealt in, especially on speculative account. The augmented trade, in the export line, in domestic produce, chiefly in Flour and Grain, has been decidedly adverse to anything like buoyancy in the speculation. The customs call has been moderate, and the export inquiry lighter. The extremes of the week have been 112⅝@114⅞, closing on Wednesday at 112⅞ as against 114⅝ on Wednesday of the preceding week. The specie outflow last week was $1,962,221 against $2,959,605 the previous week. The imports of specie at this port since Jan. 1, have been $7,687,227, against $2,801,067 same time last year. The customs demand for Gold last week averaged $361,334. Foreign Exchange has been in better supply and less request. The offering of produce bills have been more liberal, due to the increased export movements in Flour, Spring Wheat, and new mixed Western Corn. Bankers' sixty day bills on London closed on Wednesday, at $4 86@$4 87; sight bills on London at $4 89@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,203,632. The week's imports of Dry Goods and general merchandise were to the specie value of $6,641,229 against $6,358,478 same week last year.

The specie exports from San Francisco, Jan. 1, to July 1, were $26,309,203, against $13,053,062 same time last year.

With the decline in Gold, Government Securities have receded fully 1@1¼ per cent, yet have not been offered with freedom in any instance, and have met with prompt sale at the ruling figures.

U. S sixes of 1881 closed on Wednesday of this week at 121@121¼; U. S. Five-Twenties of 1862, at 115¾@116; U. S. Five-Twenties of 1864 at 117@117⅛; U. S. Five-Twenties of 1865 118⅞@119⅛; U. S. Five-Twenties of 1865 consolidated, 118⅛@118¼; U. S. Five-Twenties of 1867, 119¾@120; U. S. Five-Twenties of 1868, 119¾@121; U. S. Ten-forties at 117@117¼; U. S. Fives of 1881,(Funding Loan) 116⅛@116⅜; Six per cent. currency Sixes from 122¼@122¾.

State and Railway bonds have been in fair request, at steadier rates. And in the line of Railway and Miscellaneous share property, a livlier business has been reported, with values closing stronger.

Breadstuffs, as already noted, have been unusually active and buoyant in price. Provisions and Cotton have been moving moderately at variable rates. Naval Stores, Petroleum, Tobacco and Wool have been attracting less attention. Dry Goods, Hardware, and Boots and Shoes, have been more sought after. Hides, Leather, Fish, Fruit, and East India Goods have been comparatively quiet. Metals have been held with firmness as a rule, but have been without much show of animation. Eglinton Pig Iron quoted here at $29 50@$31; Glengarnock, $32; Coltness, $31@$32; No. 1 American Pig at $26@$28; No. 2 do. at $24@$26; Forge, $21@$24; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $26@$27. Wrought Scrap, $30@$32. Ocean freights have been decidedly more active and firmer, especially for Grain and Petroleum.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ At a meeting of the directors of the Chicago, Milwaukee and St. Paul Railway Company in this city on the 20th inst., a resolution was passed directing the purchase of five locomotives and one hundred freight cars, to meet anticipated requirements of increased traffic in moving the crops this fall.

☞ The Warwick Iron Company of Pottstown, Pa., will soon complete their new Furnaces. They are putting in RIEHLE BROS. "Self-adjusting" Railroad Track Scales, also their celebrated Furnace-charging Scales. This firm is also erecting two 40 ton track scales on the Chester Valley and Berks County Railroads, and others in different directions.

☞ Bids for the construction of the Columbus and Toledo Railroad, in whole or in part, and including all materials necessary to complete the whole line ready for equipment, will be received at the office of the company, in Columbus, Ohio, until noon, on the 3d of August next. M. M. Green, Esq., is President of the company.

Revival of Business.

The Brooks Locomotive Works, of Dunkirk, N. Y., have contracted with the Erie Railway Company for the construction of twelve locomotives. Thus, week by week, are we called upon to record the resumption or revival of business among our large manufacturing establishments. The energies of our people, so long dormant, are becoming aroused. The wheels of industry are beginning again to revolve, and the locomotive—the only good motive for riding a man upon a rail—which, with its consort or co-partner, the car, has been the last to feel the effects of the return to prosperity (as it was the first to succumb to adversity), is again being called into requisition. Neither locomotives nor cars, nor the rails upon which they are driven, will endure forever. Since the commencement of the panic, repairs and renewals of parts have been the order of the day, until, like the boy's Jack-knife, though nominally the same, but little of the original article remains. The receipt of this order by the Brooks Locomotive Works was undoubtedly a "piece of good news" to the citizens of Dunkirk, as the success of that establishment must conduce in a large measure to the "prosperity of the city." We should be glad to announce the full employment of every manufacturing and industrial establishment in the country; for then, and not till then, will peace and prosperity return to the land, and "full and plenty of everything" to all the inhabitants thereof.

☞ The wheat and barley crops of Dakota are said to be exceedingly heavy. The yield of wheat will be fully 25 bushels to the acre, or about 7,000,000 bushels in the Territory. This will be over 150 bushels to each inhabitant. Oats and corn are also large, and promise finely, as well as potatoes and other vegetables.

☞ At a meeting of the directors of the Erie Railway Company on the 20th inst., Hugh J. Jewett was elected President, W. P. Shearman Treasurer, and A. R. MacDonough Secretary.

☞ Mr. J. Morton Hall has been promoted to the position of General Passenger and Ticket Agent of the Allegheny Valley Railroad Company.

☞ The Rolling Mill of Messrs. W. D. Wood & Co., of McKeesport, Pa., is again running on full time.

☞ The preliminary survey of the narrow gauge railroad from Cincinnati to Lebanon has been completed. It is said to be highly satisfactory.

☞ The final survey of the Columbus and Toledo Railroad is now being made. Phil. D. Fisher, of Columbus, Ohio, is Chief Engineer.

OFFICE OF THE COMMISSIONERS OF RAPID TRANSIT, PART 2, COURT OF COMMON PLEAS, NEW COURT HOUSE, NEW YORK, July, 14, 1875.

The Commissioners of Rapid Transit hereby give notice that for the purpose of expediting the business for which they were appointed, they request that all plans and suggestions intended to be communicated to them as to route or method of construction or operation of a Rapid Transit Railway, be made to them in writing on or before August 1st, 1875, at this office. Models and drawings may be left at this office on any day except Saturday between 10 A. M. and 3 P. M.

JOSEPH SELIGMAN,
President.

CORNER OF PINE.

Northern Pacific Railroad Company.

Notice is hereby given that the time within which to prove claims before me, under Sections FIRST and FIFTH of the decree in the suit of Cooke and others, complainants, against the Northern Pacific Railroad Company, defendant, (such claims being only for legal expenses and charges in connection with the administration of the trust, and expenses of this suit,) is extended to the 14th day of August, 1875, at 3 o'clock in the afternoon, and the time within which to prove all the other claims is extended to the 27th July inst.

KENNETH G. WHITE,
Master Commissioner.

NEW YORK, July 14, 1875.

PHILADELPHIA AND READING RAILROAD CO., OFFICE No. 227 SOUTH FOURTH ST., PHILADELPHIA, June 30, 1875.

DIVIDEND NOTICE.

THE TRANSFER BOOKS OF THIS COMPANY will be closed on Tuesday, July 6, and reopened on Monday, July 19. A quarterly dividend of two and a half per cent. has been declared on the preferred and common stock, clear of all taxes, payable in cash, on and after the 30th of July next, to the holders thereof, as they shall stand registered on the books of the company at the close of business on the 6th of July.

All dividends payable at this office, where blank powers of attorney can be obtained.

S. BRADFORD, Treasurer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO., NEW YORK, June 22, 1875.

A DIVIDEND OF FOUR PER CENT HAS been declared by this Company, payable on the second day of August next, to the holders of full paid shares registered at the close of the fourteenth day of July next, after which, and until the fifth day of August, the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

A Locomotive with Legs.

At a sitting of the French Academy of Sciences recently, M. Tresca exhibited a model of a locomotive engine now being tried on the Eastern railway. This engine has no wheels, but what may be called legs. It does not roll; it walks, runs, or gallops. It is like an ordinary railway engine, with straight rods terminating in broad circular skates. There are three legs in front and three behind. The moving cylinders instead of turning wheels, raise the feet, and the whole acts something after the fashion of a three legged horse. This invention is especially adapted for carrying great weights up a decline. The engine at work on the Eastern railway weighs ten tons, and goes seven or eight kilometers an hour, and can accomplish, if desired, twenty kilometers. Of course this style of locomotive is not likely to displace the one now in use, but it is especially applicable to mountain railways, and is a step in a new direction. The model exhibited at the Academy of Sciences ascended an incline of twenty five degrees with ease.

Commerce of New York.

The foreign imports at New York for the month of June, 1875, are officially stated as follows:

	1874.	1875.
Entered for consumpt'n.	$13,011,657	$9,211,056
Do. for warehousing	11,403,659	10,822,510
Free goods	8,384,104	7,447,296
Specie and bullion	188,356	1,126,920
Total entered at port	$32,987,776	$28,107,782
Withdrawn fr. wareh'use	7,782,285	6,782,115

The foreign imports at New York for the six months from January 1, were:

	1874.	1875.
Entered for consumpt'n.	$90,222,199	$79,295,382
Do. for warehousing	65,490,757	55,179,624
Free goods	60,349,392	50,286,507
Specie and bullion	2,510,650	7,540,977
Total entered at port	$218,572,998	$192,252,390
Withdrawn fr. wareh'se.	57,063,661	48,660,956

The foreign imports at New York for the fiscal year ending June 30, were:

	1874.	1875.
Entered for consump.	$165,478,543	$162,538,613
Do. for warehousing	116,407,703	94,900,869
Free goods	95,880,050	98,485,746
Specie and bullion	18,324,556	11,487,898
Total entered at port	$396,090,852	$367,363,126
Withdrawn fr. wareh'use	113,783,469	96,378,837

The foreign imports at New York, monthly, for the fiscal year ending June 30, were:

	1874.	1875.
July	$31,178,126	$33,207,729
August	32,716,178	33,043,056
September	30,648,906	31,371,083
October	37,145,783	28,498,730
November	24,151,411	24,256,272
December	21,682,360	24,733,866
January	30,310,679	24,331,250
February	35,489,688	36,923,360
March	42,599,446	38,289,583
April	40,764,927	30,037,367
May	36,470,582	34,063,048
June	32,987,776	28,107,782
Total for 12 months	$396,090,852	$367,363,126
Deduct specie	18,324,556	11,487,898
Total mdse	$377,766,296	$355,925,228

The following is a description of imports for the year ending June 30,

	1874.	1875.
Dry goods	$106,706,644	$106,501,249
General mdse.	271,059,652	249,428,979
Specie and bullion	18,324,556	11,437,898
Total imports	$396,090,852	$367,363,126

The duties received at New York for the fiscal year ending June 30, were:

	1874.	1875.
July	$10,008,929 55	$9,654,569 49
August	13,023,085 73	11,802 593 20
September	10,959,722 11	11,400,278 11
October	7,656,384 95	8,678,567 56
November	5,588,388 86	6,364,435 53
December	6,298,957 85	6,312,995 27
January	10,042,084 05	8,072,846 12
February	10,186,365 08	11,811,046 95
March	10,793,792 81	10,323,619 78
April	9,596,770 71	9,603,087 82
May	8,369,597 45	7,474,171 61
June	7,899,248 17	6,656,462 06
Fiscal year	$110,428,272 32	$108,154,668 50

The exports from New York to foreign ports in the month of June, were:

	1874.	1875.
Domestic produce	$28,275,416	$23,403,223
Foreign free goods	247,428	129,802
Do. dutiable	725,265	783,617
Specie and bullion	7,106,958	17,679,494
Total exports	$36,355,067	$41,996,136
Do. exclusive of specie.	29,248,109	24,316,642

The exports from New York to foreign ports for six months from January 1, were:

	1874.	1875.
Domestic produce	$138,165,775	$117,188 914
Foreign free goods	1,146,252	1,300,257
Do. dutiable	4,119,582	3,028,397
Specie and bullion	29,618,666	50,355,338
Total exports	$173,050 275	$171,872,906
Do. exclusive of specie.	143,431,609	121,517,568

The exports (exclusive of specie) from New York to foreign ports for the fiscal year ending June 30, were:

	1874.	1875.
July	$25,621,503	$26,454,378
August	24,848,509	24,584,859
September	25,799,042	21,690,714
October	31,246,838	24,285,552
November	28,495,882	19,988,236
December	25,250,750	23,504,786
January	23,455,638	19,291,403
February	20,725,611	18,111,985
March	22,909,218	19,582,162
April	23,301,296	19,600,855
May	28,701,737	20,614,521
June	29,248,109	24,316,642
Total produce	$304,189,133	$262,026,092
Add specie	50,459,043	81,958,900
Total exports	$354,648,176	$343,984,992

The following is a description of exports from New York to foreign ports for the fiscal year ending June 30,

	1874.	1875.
Domestic produce	$298,469,949	$253,225,037
Foreign free goods	1,997,436	2,495,472
Do. dutiable	8,721,748	6,305,583
Specie and bullion	50,459,043	81,958,900
Total exports	$354,648,176	$343,984,992
Do. exclusive of specie.	304,189,133	262,026,092

☞ In the Connecticut Legislature, on the 16th inst., the Railroad Committee presented a long report on the Goodwin investigation, with a resolution for the appointment of a committee of five persons, including President Bishop, to prepare a form for the annual returns of the railroad companies to the commissioners, in place of those now required, and report to the next session of the General Assembly, giving special attention to making returns "simple, direct and void of ambiguity."

An Iron Mountain in the Lake Superior Region.

Two weeks ago a party of explorers, headed by Col. George Stuntz, returned to Duluth, and reported having discovered an iron mountain 60 miles north of Duluth, of which frequent rumors have before reached the settlements. Col. Stuntz describes the mountain as a ridge 8 miles long, 21 miles wide, and 1,200 feet high. Surface specimens of the ore brought to St. Paul appear quite pure, fully equal to the best specimens from the Iron Mountain of Missouri. Anson Northrup, of Duluth, accompanied by a geologist and a tourist party, started yesterday afternoon to definitely locate the boundaries of the mountain, and probably to arrange for establishing claims to it. The importance of the discovery is lessened by the known fact of iron ores lying abundant in all the country around the west end of Lake Superior, from the head waters of the St. Croix on the south to the Canadian boundary on the north shore. Specimens from the mountain brought here are, however, pronounced by experts, but without tests, to be of a most desirable kind.—*Milwaukee Wis.*

☞ The contract for constructing the Baltimore and Hampden Passenger railway has been awarded to Messrs. George E. Baldwin & Co. The road will be about two miles in length, and will run through one of the most picturesque suburban sections of Baltimore to the manufacturing village of Woodberry, which contains some 7,000 inhabitants. Work is to be commenced immediately, and the road completed in thirty days.

☞ The wheat crop now harvesting in the Indian Territory is reported to be the largest ever gathered there. It will average about twenty-two bushels to the acre. For want of suitable mills it will be shipped to Eastern markets. A splendid crop of corn is expected. It is also stated that the Indian country will ship more than $1,000,000 worth of cattle, and fatten $500,000 worth of hogs.

☞ Messrs. Martin G. Johnson, George L. Peck, C. Edwards, and James A. Fleury, of Jamaica, have been appointed a committee to solicit subscriptions to the capital stock of the proposed Bay Ridge and Jamaica Railroad, which will have its terminus at Jamaica Village.

☞ Arrangements are being perfected by the Chicago and Lake Huron Railroad Company, now building to Lansing, Mich., from Flint, to use the Detroit and Milwaukee and Jackson, Lansing and Saginaw tracks to Lansing, and trains will be run to Chicago by December 1.

☞ In the United States Circuit Court at Chicago on the 17th inst., Judge Drummond decided and Judge Davis concurred that a decree be entered that the Wabash and Erie Canal, of Indiana, be sold.

☞ In the United States District Court at Keokuk, Iowa, on the 16th inst., Judge Love appointed General Winslow as receiver in the case of the Burlington, Cedar Rapids and Minnesota Railroad Company.

☞ The earnings of the Newcastle and Franklin Railroad of Pennsylvania for the months of May and June, 1875, were $11,000 65, the expenses $4,100, and the net earnings $6,900 65.

☞ The earnings of the New Jersey and New York Railway for the month of June, 1875, were $16,846 44, against $10,457 68 in June, 1874, an increase of $6,388 77.

Finances of Louisiana.

The State Auditor of Louisiana has written a letter in reply to certain interrogations propounded to him by the Executive Committee of the Property Holders' Union of New Orleans. In this reply he says:

1. The present debt of the State, bonded and funded, amounts to $21,099,100.

2. The value of the real estate of this city, as assessed by the State on rolls of 1874 is $135,950,785.

3. The present rate of State taxation is fourteen and a half mills.

4. The present expenses of the State in full, that is, for all purposes, are as follows:

For support of Government	$1,172,000
For support of public schools	400,000
For interest on consolidated debt.....	1,050,000
For expenses of building levees.....	600,000
	$3,222,000

5. The amount of back taxes now due the State, that is, on property of value, excluding swamp lands, and taxes due prior to 1865, considered collectible, is estimated at $850,000.

☞ Articles of incorporation of the Amador Branch Railroad Company were filed on the 8th of July in the office of the Secretary of State of California. This company was organized for the construction and operation of a railroad and telegraph line between the town of Galt, on the Central Pacific Railroad, and Ione, Amador county; the total length of the proposed road being about twenty-seven miles. Capital, $675,000, in shares of $100 each. Directors—Leland Stanford, Mark Hopkins, Charles Crocker, C. P. Huntington and D. D. Colton. The principal place of business will be in San Francisco.

☞ The National Telegraph Company filed articles of incorporation in the County Clerk's office, San Francisco, on the 7th of July. The purpose of the corporation is the construction of telegraph lines between New York and San Francisco and all other cities and towns in the United States and Canada. The estimated length of these telegraph lines is 75,000 miles. The incorporators and first Directors are Michael Reese, Calvin W. Kellogg, James R. Keene, Faxon D. Atherton, William Sharon, William Burling and Alfred A. Cohen. The capital stock of the company is $25,000,000, divided into 250,000 shares.

☞ The great railway in Egypt, from Cairo to Khartoum, is progressing rapidly, and it is proposed to extend it westward to Darfur. Plans have been prepared for a railway from Khartoum to the frontier of Abyssinia, the acquisition of which country is regarded as only a question of time by the Egyptian government.

☞ The Chicago, Burlington and Quincy Rail road Company gives notice that on and after August 1 the company will substitute its own stock certificates for those of the Burlington and Missouri, and also that it will issue its own certificates of stock in exchange for the convertible Bonds of the Burlington and Missouri.

☞ The Belmont and Harrison Narrow Gauge Railroad Company filed a certificate of incorporation with the Secretary of State of Ohio on the 15th inst. The proposed road is to run from Bellair, in Belmont county, to Bowerstown, Harrison county. Capital stock $500,000. Incorporators, Isaac H. Patterson and others.

☞ The Directors of the North Brookfield (Mass.) Railroad Company have executed a contract with J. W. Crem of Norwalk, Conn., for the construction of the railroad from North Brookfield to East Brookfield for the round sum of $61,500. It is considered as settled that the whole cost of the road completed will not exceed the original estimate of $100,000. Work will be begun immediately, and the road will be in running order by the middle of November, if not before.

☞ Articles of incorporation have been filed of the North Side Horse Railroad Company; organized for the construction of a street railroad in the city of San Jose, Cal. Capital, $15,000, in shares of $25 each. Directors: Davis Divine, J. Y. McMillen, Dr. W. S. McMastry, C. G. Harrison, S. A. Moulton, D. C. Vestal and W. P. Dougherty. The principal place of business will be in San Jose.

☞ The Snow Fork Valley, Ohio, Railroad Company has been incorporated with a capital stock of $600,000. The object of the organization is the construction of a railroad from Shawnee to the Carbondale branch of the Marietta and Cincinnati Railroad. The line passes through Perry, Hocking and Athens counties. The corporators are James L. Birkey and others.

☞ Trains on the Walla Walla and Columbia River Railroad are now running regularly between Wallula and Frenchtown. It is expected that the road will be completed to Walla Walla by the 1st of September.

☞ At a meeting of the stockholders of the Baltimore, Calverton and Powhatan horse railway held on the 19th inst., the old officers and board of directors were re-elected.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.,) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

J. M. Brigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

Finances of California.

From the San Francisco Bulletin we learn that at the end of the fiscal year closing June 30, 1871, the State owed $3,646,847 08, and had assets amounting to $1,655,949 89, not including the State Prison property and State Insane Asylum, the only public buildings then completed, which made some offset to the deficit of nearly two millions. The debt of over three millions was illegally contracted, but its liquidation was voluntarily assumed by the people of the State. The total debt on June 30, 1875, was $3,842,384 54, an increase of nearly $200,000. The assets were $3,654,878 98, showing a deficit of only $187,505 56. Not included in the assets are the State Capitol, State Park, State Arsenal, State Normal School, State Prison, new Insane Asylum at Napa, and the Branch prison at Folsom. The debt is owned almost entirely within the State, the amount owed to outsiders being only $788,500.

☞ George S. Greene, Jr., has been appointed Engineer in Chief of the Department of Docks, upon the recommendation of Alfred W. Craven, William E. Worthem, Julius W. Adams, James P. Kirkwood, Colonel R. M. Hoe and other well known citizens.

☞ The locomotive for the Eureka and Ruby Hill Narrow Gauge Railroad arrived at Eureka, Nevada, on the morning of the 4th of July.

Notice to Contractors.

OFFICE COLUMBUS AND TOLEDO R. R. Co.,
COLUMBUS, O., July 15, 1875.

BIDS FOR THE CONSTRUCTION OF THE Columbus and Toledo Railroad will be received at the office of the Company, in the city of Columbus, in the State of Ohio, until noon, on the 3d day of August next.

Bids may be made for constructing one or more sections, or the whole road, and may include all materials necessary to complete the whole line ready for equipment.

The necessary maps, profiles and estimates for the work can be found at the office of the Chief Engineer, Phil. D. Fisher, where all required information will be given.

The Company reserve the right to reject any and all bids offered.

M. M. GREENE,
President C. & T. R. R. Co.

NOTICE TO CONTRACTORS.

OFFICE TROY AND GREENFIELD RAILROAD AND HOOSAC TUNNEL,
GREENFIELD, MASS., July 16, 1875.

Proposals will be received at this office for the Masonry, Grading and completion of the Troy and Greenfield Railroad between Bardwell's Ferry and Greenfield, a distance of about eight miles.

Plans, profiles and estimates may be obtained at this office, from and after July 27 until August 3, and all bids must be returned on or before 12 o'clock M. of the 3d of August next.

The right to reject any or all bids will be reserved. J. PRESCOTT, Manager in behalf of Commonwealth of Massachusetts.

TRIPLER RAILROAD CROSS TIE COMPANY,
235 SOUTH THIRD STREET, PHILADELPHIA, PA.

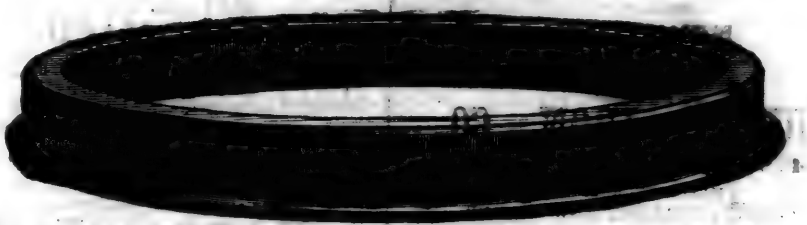
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.



Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, July 31, 1875.

Chicago and Northwestern Railway.

In response to a request for information respecting the character and security of the General Consolidated Gold Bonds of this company, M. L. Sykes, Jr., Treasurer, says that "the nominal issue named in the mortgage is $48,000,000, of which amount $35,349,000 are reserved and can only be issued to retire other bonds by substitution at the option of the company.

"As there is no occasion or advantage to be derived from substitution, no issue for that object is either contemplated or desired. The total amount of bonds issued is but the residue of the $48,000,000—to wit, $12,651,000; and of these $9 758,000 had been sold up to the beginning of the present fiscal year, June 1, 1875.

"The bonds are in coupon and registered form, bear seven per cent gold interest, payable June 1 and December 1, run thirty years and mature in 1902.

"The object of this mortgage, made in 1872, was to provide means to complete railway extensions then constructing, but now finished, for new equipment, new machine and car shops, extra cost of steel rails over iron, and iron bridges over wooden structures, and for other permanent works, adding value to the property.

"Of the $35,349,000 reserved from issue for purposes of substitution, $18,749,500 of them were for various issues of bonds of the Consolidated Chicago and Northwestern Railway Company, and $16,599,500 for different issues of bonds of the proprietary roads.

"The gold loan bonds are secured by mortgage lien on all the property, franchises, income, railway, equipment, leaseholds and proceeds of land grants of the Chicago and Northwestern Railway Company, subject, however, to the liens of such prior bonds of that company as were outstanding on the property at the time this mortgage was created.

"The miles of railway covered by the mortgage (exclusive of 85 miles of Chicago and Milwaukee Railway and 356.6 miles of Iowa leased lands) are 1,058, and embrace all the railroad and property of the Old Galena and Chicago Union Railroad Company, of the Old Beloit and Madison Railroad Company, of the Old Kenosha and Rockford Railroad Company, of the Peninsula Railroad Company, and of the Chicago and Northwestern Company, extending from Chicago to Fort Howard, via Janesville, and of the new Madison and Menomonee extensions.

"The amount of prior bonds outstanding on these lines at the creation of the Gold Loan Mortgage was $18,749,500, equal to $17,700 per mile, to which the gold bond is alone subject.

"The entire issue of $12,651,000 of gold bonds will increase the debt $12,000 per mile, making a total debt, including the gold bonds, of $31,400,500, on 1,058 miles of railway, being equivalent to $29,700 per mile.

"The actual cost of the property securing the gold bonds is $59,000 per mile.

"The lien of the gold bonds is superior to any obligation or guaranty of the company on the $16,599,500 of the bonds of the proprietary roads for which reservation is made in the mortgage, and the entire revenue of the company is pledged under the mortgage to secure the principal and interest of the gold bonds, irrespective of the proprietary lines.

"The net earnings of the company, exclusive of proprietary roads, after paying operating expenses, rent of leased roads and interest on bonds, including the gold bonds, were $1,360,000 for the fiscal year ending May 31, 1875."

Union Bank of London.

Notwithstanding the losses to which this, in common with most other great London banks, has been exposed by the recent commercial failures, the Union pays an undiminished dividend, a dividend of 15 per cent per annum. A bonus is not added to the dividend, £61,000 of the profits being with £39,000 from the reserve, together £100,000, set aside to cover the losses referred to, and for which it appears to be amply sufficient.

The bank has been doing business for 36 years. The number of its Shareholders is now nearly 3,000.

The late Mr. James Farquhar had been a Director of the Bank since its formation, and at his death held about 3,000 of its shares, which shows the high opinion that astute gentleman had of its value and stability.—*Herapath*, July 17.

Boston, Revere Beach and Lynn Railroad.

The formal opening of this road took place on the 22d inst. The route of the road properly begins in Boston at Rowe's wharf at the foot of High and Broad streets, connecting with the terminus of the railroad in East Boston by ferry communication provided by the railroad company, and connecting with all trains. The intermediate stations on the line have been decided upon as follows: East Boston, ferry slip, 4 5 miles from Boston station; Wood Island, 7-10 miles from Boston and just beyond the tunnel; Winthrop, 2 9-10 miles from Boston; Orient, 4 miles from Boston; Revere, 4¾ miles from Boston; Atlantic, 5 2-5 miles from Boston; Revere House, 6 1-5 miles from Boston; Ocean House, 7 miles from Boston; East Lynn, 8¾ miles from Boston.

The gauge of the road being three feet, the rolling-stock is proportionately small. There are three locomotives, the Orion, Pegasus and Jupiter, These engines were built by the Taunton locomotive works. They are supplied with Fairly's patent tender, which is a part of the engine and cannot be detached. The engine entire rests upon two centre bearings, which allow for curves a swing of four inches. The cylinders are 16 by 12, and the motion is direct, not eccentric. The driving wheels are about five inches smaller than those of the ordinary engine. Their cost was

$7,000 each. The company has now on the road seven passenger cars, two baggage cars and two open cars, which can be used for passengers or baggage. The capital stock subscribed and paid in is $350,000. The directors are: A. P. Blake of Hyde Park, President; John G. Webster of Boston, Treasurer; and O. D. Ashley of New York, John B. Alley of Lynn, Henry Breed of Lynn, Charles A. White of Hyde Park, John N. Brown of Boston, S. A. Bradbury of Boston, Edwin Walden of Lynn, T. B. Dix of Boston and T. W. Porter of Revere.

Lehigh Coal and Navigation Company.

The Board of Managers respectfully submit their report for the year 1874, as follows, viz:

Revenue from railroads		$1,128,433 83
Revenue from Nesquehoning tunnel tolls		25,703 72
Revenue from canal		200,000 00
Revenue from coal lands		500,000 00
Net profit on real estate sold		19,395 74
Miscellaneous receipts		58,788 02
Total		$1,932,321 31
Less general expenses	$70,033 00	
Rent and taxes Nesquehoning Valley Railroad	139,100 00	
Interest account	827,218 75	
Taxes chargeable to landed property and improvements	12,328 81	
Taxes on dividends	37,862 06	
Sinking fund of 10 cents per ton on 572,469.18 tons of coal	57,246 99	
Three dividends of 2 per cent. each	585,803 00	
		1,729,592 61
Balance credited to dividend fund		$202 728 70
Add previous balance		512,536 30
Balance to credit of dividend fund, December, 31, 1874		$715,265 00

The coal tonnage on the Lehigh and Susquehanna Railroad and Lehigh Canal, compared with that of 1873, was as follows, viz.:

	1873. Tons.	1874. Tons.
From the Wyoming region	1,812,021	1,519,828
From the Upper Lehigh region	200,381	221,193
From the Hazleton region	207,723	233,003
From the Beaver Meadow region, via Nesq. V. R. R.	346,752	420,871
From the Beaver Meadow region, via L. V. R. R.	53,594	57,983
From the Mahanoy region, via Lehigh Valley R. R.	20,891	44,018
From the Lehigh region (L. C. and N. Co.'s lands)	523,071	571,945
From sundry shippers	11,847	2,651
Total	3,176,280	3,071,487

Distributed as follows:

	1873. Tons.	1874. Tons.
Delivered east of Mauch Chunk by railroad	2,062,878	1,958,234
Delivered east of Mauch Chunk by canal	736,252	792,783
Consumed along the line above Mauch Chunk	85,591	101,441
Delivered to connecting lines above Mauch Chunk	248,414	155,843
Delivered to Lehigh Valley railroad at Packerton	25,054	20,096
Increased stock at Hazardville	18,091	33,091
Total	3,176,280	3,071,487

Of the foregoing tonnage there was shipped by the Lehigh and Wilkesbarre Coal Company, 2,284,966.06 tons.

The total production of that company was

	Tons.
Of their mines in the Wyoming region	1,867,159.18
Of their mines in the Beaver Meadow region	525,788.14
Of their mines in the Lehigh region (L. C. & N. Co.'s lands)	572,617.09
Total	2,465,566.01

Which was disposed of as follows, viz.:

	Tons.
Shipped via Lehigh and Susquehanna railroad	1,850,185.07
Shipped via Lehigh Canal	434,780.19
Shipped via Lackawanna and Bloomsburg railroad	87,103 07
Shipped via Lehigh Valley railroad	67,936.17
Shipped via Wyoming canal	4,047 00
Sold at the mines	22,412 11
Total	2,465,566.01

The gross receipts of the company's railroad during 1874, as compared with 1873, were as follows.

	1874.	1873.
Passengers	$183,158 83	$161,647 09
Freight	659,167 57	384,275 53
Coal	2,842,975 07	2,904,988 27
Totals	$3,385,301 47	$3,450,910 89
L. C. and N. Co.'s proportion	$1,128,433 83	$1,150,303 63

The lessees have rendered bills for construction work done during the past year amounting to about $500,000, of which about $300,000 is for second track, and the remainder for sidings, buildings, etc. The accounts have not as yet all been approved, so that the exact amount cannot be stated.

There are now 41¼ miles of double track completed, leaving 42 miles between the head of the Wilkesbarre planes and Easton, on which but a moderate amount of work has been done. The lessees have been authorized by us to double track the road between the points named as rapidly as the business demands.

The cost of construction work is advanced by the lessees and we pay interest at the same rate as the dividends on our stock, with the right to refund the advance at our convenience, but payment cannot be demanded of us. We paid during 1874 out of the proceeds of the sale of our Wyoming coal lands, and as a condition of the sale, $750 000, on account of advances made on construction account. We sold to the Central Railroad Company of New Jersey, in June, 1874, the superstructure, machinery, equipment, etc., of the Mauch Chunk and Summit Hill Railroad for the sum of $75,242 12, which was credited to us, by agreement, on construction account.

The balance of this account, December 31, 1873, was	$840,000 00
Paid on account as above	825,242 12
	$14,757 88

To this must be added the amount expended since December 1, 1873.

We are under no obligation to pay the amounts of money advanced for construction work at any definite period, but it may be for our interest to make payments on account from time to time. The managers have under their control the unissued portion of the convertible loan due in 1882, and can sell a part of that loan, or the stock resulting from the conversion of the loan, when money is needed for payments on construction account, or for other purposes; or they can provide for the company's wants by the sale of consolidated mortgage bonds.

CANAL.

The Central Railroad Company of New Jersey were very fortunate in having no extraordinary repairs to make to the canals during the first year of their contract for maintaining and operating them. There were no interruptions whatever to navigation during the year. The coal transported amounted to 792,783.07 tons, an increase of 56,581.14 tons over the previous year.

COAL.

The lessees of our Lehigh coal property report that they mined during 1874, 572,469.18 tons of coal, of which 68,186.10 tons was pea and buckwheat.

The lessees paid and charged to us a minimum rent of	$500,000 00
And credited 58.15 cents royalty on 572,469.18 tons	332,894 85
Leaving our account charged with	$167,105 65
as royalty paid in advance.	

The results of the company's business during the past year are very satisfactory in view of the depressed condition of the coal and iron trades. But for this depression the revenue derived from our railroads would have exceeded the estimate of $1,200,000 made at the beginning of the year. The Lehigh and Wilkesbarre Coal Company was prepared to mine a much larger amount of coal than during the previous year; and the lessees of our railroads had the ability to transport the proposed increase, but it could not be sold.

Our earnings are largely dependent on the price of coal and the demand for it. The amount we are to receive for the use of the Lehigh Canal is a fixed sum of $200,000 per annum, but the rent of the railroads is one third of their gross receipts, which are derived principally from the transportation of coal. The charge for transportation is regulated by the price at which the coal is sold, so that the amount of our largest item of revenue is directly dependent on the condition of the coal market, as is also to some extent the future revenue from our coal lands.

In the railroad lease there is no minimum rental, but the lessee of the Lehigh coal property must pay at least $500,000 a year under any circumstances. The settlement of accounts between the companies, however, is on the basis of a royalty of 21 per cent. of the price realized at Mauch Chunk from the sales of the coal, so that both quantity and price will in the end regulate the amount of revenue we shall receive, which will no doubt in a few years materially exceed the minimum. If the royalty on the coal mined does not in any year amount to so much as the rent paid under the minimum clauses, the excess paid may be reserved by the lessees in future years, without interest, from any excess accruing to us over the minimum. During 1875 and 1876 we are not likely to receive over $500 000 a year. In 1877, 900,000 tons must be paid for, and, if the price is not less than at present, the rent paid will exceed $500,000. In 1878 and every year thereafter one million of tons must be paid for. To insure the mining of this large amount of coal, and to provide an excess from which to recover royalties paid in advance, the lessees must make such additional improvements as will enable them to send to market during the active season 110,000 to 120,000 tons per month. As the lessees are by contract to pay the taxes, and the improvements are all to be made by them at their own cost, the revenue from our mines is subject to no deduction, but such as we may think it right to reserve as a sinking fund to cover the gradual exhaustion of the property. The Board has fixed this at 10 cents per ton.

The foregoing reference to the provisions of our leases and contracts has seemed to the Board to be required, as the character of these agreements has been misunderstood by some stockholders. There is no guarantee of a certain rate of dividend on our stock, but the leases of our railroads and coal property are on terms that give us an interest in the business, which means, in the case of the railroads at least, diminished revenue in dull years, as well as increased revenue in prosperous years. We can make no exact estimate of future revenue, but the Board, after considerable thought given to the subject, stated in the last annual report

that "dividends may with propriety be resumed at an early date at 8 per cent. per annum with a prospect of an increased rate before many years."

The experience of the working of our contracts during the past year has confirmed the Board in the opinion that dividends of 8 per cent. per annum may be regularly paid out of our income, and that after two or three years there will be a sufficient increase of revenue to warrant the payment of larger dividends. The managers entertain no doubt as to this increase. The enlarged production of our mines will not only yield us increased revenue from that source, but will give additional business to our railroads. With a general revival of business will come increased railroad receipts from passengers and general freight, and a larger demand for coal, of which the Lehigh and Wilkesbarre Coal Company are prepared to increase their shipments very largely. When the revival comes the value of the percentage feature of our leases will appear.

The company, while no longer in active business, has so large an interest in the results of the management of its lessees, as to render it necessary to be at all times well informed as to their business, and to take such part in negotiations and settlements as is authorized by the contracts. We must necessarily be parties to negotiations for the extension of our railroads into new fields, and we have a direct interest in any new business which we can influence to the roads.

We made during the past year a contract for the purchase, at about $700 per acre, of a tract of 175 acres of coal land lying between our Lehigh and Greenwood tracts, and when the purchase is consummated we shall own all of that part of the first anthracite coal field which lies east of the Little Schuylkill River, being one compact body of over 7400 acres of coal land.

The floating debt, which has been for years a source of great anxiety and danger to the company, is all provided for. The Lehigh and Wilkesbarre Coal Company paid us during 1874 all but one million dollars of the balance due on purchases of real and personal property. The payment was in money and not in the bonds named in the contract of sale. Of the remaining one million they have paid $692,683 34 since the first of January, and the balance will be paid on or before the first of July. To provide for the remainder of the floating debt we have sold one million dollars of our consolidated seven per cent. bonds and with the proceeds we are paying our temporary obligations as they mature.

BALANCE SHEET, JANUARY 1, 1875.

Lehigh and Susquehanna Railroad construction and branches		$13,046,208 81
Lehigh Navigation shipping pockets		3,000,000 00
Shipping improvements—Hazardville		99,056 71
Coal lands and improvements—Lehigh Region		7,889,609 82
Landed property & improvements		852,521 54
Canal boats		80,152 28
Contingent fund		295,517 47
Bills receivable	$10,182 17	
Bonds and mortgages	85,384 08	
Ground and water rents	172,434 54	
		267,950 79
Cash on hand		152,145 61
Gold loan, 1897, assumed by Central R. R. of N. J.	$2,810,000 00	
Gold loan, 1897, assumed by L. & W. B. Coal Co.	500,000 00	
Gold loan, 1894, assumed by L. & W. B. Coal Co	836,500 00	
		3,646,500 00
Lehigh and Wilkesbarre Coal Co., balance due on purchase of coal lands		1,000,000 00
Balance of individual ledger		205,121 99
		$30,534,784 52

Capital stock		$9,949,900 00
Loan of 1877	$762,779 18	
Loan of 1882 (convertible)	132,550 00	
Loan of 1884	5,441,840 84	
Loan of 1894 (convertible gold)	836,500 00	
Loan of 1897 (gold)	4,757,000 00	
Loan of 1897 (railroad)	2,000,000 00	
Loan of 1911 consolidated mortgage)	66,000 00	
Greenwood mortgage loan, due February 1, 1892	770,000 00	
Greenwood mortgage due October 1, 1877 (L. S.)	140,000 00	
		14,906,670 02
Bills payable		2,027,805 00
Central Railroad of New Jersey, due for construction work		282,589 69
Ground rents, mortgages, and dowers		65,250 67
Profit and loss, old account		2,587,304 14
Dividend fund		715,265 00
		$30,534,784 52

At an election held February 23, 1875, the following named persons were chosen officers of the Lehigh Coal and Navigation Company for the ensuing year:

President.—E. W. CLARK.

Managers.—Francis R. Cope, Francis C. Yarnall, Fisher Hazard, Charles Parrish, James M. Willcox, Samuel Thomas, Philip C. Garrett, Charles Wheeler, George Whitney, Alexander Biddle, John Leisenring.

Secretary and Treasurer.—SOLOMON SHEPHERD.

Auditor.—C. F. HOWELL.

The Coal Trade.

The production for the week ending 17th inst. is stated by the Philadelphia *Ledger* at 559,164 tons, and for the year 7,981,129 tons, against 11,345,905 tons to corresponding date last year, a decrease of 3,364,786 tons. The bituminous tonnage for the week was 79,546 tons, and for the year 1,894,400 tons, making a total of all kinds for the week of 638,710, and for the year of 9,875,535 tons, against 12,132,538 tons to same time last year, a decrease of 3,257,003 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 97,281 tons, and for the year 2,030 361 tons, of which 1,706,222 was coal and 332,949 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 24th instant there were receipts of 75,000 tons of coal, shipments of 75,000 tons, leaving 50,000 tons on hand. The *Ledger* adds:

The anthracite coal trade is fairly active, and the demand for all the several sizes of prepared coal good. For lump, steamer and broken coal the demand is not likely to equal the supply until the various classes of iron works are more generally in operation. It is given out that several of these works in the Schuylkill region will resume early in the coming month of August. The prices of coal, as we have already stated, will advance monthly on the previous month's prices to the end of the season. The total production of coal this year to this date is now about 8¼ millions of tons less than at corresponding time last year, an amount that can easily be overcome if the market will but promptly take the production as it can be delivered. The operators in this city generally acknowledge full orders for coal, and thus far the Reading Coal and Iron Company have not dumped a single ton of their prepared coal, orders having been in hand and vessels at Port Richmond ready to take as fast as it arrives. The Reading Railroad Company weekly more and more shows its wonderful capacity to handle coal. For the week ending on the 10th instant its tonnage by both road and canal was 118,107 tons, and for the week ending the 17th instant it was 154,636 tons. It can without extra effort, under a continued demand taking the coal promptly from the wharves, deliver 200,000 tons in a week.

Washington and Ohio Railroad.

A meeting of this company was held at Alexandria, Va., on the 25th inst., for the purpose of considering a proposition from Oscar A. Stevens for the construction of the road to Winchester. The proposition provides: First—That O. A. Stevens shall be appointed vice-president of the company and general manager, with a salary. Second—That said Stevens shall negotiate bonds to an amount to produce the sum of $500,000 to be used in paying the debts and extending the road. Third—Assigns a majority of the stock to the trustees, to hold in escrow. Fourth—The president and directors to resign, the resignations to be withheld for the present and until the contract is complied with. Fifth—Unless Mr. Stevens negotiates the bonds by November next the proposition submitted to fall and be void. Mr. McKenzie, the President of the company, stated that should the proposition be accepted, in his opinion the line would be completed to Winchester, and that it was to the interest of the stockholders to pursue this course. The party contracting was, without doubt, backed by the Pennsylvania Railroad Co., strengthening the contract. An amendment was adopted requiring that an executive officer and three directors should be citizens of Virginia, and as amended the proposition was adopted by a vote of 1347 to 71. Alluding to the above propositions, the Washington Star says:

It is understood that the capitalists who are acting through Mr. Stevens will assist the company not only to carry the road to Winchester, but to the coal fields in Hampshire county, twenty-three miles beyond. Washington may then hope to secure a portion of the large produce trade of the valley of Virginia, by far the largest part of which now goes by the Valley and Baltimore and Ohio Railroads to Baltimore. Also, perhaps, a share of the trade in coal from Hampshire county, which coal is represented to be of a superior quality. This extension will do much for Alexandria, which will be the natural shipping port for coal.

☞ The final survey for the Lehigh and Eastern Railroad is now being made, and the work of grading will shortly be commenced. The new road will run from Hazleton, Penn., to about one mile east of Port Jervis, New York, where it will connect with the Erie Railway. The distance of the new route is 98¼ miles, and runs from Hazleton over the Pocono Mountains, crossing the Delaware, Lackawanna and Western Railroad west of Stroudsburg, thence passing up the Delaware valley to Port Jervis.

☞ The grading of the Waynesburg and Washington narrow gauge road from Washington, Pa., to Waynesburg, twenty eight miles, is let at $1,000 per mile, the road to be ready for the ties in four months. The contractors are John Donoghue and Brother, of Altoona, Pa.

☞ A corps of engineers is making the preliminary survey for the Scioto Valley Railroad between Portsmouth and Chillicothe, Ohio.

Rapid Transit in the City of New York.

(Continued from page 933.)

Sec. 21. On such report being made by said commissioners, the company shall give notice to the parties, or their attorneys, to be affected by the proceedings, according to the rules and practice of said court, at a general or special term thereof, for the confirmation of such report; and the court shall thereupon confirm such report and shall make an order containing a recital of the substance of the proceedings in the matter of the appraisal, and a description of the real estate appraised for which compensation is to be made; and shall also direct to whom the money is to be paid, or in what bank, and in what manner it shall be deposited by the company.

Sec. 22. A certified copy of the order so to be made, as aforesaid, shall be recorded at full length in the clerk's office of the county in which the land described in it is situated; and thereupon, and on the payment or deposit by the company of the sums to be paid as compensation for the land, and for costs, expenses and counsel fees as aforesaid, and as directed by said order, with interest from the date thereof the company shall be entitled to enter upon, take possession of and use the said land for the purpose of its incorporation, during the continuance of its corporate existence, by virtue of this or any other act; and all persons who have been made parties to the proceedings shall be divested and barred of all right, estate and interest in such real estate, during the corporate existence of the company as aforesaid. If the company shall neglect to have such order recorded, and to make the payment or deposit as herein provided, for the period of ten days after the date of such order, any party to such proceedings, and interested therein may, at his election, cause a certified copy of the said order to be recorded as aforesaid, and thereupon the moneys therein directed to be paid with interest thereon from the date of said order, shall be a debt against the company, and the same shall be a lien on such real estate, and may be enforced and collected by action at law or in equity in the supreme court, with costs. All real estate acquired by any company under and pursuant to the provisions of this act, for the purposes of its incorporation, shall be deemed acquired for public use. Within twenty days after the confirmation of the report of the commissioners, as provided for in the twenty-first section of this act, either party may appeal, by notice in writing to the other, to the supreme court, from the appraisal and report of the commissioners. Such appeal shall be heard by the supreme court at any general or special term thereof, on such notice thereof being given according to the rules and practice of said court. On the hearing of such appeal, the court may direct a new appraisal, before the same or new commissioners, in its discretion; the second report shall be final and conclusive on all the parties interested. If the amount of the compensation to be made by the company is increased by the second report, the difference shall be a lien on the land appraised, and shall be paid by the company to the parties entitled to the same, or shall be deposited in the bank, as the court shall direct; and if the amount is diminished, the difference shall be refunded to the company by the party to whom the same may have been paid; and judgment therefor may be rendered by the court, on the filing of the second report, against the party liable to pay the same. Such appeal shall not affect the possession by such company of the land appraised; and when the same is made by others than the company it shall not be heard, except on a stipulation of the party appealing not to disturb such possession.

Sec. 23. If there are adverse and conflicting claimants to the money, or any part of it, to be paid as compensation for the real estate taken, the court may direct the money to be paid into said court by the company, and may determine who is entitled to the same, and direct to whom the same shall be paid; and may in its discretion, order a reference to ascertain the facts on which such determination and order are to be made. The court shall appoint some competent attorney to appear for, and protect the rights of any party in interest who is unknown, or whose residence is unknown, and who has not appeared in the proceedings by an attorney or agent. The court shall also have power at any time to amend any defect or informality in any of the special proceedings authorized by this act, as may be necessary; or to cause new parties to be added, and to direct such further notices to be given to any party in interest as it deems proper; and also to appoint other commissioners in place of any who shall die, or refuse, or neglect to serve, or be incapable of serving.

Sec. 24. If, at any time, after an attempt to acquire title by appraisal of damages or otherwise, it shall be found that the title thereby attempted to be acquired is defective, the company may proceed anew to acquire or perfect such title, in the same manner as if no appraisal had been make; and at any stage of such new proceedings, the court may authorize the corporation, if in possession, to continue in possession and if not in possession to take possession, and use such real estate during the pendency and until the final conclusion of such new proceedings; and may stay all actions or proceedings against the company on account thereof, on such company paying into court a sufficient sum, or giving security, as the court may direct, to pay the compensation therefor when finally ascertained; and in every such case the party interested in such real estate may conduct the proceedings to a conclusion, if the company delays or omits to prosecute the same.

Sec. 25. In case any title or interest in real estate required by any company formed under this act, for the purpose of its incorporation, shall be vested in any trustee not authorized to sell, release and convey the same, or in any infant, idiot, or person of unsound mind, the supreme court shall have power, by a summary proceeding on petition, to authorize and empower such trustee, or the general guardian or committee of such infant, idiot, or person of unsound mind, to sell and convey the same to such company, for the purposes of its incorporation, on such terms as may be just; and in case any such infant, idiot or person of unsound mind, has no general guardian or committee, the said court may appoint a special guardian or committee for the purpose of making such sale, release or conveyance, and may require such security from such general or special guardian or committee as said court may deem proper. But before any conveyance or release authorized by this section shall be executed, the terms on which the same is to be executed, shall be reported to the court, on oath; and if the court is satisfied that such terms are just to the party interested in such real estate, the court shall confirm the report, and direct the proper conveyance or release to be executed, which shall have the same effect as if executed by an owner of said land having legal power to sell and convey the same.

Sec. 26. Every corporation formed under this act, shall have power:

1. To take and hold such voluntary grants of real estate and other property as shall be made to it, to aid in the construction, maintenance and accommodation of its railroad; but the real estate received by voluntary grant shall be held and used for the purposes of such grant only.

2. To purchase, hold and use all such real estate and other property as may be necessary for the construction and maintenance of its railroad, and the stations and other accommodations necessary to accomplish the objects of its incorporation; but nothing herein contained shall be held as repealing, or in any way affecting the act entitled "An act authorizing the construction of railroads upon Indian lands," passed May twelve, eighteen hundred and thirty-six.

3. To cross, intersect, join and unite its railroad with any other railroad before constructed at any point on its route, and upon the grounds of such other railroad company, with the necessary turnouts, sidings and switches, and other conveniences in furtherance of the objects of its connections. And every company whose railroad is or shall be hereafter intersected by any new railroad, shall unite with the owners of such new railroad in forming such intersections and connections, and grant the facilities aforesaid; and if the two corporations cannot agree upon the amount of compensation to be made therefor, or the points and manner of such crossings and connections, the same shall be ascertained and determined by commissioners, to be appointed by the court as is provided in this act in respect to acquiring title to real estate.

4. To take and convey persons and property on their railroad by the power or force of steam or by any motor other than animal power, and to receive compensation therefor.

5. To enter upon and underneath the several streets, avenues, public places and lands designated by the said commissioners, and enter into and upon the soil of the same; to construct, maintain, operate, and use, in accordance with the plan adopted by said commissioners, a railway or railways upon the route or routes and to the points decided upon, and to secure the necessary foundations and erect the columns, piers and other structures which may be required to secure safety and stability in the construction and maintenance of the railways constructed upon the plan adopted by said commissioners and for operating the same; excepting that nothing in this act shall authorize the construction of a railway crossing the track of any steam railway now in actual operation at the grade thereof, or the erection of piers or supports for any elevated railway upon a railway track now actually in use in any street or avenue; and it shall be lawful to make such excavations and openings along the route through which such railway or railways shall be constructed as shall be necessary from time to time; in all cases the surface of said streets around such foundations, piers and columns shall be restored to the condition in which they were before such excavations were made, as near as may be, and shall avoid any interference with or change in the water-mains, or in the sewers or lamp-posts, except such changes as may be made with the concurrence of the proper department or authority; and in all cases the use of the streets, avenues, places and lands designated by the said commissioners and the right of way through the same for the purpose of a railway or railways as herein authorized and provided, shall be considered, and is hereby declared to be a public use, consistent with the uses for which the roads, streets,

avenues and public places are publicly held; but no such corporation shall have the right to acquire the use or occupancy of public parks or squares in such county, or the use or occupancy of any of the streets or avenues, except such as may have been designated for the route or routes of such railway, and except such temporary privileges as the proper authorities may grant to such corporations to facilitate such construction.

6. From time to time to borrow such sums of money as may be necessary for completing and finishing or operating their railroad, and to issue and dispose of their bonds for any amount so borrowed, and to mortgage their corporate property and franchises to secure the payment of any debt contracted by the company for the purposes aforesaid; and the directors of the company may confer on any holder of any bond issued for money borrowed as aforesaid, the right to convert the principal due or owing thereon into stock of said company, at any time not exceeding ten years from the date of the bond under such regulations as the directors may see fit to adopt.

Sec. 27. Every conductor, baggage master, engineer, brakeman, or other servant of any railroad corporation employed in a passenger train, or at stations for passengers, shall wear upon his hat or cap a badge, which shall indicate his office, and the initial letters of the style of the corporation by which he is employed. No conductor or collector, without such badge, shall be entitled to demand or receive from any passenger any fare or ticket, or to exercise any of the powers of his office; and no officer or servant without such badge, shall have authority to meddle or interfere with any passenger, his baggage or property.

Sec. 28. Any such corporation shall, when applied to by the postmaster-general, convey the mails of the United States on their road or roads respectively; and in case such corporations shall not agree as to the rate of transportation therefor, and as to the time, rate of speed, manner and condition of carrying the same, it shall be lawful for the Governor of this State to appoint three commissioners, who, or a majority of them after fifteen days' notice in writing of the time and place of meeting to the corporation, shall determine and fix the prices, terms, and conditions aforesaid; but such price shall not be less for carrying said mails in the regular passenger trains, than the amount which such corporation would receive as freight on a like weight of merchandise transported in their merchandise trains, and a fair compensation for the post office car. And in case the postmaster-general shall require the mail to be carried at other hours, or at a higher speed than the passenger trains are run, the corporation shall furnish an extra train for the mail, and be allowed an extra compensation for the expenses and wear and tear thereof, and for the service, to be fixed as aforesaid.

Sec. 29. If any passenger shall refuse to pay his fare, it shall be lawful for the conductor of the train and the servants of the corporation to put him and his baggage out of the cars, using no unnecessary force, at any usual stopping place, or near any dwelling house, as the conductor shall elect, on stopping the train.

Sec. 30. Every such corporation shall start and run their cars for the transportation of passengers and property, at regular times, to be fixed by public notice; and shall furnish sufficient accommodations for the transportation of all such passengers and property, as shall, within a reasonable time previous thereto, be offered for transportation at the place of starting and the junctions of other railroads, and at usual stopping places established for receiving and discharging way passengers and freight for that train; and shall take, transport and discharge such passengers and property at, from and to such places, on the due payment of the freight or fare legally authorized therefor; and shall be liable to the party aggrieved in an action for damages, for any neglect or refusal in the premises.

Sec. 31. If any person shall while in charge of a locomotive engine running upon the railroad of any such corporation, or while acting as the conductor of a car or train of cars on any such railroad, be intoxicated, he shall be deemed guilty of a misdemeanor.

Sec. 32. If any person or persons shall willfully do or cause to be done any acts or act whatever, whereby any building, construction or work of any railroad corporation, or any engine, machine or structure, or any matter or thing appertaining to the same, shall be stopped, obstructed, impaired, weakened, injured or destroyed, the person or persons so offending shall be guilty of a misdemeanor, and shall forfeit and pay to the said corporation treble the amount of damages sustained by means of such offense.

Sec. 33. All penalties imposed by this act may be sued for in the name of the people of the State of New York; and if such penalty be for a sum not exceeding one hundred dollars, then such suit may be brought before a justice of the peace, and may be commenced by serving a summons on any director of such company.

Sec. 34. The legislature may at any time annul or dissolve any incorporation formed under this act; but such dissolution shall not take away or impair any remedy given against any such corporation, its stockholders or officers for any liability which shall have been previously incurred.

Sec. 35. Whenever the route selected by the said commissioners for the construction of said railway shall intersect, cross or coincide with any horse railway track occupying the surface of said streets or avenues, the said railway corporation is hereby authorized to remove, for the purpose of constructing the said work, the tracks of said horse railways; but the same shall be done in such manner as to interfere as little as possible with practical operation or working, and upon the construction of said railway, where such removals or changes have been made, the same shall be restored as near as may be to the condition in which they were previous to the construction of said railroad. All such removals and restorations shall be made at the proper cost and charges of the said corporation. Nothing contained in this act shall authorize any corporation formed thereunder to use the tracks of any horse railway.

Sec. 36. Whenever the route or routes determined upon by said commissioners coincide with the route or routes covered by the charter of an existing corporation formed for the purpose provided for by this act, provided that said corporation has not forfeited its charter or failed to comply with the provisions thereof, requiring the construction of a road or roads within the time prescribed by its charter, such corporation shall have the like power to construct and operate such railway or railways, upon fulfillment of the requirements and conditions imposed by said commissioners as a corporation specially formed under this act. And the said commissioners may fix and determine the route or routes by which any elevated steam railway or railways now in actual operation may connect with other steam railways or the depots thereof, or with steam ferries; upon fulfillment by such elevated steam railway company, so far as it relates to such connection, of such of the requirements and conditions imposed by said commissioners under section four of this act, as are necessary to be fulfilled in such cases, under section eighteen of article three of the Constitution of this State, and such connecting elevated railway shall in such case possess all the powers conferred by section twenty-six of this act; and when any connecting route or routes shall be so designated, such elevated railway company may construct such connection, with all the rights, and with like effect as though the same had been a part of the original route of such railway.

Sec. 37. Within one month after such corporation shall have been formed and organized in the manner hereinbefore provided, the said commissioners shall transfer and deliver to the said corporation all plans, specifications, drawings, maps, books and papers in their possession. And the said commissioners shall, within the like period of one month after the organization of such corporation, cause to be paid to the treasurer thereof all money collected under the provisions of this act, after deducting therefrom the necessary expenses incurred by said commissioners and the amounts due or to accrue to them for their salaries.

Sec. 38. Each of said commissioners shall be paid for his services at the rate of ten dollars per day for each day of actual service as such commissioner, to be paid by such corporation, but if a sufficient amount of capital stock shall not be subscribed within one year after the appointment of such commissioners to authorize the formation of such corporation, the said commissioners shall receive no salary, and shall cause to be returned to subscribers for said stock the amounts, paid in by them after deducting therefrom the necessary expenses incurred by said commissioners; provided, however, that the time, if any, unavoidably consumed by the pendency of legal proceedings shall not be deemed a part of any period or time limited in this act.

Sec. 39. A majority of the said commissioners shall be deemed and considered sufficient for the transaction of any business, or for the exercise of any of the duties, powers or functions hereby conferred or enjoined upon them. Any of said commissioners may be removed for cause at any time by the power appointing him, but no commissioner shall be removed without due notice and an opportunity of being heard in defense; and no commissioner thus removed shall be again appointed to the office of commissioner. In case of the death, resignation or removal from office of any of the said commissioners, the vacancy shall be filled, within thirty days from such death, resignation or removal, by the power appointing him, and a certificate of such appointment shall be filed as aforesaid. And the terms of office of the said commissioners shall determine and expire with the performance of their functions as herein prescribed.

Sec. 40. This act shall not be construed to repeal or in any manner to affect chapter one hundred and forty of the laws of eighteen hundred and fifty, entitled "An act to authorize the formation of railroad corporations and to regulate the same," or the several acts amendatory thereof or supplementary thereto. None of the provisions of this act shall apply to any railroad company organized under any general or special law of this State, for the purpose of constructing or operating a steam railroad upon the surface of the ground, nor to the operation or management of any such railroad heretofore constructed.

Sec. 41. It shall not be lawful for any company organized under the provisions of this act, or under any other act heretofore passed, to construct a steam railway upon St. Nicholas avenue, in the city of New York, or those streets or avenues in said city commonly known as boulevards, except to cross the same, under such regulations as shall be imposed by the commissioners provided for by this act, and every such company shall be bound by the restrictions and limitations as to its route and as to its mode of construction, which shall be established by the commissioners appointed under the acts from which its powers were derived, as far as such restrictions and limitations are consistent with the provisions of this act. The provisions of this section shall not be deemed to apply to any existing horse street railway heretofore authorized to be constructed.

Sec. 42. This act shall take effect immediately.

☞ The citizens of Elmira, N. Y., have voted by a large majority to fill up the Chemung canal within its limits, and make a street of the water way. This canal with its feeder, thirty-nine miles in length, cost the State for construction $2,150,450. Last year it was maintained at a loss to the State of $25,549.

American Railroad Journal.

Saturday, July 31, 1875.

Financial and Commercial Affairs.

Financially, the event of the week has been the failure of the great banking firm of Messrs. Duncan, Sherman, & Co., brought about by the absorption of their means in investments in Cotton and other kinds of Produce, as well as in bonds and mortgages, partly railroad obligations. The recent severe decline in values of Cotton, in which staple the house was said to have operated extensively, was represented as a prime cause of the embarrassments of the firm—than which, in their especial line, none other had earned for itself a more honorable name, and none other had enjoyed higher credit, at home and abroad; a credit which had been continued to the partners up to announcement of the suspension. On Wednesday, the failure of the Commercial Warehouse Co. was announced, and represented as due mainly to unfortunate advances on produce and merchandise. Commercially, the most important item in the experience of the week has been the extraordinary activity in Breadstuffs, mainly on export account, but largely also on speculation, at much higher prices, followed, however, by a reaction to comparative dullness, and a material decline in values, influenced by cable advices of fair weather and lower markets abroad, and of depression at the West. Cotton fell off seriously, low meddling having been on Tuesday quoted here at 14@14¼, as against 14¼@15¼ cts. the preceding Friday, 15@15¼ at the beginning of July, 15¼@16 cts. at the commencement of June, and 16¼@16½ cts. on the 1st of May—making the decline since the latter

date, fully 2¼ cts. per lb, or equal to a shrinkage in value of about $9 per bale of 400 lbs. Provisions have been also quite brisk, and unusually variable in price, speculation having been a prominent feature in the dealings in Pork and Lard. Notwithstanding the failures in the financial and commercial lines during the week, Money has ruled comparatively easy within the range of 2@5 per cent on call, and 3½@6 per cent per annum in the discount form, with ample offerings of accommodation to strictly responsible borrowers. Advances have been made to the more prominent dealers in Government Securities on the basis of the minimum rates, far beyond the requirements of their business—limited, as it has been, by the very meagre amounts of all issues of the national obligations offering for sale in the open market. The City Banks last week augmented their reserve of legal tender notes $1,219,900, while adding to their deposit item $1,302,000, and their specie average $554,500. They report a reduction of $2,009,600, in the loans and discounts, and a falling off of $202,200 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $56,470,779, against $53,771,858 the preceding week; and a coin hoard of $33,672,341, against $34,262,591 on the previous return. The City bank exchanges in currency during the week, were $361,304,388, or a daily average of $60,217,397. The customs revenue of the port, during the week, was $2,158,000. The City banks reported their average of gold last week at $17,519,400, and their greenback average at $75,015,200. Their deposits stood at $252,128,600. The loan item was $277,549,000. The circulation was $18,599,400.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $29,502,450.

The aggregate of the outstanding U. S. currency, of all denominations, July 1, was $417,971,111 69. The outstanding amount of legal tender notes is $375,771,580. The National bank circulation is now $350,764,469, including $2,538,500 of national gold bank notes.

On Tuesday, the cash balances of the Treasury Department at Washington were of Currency, $3,122,109; special deposit of legal tenders for the redemption of certificates of deposit, $63,430,000. Coin, $65,892,518. Coin certifiates, $22,748,200.

The week's import entries of Foreign Merchandise at New York, were $7,001,511, and included of dry goods $2,474,091.

The income of the Government from internal revenues in the fiscal year, since July 1, 1875, has been about nine millions.

Gold has fluctuated widely; the extremes having been 5 per cent apart. The highest figures reached were made immediately on the announcement of the failure of Messrs. Duncan, Sherman & Co., which led to unusual speculative excitement in the market. This, however, was very promptly followed by a decline from 116¼ to 113¼. The customs call has been moderate, and the export drain light. The extremes of the week have been 111¾@116⅝, closing on Wednesday at 113¾, as against 112⅞ on Wednesday of the preceding week. The specie outflow last week was $815,279, against $1,962,221 the previous week. The imports of specie at this port since Jan. 1, have been $7,887,483, against $2,846,619 same time last year. The customs demand for Gold last week averaged $359,670. Foreign Exchange has been in more liberal supply and moderate request. Bankers' sixty day bills on London closed on Wednesday at $4 86¼@$4 87; sight bills on London at $4 89¼@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,793,286. The week's imports of Dry Goods and general merchandise were to the specie value of $7,001,511 against $8,740,546 same week last year.

The specie exports from San Francisco, Jan. 1, to July 8, were $27,066,823, against $14,669,786 same time last year.

Government Securities fluctuated more or less closely with Gold. The offerings, however, were very moderate at the ruling figures, and the market closed firm, on a good investment demand.

U. S sixes of 1881 closed on Wednesday of this week at 121@121½; U. S. Five-Twenties of 1862, at 115½@116; U. S. Five-Twenties of 1864 at 116¾@117; U. S. Five-Twenties of 1865 118½@118¾; U. S. Five-Twenties of 1865 consolidated, 119@119¼; U. S. Five-Twenties of 1867, 120½@120¾; U. S. Five-Twenties of 1868, 120½@121; U. S. Ten-forties at 117½@117¾; U. S. Fives of 1881, (Funding Loan) 116¾@117; Six per cent. currency Sixes, 122½@123.

State and Railway bonds have been in moderate request, at about former rates. And in the line of Railway and Miscellaneous share property, business has been more animated, with values fluctuating frequently, falling severely on the announcement of the failure of Messrs. Duncan, Sherman & Co., but subsequently rallying sharply, and, as a rule, closing with firmness.

General business, apart from the features already noticed, has been comparatively quiet. Hardware, Dry Goods, and Boots and Shoes, have been attracting rather more attention. Groceries in moderate demand. Oils, Hides, Tobacco, and Wool, rather slow of sale. Metals, inactive. Eglinton Pig Iron quoted here at $29 50@$31; Glengarnock, $32; Coltness, $31@$32; No. 1 American Pig at $26@$27; No. 2 do. at $23 50@$25 50; Forge, $21@$24; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $26@$27. Wrought Scrap, $30@$32. Ocean freights have been more active generally, especially for Grain and Petroleum, at firmer rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Gas Coal, 20@30.

Paducah and Memphis Railroad.

Philo C. Calhoun and Lewis C. Meyers of this city, have instituted a suit in the United States District Court for West Tennessee in behalf of the first mortgage bondholders of the Paducah and Memphis Railroad, to foreclose the mortgage. The bill alleges that there are about $1,500,000 of these bonds in the hands of different parties in New York, and the mortgage provides that the interest thereon, at the rate of seven per cent, shall be paid annually, and upon failure of payment within ninety days thereafter the trustees shall take possession of the road; and, further, that if the company fail to pay its bonds for six months after the same become due, the bonds, which are for thirty years, shall mature. They allege that the company has failed to pay the interest for twelve months, and, therefore, the bondholders have directed them, as trustees, to foreclose the mortgage.

Dt. of Columbia 3-65 Bonds.

Schedules for interest coupons on the 3.65 bonds of the District of Columbia, guaranteed by the United States, should be presented at the Sub-Treasury, New York, preparatory to paying the same on the 1st of August next. Drafts from the Sub-Treasury at New York will be remitted from the United States Treasury at Washington in payment of interest to the holders of the registered bonds in the same manner as for the registered United States bonds, such drafts being drawn to the order of the owners of the bonds as the same appear on the books of the United States Register's office, where transfers have been closed till after the 1st of August next.

The Hoosac Tunnel Loan.

At a meeting of the Executive Council in Boston on the 27th inst., the Treasurer sent in a communication to the effect that only one bid was offered for the sterling loan of 268,000 pounds authorized on the 16th inst. This bid was from Baring Bros., and was not satisfactory, so that it was rejected by the Council, and the Treasurer authorized to advertise for bids for a home loan of $1,300,000. The loan to have twenty years to run, at five per cent. interest, payable semi-annually, principal and interest payable in gold. No bond to be issued of a less denomination than $10,000. This loan is the one authorized by chapter 220 of the acts of 1875, to enable the Governor and Council to perform the duties imposed on them in the act to provide for the management of the Hoosac Tunnel and the Troy and Greenfield Railroad.

☞ Messrs. H. C. Williams & Co., Bankers and Brokers, 49 Wall street, N. Y., desire to purchase the defaulted Railroad Bonds of good companies that are at present temporarily embarrassed, such as Burlington, Cedar Rapids and Minnesota 1sts, Chesapeake and Ohio 6s and 7s, Northern Pacific 1sts, New York and Oswego Midland 1sts, and Certificates and other securities that are at present in default. Messrs. W. & Co. have made this business a specialty, and those of our readers who may desire either to buy or sell will find in this house a thoroughly posted and reliable firm.

☞ The earnings of the Philadelphia and Erie Railroad in June, 1875, were $287,157, the expenses $229,449, and the net proceeds, $57,708.

☞ The bond of Austin W. Bond, Treasurer of the Hoosac Tunnel Line, for $25,000, has been approved by the Governor and Council.

☞ G. G. Senborn has been appointed Superintendent of the Nashua, Acton and Boston Railroad, Vice W. H. D. Cochrane resigned.

☞ A. B. Garner has been appointed General Superintendent of the Missouri, Kansas and Texas Railroad, and will assume the duties of the position on the 31st inst.

☞ Col. J. H. Carrington, of Richmond, Va., has been elected President of the Petersburg (Va.) Railroad Company, Vice Reuben Ragland resigned.

H. C. WILLIAMS & CO.,
NO. 49 WALL ST.

Northern Pacific Railroad Company.

Notice is hereby given that the time within which to prove claims before me, under Sections FIRST and FIFTH of the decree in the suit of Cooke and others, complainants, against the Northern Pacific Railroad Company, defendant, (such claims being only for legal expenses and charges in connection with the administration of the trust, and expenses of this suit,) is extended to the 14th day of August, 1875, at 3 o'clock in the afternoon, and the time within which to prove all the other claims is extended to the 27th July inst.

KENNETH G. WHITE,
Master Commissioner.

NEW YORK, July 14, 1875.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.,
NEW YORK, June 22, 1875.

A DIVIDEND OF FOUR PER CENT HAS been declared by this Company, payable on the second day of August next, to the holders of full paid shares registered at the close of the fourteenth day of July next, after which, and until the fifth day of August, the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

☞ The work of laying the rails on the Delaware 3bore Railroad has been commenced. This road commences at Woodbury, a point on the West Jersey Railroad, eight miles below Camden N. J., and extends to Pennsgrove, nearly opposite Salem. It runs close along the Delaware River. The road is all graded and bridged, and the rails will be laid the entire length without interruption.

Carr's Hoisting Engine.

This engine, (represented in the accompanying engraving,) has been lately introduced by MR. A. CARR, of New York, with such remarkable success that a much more detailed account of its advantages, than is to be found in his advertisement, is called for.

A simple inspection of the engraving will at once settle its position as a mechanical design; compactness and strength, without the least crowding of parts, being at once evident. All the parts subjected to heavy strains, whether in one direction or alternating, such as the centers of pinion and large wheel, and of the large wheel and the brake, and of the steam cylinder and crank axle, are connected by straight solid framework: that is, the strains are all "met by straight lines;" hence the remarkable rigidity and steadiness of the machine when running at the highest speed. The method of transmitting the power of the engine to the "drum" or "spool" on which the rope is coiled is by *internal friction gearing*, this being one of the most decided peculiarities of the engine.

The advantages of this kind of gearing for a hoisting engine are numerous; it is perfectly smooth and noiseless in its action, while it can be thrown *in* and *out* of gear so easily without the slightest jar to the machine. Thus, either lifting the load or allowing it to descend, the engine *runs always in one direction without stopping*; while accidents in hoisting are much less likely to occur than with ordinary gearing. For example, should a load catch on the side of a hatch or other fixed object as it is being lifted, or should it be carelessly hauled up against the block, (all of which occurs frequently in hoisting), this gearing will slip, just as a belt will when a sudden strain is thrown on it, while with ordinary gearing the rope or chain would probably be parted and the load precipitated.

Besides these general advantages, however, this particular form (internal friction gearing) has other points of superiority, viz: the contact of the surface with the same pressure is greater than with external gearing, since the curves of the wheels are in the same direction, hence these wheels "bite" better. They run much smoother also, because the surfaces immediately on each side of the point of contact make a smaller angle with each other than in external, as there is less of the shearing action before and after the point of contact than with outside gearing. It may be remarked here that, theoretically, two circles can only touch at a point whether the smaller touches the larger internally or externally; and that the friction or "bite" of two surfaces varies as the pressure and is independent of the amount of surface in contact; but when the circles are solid circles of *elastic material*, and when the pressure is *great* for a *very small* contact as in friction gearing, we find that the circles touch for an appreciable distance, and that the friction is greater than that due by the ordinary "law" calculated from experiments with broad surfaces and moderate pressure. The advantage gained by internal gearing, even in protection from dirt or occasional pieces of solid matter falling into the gearing, is considerable, as the large wheel really forms a cover for the whole movement.

Another marked feature of this engine is the ease and certainty with which it can be operated. It will, we think, be admitted that any machine of this kind, (or for that matter any machine at all) so long as we cannot make it intelligent, must require some management, however little. Now suppose a hoisting engine were offered in which the different operations of hoisting, admitting steam, cutting off steam and holding the load suspended by the brake, lowering it to position or lowering the empty hook or bucket, could be all effected with ease and certainty by simply moving one handle in different positions, and that that handle was limited in its movements by a stop so that pulling it carelessly or forcibly would do no harm, we think most people would think this as near automatic as a hoisting engine could be made, yet this is just what MR. CARR has done, and will give the fullest guarantee of. To make this matter plain, let us suppose we are ready to start one of these engines; letting on steam from the boiler we find that none of it reaches the engine even after opening the stop valve, (near the engine.) In the steam chest will be found a small regulating valve which is opened just enough to move the engine slowly over the centre, the quantity of steam necessary to do this being very small. When the load is ready pull the upright handle *towards* the steam cylinder as far as it will come; this opens the steam full, and brings the gearing in contact, raising the load at full speed; when high enough, move the handle quickly in the opposite direction; this releases the gearing and cuts off the steam (excepting the small quantity passing the regulating valve which just keeps the engine in motion) and brings the outside of the large wheel against a fixed brake suspending the load; when ready to deposit the load in position relax the pressure on the handle and allow the load to descend by the sliding of the outside of the large wheel over the brake; to lower the empty hook bring the handle to near the middle of its movement, this leaves the "drum" or "spool" and large wheel totally free from either the brake or the gearing when it will descend with its own weight. The operator does not even require to understand these operations, but simply needs to know enough to *pull* the handle when hoisting and *push* it off when lowering. All the operations described following *necessarily* from these movements. It is not even necessary to see the engine when using it.

On board ship, a rope is often fastened through one of the holes in the handle, one end being taken *direct* to where the operator stands, the other is taken round a pully; thus pulling one end will hoist while the other will draw the handle in the opposite direction for lowering. This is quite a common method of working this engine. The engraving represents a No. 1 engine with 5 inch cyl. and 6 inch stroke. They are also built *double*, that is with a hoisting drum on each side of the

engine which may be used simultaneously or separately, one man managing them both with ease, as he can hold the two handles, one in each hand.

It would be useless to go into details regarding the engine proper in this machine, the fact that it is turned out from the workshop of MR. CARR and with his guarantee is enough.

As the builder and proprietor of the "SELDEN DIRECT ACTION STEAM PUMP," MR. CARR has established his position as a practical engineer years ago. At his works 43 Cortlandt St., numerous special machines and tools, designed and built on the premises, are used in the manufacture of the "SELDEN STEAM PUMP," "CARR'S POSITIVE CIRCULATING RADIATOR'S," and "CARR'S HOISTING ENGINE." The system of duplicating parts by the use of standard gauges and templates, being carried to its apparent practical limits.

The Purchase of Bonds by a Pledger from the Pledgee, while that Relation exists, is voidable at the option of the Pledgee.

A letter to the Baltimore Sun from Wilmington, Delaware, dated July 26, 1875, says that Judge Bradford, of the United States Circuit Court for that district, recently decided a case which had been pending for some time in that court, and had excited considerable interest. It was a bill in equity by James U. Dennis, assignee in bankruptcy of John W. Crisfield, of Maryland, against Joseph Bringhurst, of Wilmington, for an account of $10,000 Eastern Shore railroad bonds, alleged to have been pledged by Crisfield to Bringhurst as collateral security for a usurious loan. The defendant admitted that he had originally received the bonds in pledge for a loan of money, but insisted that he had subsequently bought the bonds absolutely at their full value, and paid for them in full, and held a receipt to that effect, executed some seven or eight months before the bankruptcy of Crisfield. The bill charged that the purchase by a pledger from the pledgee, under the circumstance, whilst that relation existed, was voidable at the option of the pledgee; that the rights of Crisfield devolved upon his assignee; and the answer having admitted that the bonds were sold for more than twice the sum advanced, the assignee claimed that Crisfield's creditors were entitled to the surplus. On full argument and consideration the court so held, and decreed the payment by Bringhurst to the assignee of $3,174. The opinion delivered by Judge Bradford in the case is said to be exceedingly learned and able, reviewing all the authorities and law upon the subject of a trustee dealing with his c. q. t. in relation to the trust property.

Boston, Hartford and Erie Railroad.

On the petition of the assignees in bankruptcy of the Boston, Hartford and Erie Railroad Co., for leave to sell and convey certain property and to settle and compound certain controversies, Judge Fox has issued a decree authorizing the assignees to forthwith make, execute and deliver to the New York and New England Railroad Company a deed according to the form annexed to the petition, as amended, releasing to said grantees the property therein described, and settling and adjusting the various controversies therein described in the manner and upon the terms therein set forth; and said assignees shall collect and receive from said grantees the sum of $100,000 as the consideration money therefor.

The amendment referred to provides that the release and conveyance shall not affect or impair any right, title or interest (if such there be) of any stockholder or creditor of the Hartford, Providence and Fishkill Railroad Company, or of any other party having any claim or right superior to the rights belonging to or vested in said assignees in bankruptcy.

Joliet and Northern Indiana Railroad.

In the United States District Court, at Chicago, on the 26th inst., Judge Blodgett decided that the Michigan Central Railroad Company, lessees of the Joliet and Northern Indiana Railroad, shall pay over to the Receiver of the latter the entire annual rental of the road, the surplus, after the payment of interest on the $800,000 of eight per cent bonds, to be set apart as a sinking fund for the payment of the principal. The annual rental amounts to $89,000, of which $64,000 has been applied to the payment of interest on the bonds, and the balance, $25,000, to the payment of dividends upon the stock. The bonds matured in 1872. The holders were tendered new six per cent bonds of the Michigan Central Railroad Company instead of the privilege of foreclosing the mortgage and thus obtaining an unequipped and inoperative railroad track, the lessee claiming that the lease would be extinguished by a foreclosure.

☞ Work was commenced on the 25th of June on the proposed new railroad between San Rafael (Cal.) and Petaluma, a contract of $100,000 having been let to build twelve miles of the road, and run a tunnel through a hill near San Rafael. The owners of the road are chiefly residents of Petaluma and San Rafael, and $200,000 has been subscribed toward the enterprise, enough to secure its success. From San Rafael the track will be extended to Point San Quentin, and perhaps to California City.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

J. M. Brigham, KINGSTON, N. Y — **J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.**

DELAFIELD & BAXTER
CEMENT COMPANY.
MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or o her purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

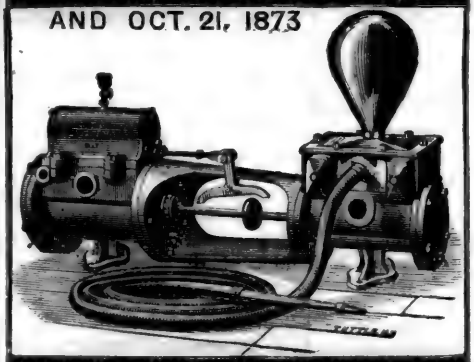
THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.



This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

Buffalo and Jamestown Railroad.

The Buffalo and Jamestown Railroad, which forms part of the original project of the Atlantic and Great Western Railway system, though now undertaken and constructed by an independent company, is at length completed to a junction, and will doubtless result in a considerable increase in the business of the line. The *Buffalo Commercial* says:

The completion of the Buffalo and Jamestown railroad will give this city another competing line to the west and a more direct line to the southwest than any in operation. Moreover, it provides as good a connection with Buffalo for the Atlantic and Great Western as if it had been built by the company. It is only reasonable to suppose that a large business, both in passengers and freight, will be developed. Indeed, the new line, although laboring under great disadvantage, has already built up quite a trade with the towns along the broad gauge line. In September the short connecting link between Jamestown and Kennedy will be opened for business.

☞ The stockholders of the Boston, Barre and Gardner Railroad have resolved to issue $300,000 of bonds, to run twenty years, at seven per cent, secured by a second mortgage on the road.

☞ The injunction against the Missouri Pacific dividend having been dissolved, the same is now being paid at the office of the Atlantic and Pacific Railroad Company, Drexel Building.

Notice to Contractors.

OFFICE COLUMBUS AND TOLEDO R. R. Co.,
COLUMBUS, O., July 15, 1875.

BIDS FOR THE CONSTRUCTION OF THE Columbus and Toledo Railroad will be received at the office of the Company, in the city of Columbus, in the State of Ohio, until noon, on the 3d day of August next.

Bids may be made for constructing one or more sections, or the whole road, and may include all materials necessary to complete the whole line ready for equipment.

The necessary maps, profiles and estimates for the work can be found at the office of the Chief Engineer, Phil. D. Fisher, where all required information will be given.

The Company reserve the right to reject any and all bids offered.

M. M. GREENE,
President C. & T. R. R. Co.

NOTICE TO CONTRACTORS.

OFFICE TROY AND GREENFIELD RAILROAD AND HOOSAC TUNNEL,
GREENFIELD, MASS., July 16, 1875.

Proposals will be received at this office for the Masonry, Grading and completion of the Troy and Greenfield Railroad between Bardwell's Ferry and Greenfield, a distance of about eight miles.

Plans, profiles and estimates may be obtained at this office, from and after July 27 until August 3, and all bids must be returned on or before 12 o'clock M. of the 3d of August next.

The right to reject any or all bids will be reserved. J. PRESCOTT, Manager in behalf of Commonwealth of Massachusetts.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, August 7, 1875.

Steel Rails on the Pennsylvania Railroad.

During the present year the Pennsylvania Railroad Company has purchased and laid down on its various divisions over 20,000 tons of steel rails and nearly 9000 tons of iron rails. The main track between Philadelphia and Pittsburg is now laid entirely with steel, and the New Jersey division will have no iron rails by next April. The company first commenced to lay steel rails in 1860, and every year's experience demonstrates their economy. The immense traffic which now passes over this road makes the life of an iron rail a short one, and in certain localities it would be worthless in less than six months.

Iron rails, indeed, have been in continuous use for over thirty years, and a section of such a rail was lately shown at a meeting of the Franklin Institute; but then these rails have lain much of that period on sidings where there has been no heavy traffic. A good steel rail will stand the wear and tear of continuous use on the Pennsylvania Railroad for from seven to twelve years. Mr. Brown, Chief Engineer of Maintenance of Way, has in his office the section of a steel rail which has stood the severest test a rail can receive; and that was in the Pittsburg yard, over which the heaviest trains are continually being shifted. After seven year's use, on a curve, there seems no reason why there should not be two or three more years' service in it.

Experience has shown that a modification of the usual form of the T rail would make it more serviceable; and within the past year all the rails rolled for the company have been rolled with wider flanges and thicker heads, without increasing the standard weight of the rail—67 pounds to the yard—the material being taken from the shank or upright section. The form of the head has been changed, the section representing the frustrum of a cone instead of being elliptical. This is the form the head always assumes after use, the flanges of the wheels wearing off the bulge of the elliptical head. The flange has been widened, which will prevent the rail, to some extent, from cutting into the ties, which suffer more from this than from decay.

The present amount of traffic over the road would make it almost impracticable to renew the track with iron rails as often as they would wear out, as from the great number of trains there would be no opportunity. The 20,000 tons of steel rails purchased will lay 207 miles of single track, and it is the intention to renew all the main tracks with steel. The sidings will be of iron. The first cost of steel, as compared with iron, is now about 50 per cent greater.

In the year 1870, the work of straightening several very objectionable curves in the track between Philadelphia and Downingtown was commenced; the object being not so much to save distance as to decrease the wear upon the rails and rolling stock. This work was commenced on the section between Ardmore and Rosemont, the length of the new route being 2.4 miles. This was the most important of all the changes to be made.

In 1871 a curve was straightened between Rosemont and Villanova, the new route being 5200 feet long, and a section west of Radnor, a distance of 6100 feet. In 1872 a change of 3200 feet was made near Radnor, and in 1873, between Malvern and Glenloch, two sections were straightened, one of 4100 feet, and the other of 8280 feet; a third section of 4313 feet, between the same points, was commenced in that year, and was completed in 1874.

The financial crisis coming on in the fall of 1873 put a stop to this kind of work, and changes in three short sections between Eagle and Paoli, and one between Glenloch and Valley Creek, which had been surveyed and staked, were left for a more favorable state of affairs. In all these changes the road bed and bridges have been constructed for four through tracks. There are already four laid to Overbrook, and they will be constructed as rapidly as the traffic increases. There are already of single track and sidings, 1536 miles on the main or Pennsylvania division; 722 miles on the New Jersey division; and 490 on the Philadelphia and Erie division—making in all 2807 miles of single track.

Railroad Building in California.

The San Francisco Alta says that the present year shows unusual activity in railroad building in California. The track laying advances rapidly in San Bernardino Valley, and about 2 000 graders are digging away at San Fernando, Tehachepa, and San Gorgonio, and the present rate of progress indicates that the promise of the completion of rail communication to the Colorado before July, 1876, can be fulfilled. Lately a party of railroad men have been examining the gap between Reading and Roseburg, with a view to the completion of the railroad between those points, but the Alta had not heard of any important results of their investigation, beyond a determination that twenty miles of road must be built this fiscal year. The construction of that road to give access by rail to Oregon and Washington, is deemed of much importance to the development of the Pacific coast, and it might add something to American influence in British Columbia. The grading on the roads from Petaluma to San Rafael, and from Colfax to Grass Valley, is advancing at a good rate. A contract has been let by the Central Pacific Railroad Company for a railroad from Woodland to Colusa and Tehama.

☞ The Supreme Court of Louisana has decided the acts "No. 32" and "115," under which the four million and three million levee issues were respectively made, to be constitutional, and ordered the funding of one million of these bonds

received from Europe, where most of them are he.

Michigan Central Railroad.

The earnings of this road for the years ending May 31, 1874 and 1875, have been as follows:

	1874.	1875.
From passengers	$1,803,247 66	$1,798,727 66
" freight	4,086,785 12	3,692,267 01

Train service	253,991 83	262,492 09
Station service	993,024 71	942,857 65
Fuel	754,592 09	581,109 61
Oil and waste	103,904 46	67 231 21
Stationery	49,801 46	50,844 39
Taxes	164,361 09	177,815 55
Telegraph	50 242 17	52,554 25
Miscellaneous	92,189 96	89,409 88
Car mileage	243,078 42	256,587 67
Rents	.....	42,624 58
	$4,219,955 14	$3 862,813 58
Net earnings	$1,976,760 93	$1,919,124 19

Compared with the previous year the gross earnings of 1875 show a decrease of $414,778 80 with a decrease in expenses of $357,141 56—making a decrease in net earnings of $57,636 74.

The earnings from passengers show a decrease of $9,520, from freight a decrease of $394,518 11, and from mails and miscellaneous a decrease of $10,740 19.

Passenger earnings per mile were $6,315 94 freight, $13,000 94, miscellaneous, $1,042 05—total $20,358 93, a decrease compared with the previous year of $1,460 49.

The expenses of operating the road (not including taxes) were $3,684,998 03, or 63.73 per cent. In 1874, they were 65.45 per cent. The expenses, including taxes, the past year were 66.8 per cent, against 68.1 per cent in 1874.

The following is a comparative statement of the earnings of the entire line, including branches, for the fiscal years ending May 31—

	1874.	1875.
Passengers	$2,360,948 86	$2,318,998 66
Freight	4,918,961 93	4,447,838 69
Miscellaneous	354,170 91	335,449 06
	$7,634,081 70	$7,102,286 41
Operating expenses	$5,316,549 64	$4,847,724 20
Taxes	207,092 75	220,373 56
	$5,523,642 39	$5,068,097 76
Net earnings	$2,110,439 31	$2,034,188 65

—showing a decrease in gross earnings of $531,795 29, with a decrease in expenses of $455,544 68, making the decrease in net earnings only $76,250 66.

The ratio of expenses to earnings in 1875 is 71.35, against 73.35 in 1874; exclusive of taxes, 68.25 in 1875, against 69.64 in 1874.

The gross earnings of the main separately, (including the Air-line division, which is simply a double track, and used as such) during the year ending May 31, 1875, were $5,903,179 86, against $6,312,788 23 in the previous year, a falling off of $409,608 37. The expenses during the past year were $4,140,769 18, against $4,479,786 06 in the previous year, a reduction of $339,016 88. The net earnings were therefore $1,762,410 68, against $1,833,002 07, a decrease of $70,591 39: showing that of the total decrease in net earnings upon the whole business of the company, as above stated, but $5,659 27 was upon the leased lines. The President in his report says:

The whole result of the year's business, as the Board are again compelled to state, will carry with it but little encouragement to stockholders, and it will add but little to it, when it is stated that the operating expenses of the past year have been, as they are stated in the accounts, increased by charging to them from suspended accounts, many claims outstanding for a long time, but now finally adjusted, of the gross sum of $218,765 which properly should have been charged against the revenues of prior years, instead of against those of this past year. Though the net earnings of this year, therefore, might with propriety be stated at that amount greater, above all the proper operating expenses of the year just closed, still the business of the company during the year, even so understood, will be far from satisfactory to stockholders. The causes will appear in the subsequent statements of this report.

The volume of business has not been equal to expectations. The abundance of the harvests in Europe the last year was such that there has been but comparatively little demand for the grain of this country abroad, and especially for wheat and flour. Those productions of the last year have therefore only moved from the West to the seaboard, or mainly to supply the demands of the home market. They are very largely, even now, in the granaries and warehouses of the West. They are now moving out, slowly, at rates wholly unremunerative, and such as have never been known before in the history of transportation in this country.

And yet there has been an actual considerable increase in the quantity of business by the Michigan Central road during the past year. Those who read the last report will remember that the increase of tonnage moved over the road during the year covered by that report, over that of any prior year, was the very large amount of 177,162 tons. The gross tonnage moved that year was 1,593,954 tons. During the past year, the gross tonnage moved was 1,641,280, being an increase of 47,326 tons over that of the prior year, when the increase was extraordinary. The increase also has been on both through and local tonnage. That stockholders may appreciate the regular increase in the amount of the business of the main line of the road, the tonnage moved in each of the last five years is given. It is as follows:

In 1870.. 823,770 tons.	In 1873..1,416,792 tons.
In 1871..1,105,875 "	In 1874..1,593,954 "
In 1872..1,238,313 "	In 1875..1,641,280 "

This shows the steady progress of the business of the road, so far as volume is concerned, even since the panic of 1873, as well as before. When it is considered that from 1858 to and including 1868 there had not been a locomotive added to the power of the road, and but few cars, and but little to the capacity of the track itself, and that even up to 1870 no substantial improvements were made in these various departments, while the country along the line and West had been rapidly developing its wealth and resources and business, and the business of the road had increased more than threefold, until, in 1870, it was wholly unable to meet the demands upon it in any of its capacities of power, cars or track, and that the actual tonnage now moved is again doubled since 1870, all can at least appreciate the necessity of all that has been done, to enable the main line to transact the business which it might be able to obtain. A steel track had become imperative, instead of iron, which could not be maintained with such a volume of traffic. A double track to a very large extent, greatly enlarged power and equipment, enlarged station grounds at all important points, and especially at the termini, as well as entirely new repair shops, both for cars and locomotives, were required. This altogether was nearly equivalent to reconstruction of the road entire. Its main track, with the exception of about fifty miles, is all steel, as well as its double track, except the Air Line, of which about thirteen miles are steel; and with sidings, yards and its termini—except at Chicago, where it is still somewhat straitened for room—all adequate to meet even any sudden increase of business which might arise from a season of abundant harvests in this country and short crops in Europe.

The regular increase in the volume of business in the past, year by year, will enable stockholders to judge how soon, by natural development only, the present large tonnage moved will be doubled, and consequently the utmost capabilities of the road even called into use. Of the absolute necessity of all the improvements to enable the main line to meet all the demands of business, and put it upon a footing to compete successfully with all rival lines, the Board have not had, and do not now have, a question or doubt. The rapid depreciation in rates was not fully foreseen, and therefore the revenue anticipated from the increased volume of business has not been thus far realized. The rates of this year have been also depressed by extraordinary circumstances, generally known. This progressive reduction of rates, however, could it have been fully and perfectly foreseen, would have only made more clearly evident, from the beginning, the absolute necessity of all the improvements made in the permanent property of the company, to enable it to do with economy the very greatly already increased traffic, and the future still larger business, from which, at low rates alone, it can count upon earning dividends for its stockholders. To have remained stationary, without the capacity to do the enlarged business pressing upon it in 1870, and which then clogged it, reslizing from it the rates only of 1874–5, would have been the direct way to the total, or nearly the total loss of all net revenues from its business. It would have been to reduce the road to a purely local one, with no ability to compete for through freight or passengers. While other lines were meeting the emergencies of business, and enlarging all their conveniences and appointments to enable them to do it, there was no alternative for this company, except to adopt and act upon the determination to put the road into such a state in all its parts, as to enable it to successfully compete for all business with the best of its competitors. The results of the traffic even thus far, prove that this has been successfully accomplished. It is not thought by the Board that there has been so steady an increase of traffic by any of the other great lines between Chicago and the seaboard cities, even during the past two years, as by the Michigan Central road.

As, however, the revenues of the property of the company have not corresponded with the increase of the business, and it is important that stockholders should perfectly understand the causes, at the risk of repeating statements formerly made, the Board again call their attention to the progressive reduction of rates, and the consequences of it upon the earnings of the road. The rate per ton, per mile, on all freight carried, shows the earning from every ton of freight, for every mile it is carried, and the reduction of this rate is the measure of the reduced earnings in each year. This rate, for each ton carried one mile, averaging all the business, in 1865, ten years ago, was 3.06 cents. One year later, it was 2.60 cents. Two years later still, it was 2.09 cents. In 1870, it was 1.98 cents. Two years later, it was 1.56 cents. In 1874, it was 1.30 cents; and last year it was reduced to 1.16 cents per ton, per mile. The last figure, it is believed, is the lowest which has ever been reached for the average transportation for both local and through freight, on any road until the last year. It will now be seen what effect this has had upon the gross revenues of the road.

The tonnage moved the last year, as stated above, was 1,641,280 tons. Could we have realized the rate per ton, per mile, which ruled in 1865, ten years ago, the earnings from this business would

have been	$9,741,999 69
While the real earnings were only	3,692,267 01
A difference of	$6,049,732 68

Which is more than seven five per cent dividends lost.

Had we received the rate of 1870, five years later, and only five years ago, the earnings from this source would have been	$6,303,646 83
While the real earnings were	3,692,267 01
Making a difference of	$2,611,379 82

Equal to more than three five per cent dividends lost.

Had we received only the rate of 1873, but two years ago, the earnings from freight alone would have been	$4,998,346 24
The actual earnings being	3,692,267 01
Which leaves	$1,306,079 23

Lost by simple depreciation of rates in two years only, and which is very nearly equal to two four per cent dividends.

Had we received only the rates of the last year, the earnings from freight would have been	$4,138,758 00
While real earnings were	3 692,267 01
Making a difference of	$446,490 99

This amount added to the earnings of the year, as stated in the accounts, would have carried the net earnings above those of the last year by $370,-240 32.

The effect of the depreciation of rates may be illustrated, in another form, on through business alone. For instance, on every ton of through freight, this company realized in 1868, $5.34, while the past year the sum realized has only been $2.61; a loss from the rates of 1868, of $2.73 on every ton carried. This loss by depreciation of rates on the through freight carried the last year, which was 958,045 tons, would be in the total $2,615,462 85. The loss on the rates on through freight alone, therefore, since that time is more each year than three five per cent dividends.

The consequences of not bringing the road up to the necessities of business, may be shown by another form of statement. As has been stated, in 1870, business had assumed its maximum volume with the road in its then condition, and the road was everywhere clogged with it. Its earnings from freight in that year were | $2,634,488 87

Assuming that it could have retained the same amount of business, as against rival roads, made fully adequate to all emergencies, and with steel and double tracks largely, which is not supposable, still it could not avoid the depreciation of rates, and would have been compelled to submit to them. The business therefore must have been done last year at the rate of 1.16 cents per ton, per mile, and instead of yielding the above sum, would have yielded of gross earnings, only | 1,541,676 81

Making a difference of	$1,092,762 06

which is equivalent to all the surplus of the company applicable to dividends at that time. With the depreciation of through passenger rates added, of more than one-fifth, it is much more than that.

All these various statements are made that stockholders may clearly have before them the causes which have been operating to affect the earnings of the main line, and the results of those causes,—that each one may fully understand the reasons why the anticipations made of at least reasonable dividends, have not hitherto been realized. Also that they may be able to see that it was impossible to let the road remain in the condition in which it was in 1870–71. All the expenditures, therefore, for the enlargement of its ability, made since then, have been only those of the most imperative necessity. These expenditures include all those for steel rail—double track—including the Air Line road and others above alluded to. Had the country remained prosperous, the increase of business, large as it has been, would have been still larger, and somewhat better rates would have been realized, and it is more than probable, dividends would easily have been earned and made.

The causes above stated are the main ones which have affected the revenues of the company. There is another, however, which, in a much smaller degree, has affected, up to the present time, and for some time longer, and until there shall be revived prosperity, will somewhat affect them. This is the leased lines—those leased within the last five years. The Joliet and Northern Indiana was leased twenty years ago, and should not now be considered. Those leased within the period named, are the Jackson, Lansing and Saginaw, the Grand River Valley, the Kalamazoo and South Haven, and the Michigan Air Line roads. Of these, the Air Line road, in itself, never has been, and never will be, profitable. Except as a double track for the main line, and to relieve it, this company could not afford to retain it. As a double track, it is as valuable, and, perhaps, more so, than a double track along the main line. It is obtained at a cheaper cost than such a double track could have been built. The business—passenger and freight—could not be done by one main line, and the Air Line is an immense relief to it, in the ease and dispatch with which the business can be done. While, therefore, the Air Line, as an independent road, would be of no value, it is important to this company as its double track for the distance of one hundred and fifteen miles by the old line. It is simply a part of the main line, though it has, of course some, though not a very important, local business, in addition.

It may be remarked, however, that worthless as it is in itself, as property, and would have been even if the projectors could have carried out their original plan, it failed of becoming another through line across the entire State, solely in consequence of a decision of the supreme court of the State, holding that it was not competent for the legislative power to authorize towns, cities and counties to vote aid to construct railroads—a decision at variance with those of all other States, with, perhaps, one exception, and those of the supreme court of the United States. It was enough, however, to destroy the value of the large amount of the aid voted for it, and defeat its complete construction.

The other roads, named above, were all projected and begun and built by the people along their lines, stimulated, of course, by the large subsidies voted by towns, cities and counties, and realized before the decision alluded to, to aid in their construction. During the long period, from 1850 up to nearly 1865, but little had been done in the construction of railroads in the State. It had progressed rapidly, in wealth and population, but had remained nearly stationary, so far as this kind of improvement was concerned. The Michigan Southern Company had built a branch to Jackson; but with that exception, the country through which the main line of the Central road runs, had not been invaded by any other railroads. Its local traffic was, all that time, safe, and its rates not affected by competition, and were well maintained. The time had come, however, when this state of things could no longer continue. The country was really rich and populous, and, especially at the close of the war, numerous railways were projected, which it was clear, must affect, favorably or otherwise, the interests of this company. All of those above named, were among them. Among the first was the Kalamazoo, Allegan and Grand Rapids, and the Jackson, Lansing and Saginaw roads. The first extended from Kalamazoo, by way of Allegan, to Grand Rapids—all important places, and the last the second most important city in the State. Its business was largely with Chicago, and the Central road, from Kalamazoo, is the short road to that city. The road from Kalamazoo to Grand Rapids was to be, apparently, a valuable feeder to the road of this company, and but for the subsequent construction of other roads, would have been so. Not long afterwards—but after the road between Kalamazoo and Grand Rapids was completed, and the first hundred miles of the Jackson, Lansing and Saginaw had been opened—the Grand River Valley and the Kalamazoo and South Haven were undertaken, and had made considerable progress towards completion. For several years, and up to this time, it remained the purpose of this company not to become connected with those roads, or any others, except by such friendly action and offices, as it was supposed would secure to this road the business to and from those roads, which could be more conveniently done by it, as was thought—certainly as well, as by any other possible connecting line of road. They were all aided by personal subscription to the stock, by people along the lines, as well as by municipal assistance; but, being new, still needed aid to their credit in the market, for the sale of their bonds. Application was made to the Board of this company for such aid, and after full consideration and discussion, it was agreed to make a traffic contract with them, by which this company agreed to set apart of the earnings upon its own road, from business which those tributary roads might send over it, a certain percentage, which should be applied each year to buy the bonds of the tributary road in the market; and to give value to such a contract, each company with which it was made, agreed to send all its business which it could control, over the Central road where the latter road was the direct road to the seaboard cities or to the West. The contracts so made with each of said companies from time to time, were printed upon the bonds, and they were sold, perhaps largely upon the faith of it. These contracts imposed no burden upon this company, because the percentage to be so applied was to come from new business created by the lateral road, largely at least. This was the position of things when the Kalamazoo, Allegan and Grand Rapids road had been finished, and opened some time. Its bonds had been sold upon the faith of such an agreement printed upon them. The Jackson, Lansing and Saginaw had been opened for a distance of one hundred and thirty-six miles.

Meanwhile the Michigan Southern Company had promoted and aided a railroad (now a part of its Grand Rapids Branch) from Constantine, on its own line, north to Kalamazoo. As soon as this was done, it tempted the company owning the Kalamazoo, Allegan and Grand Rapids road, by offers to take a permanent lease of it, on such favorable terms as would give value to its stock. These offers were so alluring, that the company yielded to them, made the lease, and the road—whose business had been pledged by contract to the Central road, as above stated—passed into the hands and control of the Michigan Southern Company, and all its business, both east and west, was permanently lost to this company.

The Grand River Valley, the Jackson, Lansing and Saginaw, and the Kalamazoo and South Haven, had progressed well toward completion. Let the reader turn to Map No. 2, appended to this report, and he will note that each of these roads could now be as easily connected, at Jackson and Kalamazoo, with the Michigan Southern, as with the Central road. The Kalamazoo and Grand Rapids road had been absorbed by the Southern company. That company had, soon after, been consolidated with the Lake Shore Railroad Company. The consolidated company had lost none of the disposition and desire of the other, to reach out for and grasp business properly belonging to another company, but, on the contrary, this desire had apparently become intensified by its increased power and ability. Overtures were made in various ways, by parties connected with it, to open negotiations with the companies owning those roads, for their lease or purchase. The business of two of them, at least, was sure, in time, to be large, and, with what would be earned by themselves, and the business they could send over

a connecting road, thus swelling its revenues, they were quite certain to become profitable, if not very valuable. It had now become, perhaps, equally dangerous for this company either to have anything further to do with them, or to let them alone, to be overcome by temptation, as had been the Kalamazoo, Allegan and Grand Rapids Company. Either alternative was a disagreeable one, and contrary to what had been the policy of the company. But to allow the Grand River Valley road to pass into the control of the Southern company, was not only to allow it to take all its business to Toledo and east, by the South Shore road, but also to give it the regulation of all rates on the north as well as the south side of the Central road, which might be even worse than to lose the contribution of $100,000 of business per annum, or nearly so, which, even in these times, that road makes to the main line. The same remarks are applicable to the Jackson, Lansing and Saginaw, and, though very much less important, to the Kalamazoo and South Haven road. The business of the last is comparatively unimportant, though not to be judged by these times. That of the other two was sure to be important, and the Jackson, Lansing and Saginaw, to increase with time, to great value. They might possibly be burdensome for a time, though it was not so thought; but if once leased to the Lake Shore and Michigan Southern Company, no matter how valuable they might become, they were forever gone, and their business forever turned to Toledo, and over the road of that company. All the advantages and disadvantages were considered. The manner in which the board regarded them, even then, is stated in the report of 1871, page 10, after the board had concluded, with much hesitation, that the alternative which was least dangerous, was to lease them on the best terms possible, where the following language is used:

"There are multitudes of projected railroads in this state, and some of them are building; but the board do not see in any of them anything which should tempt this company to a connection with them. So far as possible, it has controlled those most likely to injure it when built, and which might, if controlled by it, become tributary to it. The policy, even to this extent, and from such motives, may be hazardous, and, whether wise, remains to be proved."

There have been now, two years of great depression in all classes of business, and judged by the present, it might be considered that the sharpest horn of the dilemma had been chosen, while an experience of a short time more may, and probably will, prove that it would have been fatal to have chosen the other. In any event there has been no ambitious desire to acquire control of the roads of other companies. It has simply been the purpose to protect, so far as it might, the business properly belonging to your road and prevent it being turned away to other lines, and also, so far as it might, to protect its rates, which was almost equally important. Even this, it will be seen, has been done rather as a choice of evils, and with the hope that the least of two evils was chosen, when both could not be avoided. It may, nevertheless, be stated that the board considered, and do still consider, the agreement with the Jackson, Lansing and Saginaw, and also with the Grand River Valley, companies, of real and substantial value to this company, and were the decision to be made now with regard to them, we should not be willing to advise surrendering them. It is more doubtful about the Kalamazoo and South Haven.

It should perhaps be added that the construction of a railroad from Mackinac to Marquette, not long to be delayed, for which the state has made an appropriation of more than a million and a quarter of acres of land, exempt from taxation for twenty years, will add very largely to the value of the Jackson, Lansing and Saginaw Railroad in itself, aside from the great importance of it as a contributor to the business of the main line.

With all the anxiety felt to protect the local business of the road, and add to it, as well as to protect its rates, which have been the motives in taking control of roads which could, with equal facility, turn their business over your road, or that of the Lake Shore and Michigan Southern Company (and it has leased none other), only partial success has been obtained. So earnestly have local interests promoted the construction of new roads, that not only was the Air Line planned across the state, and likely to be built through, but another was also projected, parallel with it, and is nearly completed; viz., the Chicago and Lake Huron road. This is built from Battle Creek, in the direction of Chicago, parallel with the main line of this company, nearly eighty miles, and distant from it only an average of seven miles. Last of all, and but just before the panic, the Lake Shore and Michigan Southern Company promoted the construction of a new road from Jonesville, on its old line, north, to Lansing, across the lines of your road, at Homer, Albion and Eaton Rapids, crossing the Air Line, main line, and Grand River Valley road. This is the youngest born of the brood of roads calculated to seriously affect both the traffic and the rates of the Michigan Central road. That stockholders may the better appreciate the changes made by these and other cross roads along the main line, two maps have been prepared and published herewith. No. 1 shows the road as it was about ten years since. No. 2 shows it as it now is. The Michigan Southern road touches the main line in three, and crosses it in two places; the Pennsylvania system in one, and others at other points. At almost all local points the same competition is created as for through business. The responsibilities of a manager of a railroad property, so situated and going through such trials, for the past few years, has not been an agreeable one. Important and complicated questions, affecting its permanent interests, have arisen and necessarily been acted upon, sometimes requiring instant decision and action, and time alone can determine how wisely or unwisely it has been done. On the whole, it is believed they have been well decided. The great causes which have affected your property are not the lease of this or that lateral road, though temporarily this has had some effect. A little time will remedy all such results from that cause. The matters which have mainly impaired the revenues of the company, have been wholly beyond the control of the management. They are largely permanent. But it is now hardly possible that the worst has not been reached. It is now quite certain that the future will be one of increasing revenue, with increase of business. It is also certain that the results of the economies begun and in progress, will be much more marked in the next than in the past year. There are, even now, indications of an improvement in several classes of business. Passenger rates, and rates on some classes of freight, have been, or will be, restored. Dissension between great companies, and involving all others in their consequences, will cease. There is promise of abundant harvests in the West. New roads can scarcely again, for many years, be built to injure the old ones. With the natural increase of business, and with only such rates as the condition of things will allow us to realize, but a short time will be required to restore the value of the great lines. It must come mainly from increased business, and not from any considerable increase of rates, though there will be an improvement in them.

The opening of the Baltimore and Ohio, to Chicago, its desire to advertise its line by cheap rates, and by the notoriety which a contest with another great line would give it, have disturbed and mainly depressed them for a time, and some reaction will come as soon as business revives. The present effect has been very great. The whole reduction in the earnings of this company, during the past year, has been since the opening of that road and wholly by reason of reduced rates, because the business has exceeded that of last year during the same period.

The passenger business has fallen off in earnings, slightly; in all, $9,520. This has been entirely in the local business, where the loss was $44,428 09. There was an increase in through passenger earnings, of $34,908 09, notwithstanding the reduced fares.

The multiplication of through lines of cars, for the through freight business, by the various roads between the West and the East, is a source of great annual expense to all companies over whose roads they run, unless each company has its full quota of cars in the lines. The cost to this company, for the use of such cars during the last year, was $256,000. This is so great a burden that the board has provided for seven hundred new cars which, during the spring, have been put upon the road, to be used where they will best counterbalance this large annual charge. The money to pay for them was provided for by an equipment mortgage, and by a pledge of the sinking funds, which will be released to this company, by the payment of the remaining bonds falling due in 1882, and which are provided for by the bonds under the ten million mortgage, set apart for that, and which can be used for no other, purpose.

There has been but little construction during the year, though something has been necessarily done. The construction of new shops, elsewhere, left the buildings formerly used for shops, and standing in the yard fronting on Woodbridge Street, in Detroit, to be made useful for other purposes. They had become both inadequate and of no use for the former purpose for which they had been used. All except those immediately on the street have been removed, and the space occupied added to the station yards. Those fronting upon that street have been remodelled and repaired, and converted into a freight house, which is used by the Grand Trunk Company, for which it furnishes excellent conveniences for freight purposes. A sand house, and chutes for handling coal at the Junction, and coal platforms, and shed for surplus coal for emergencies, have been built. Twenty one miles of siding have been laid at various points. Something has been charged to construction this year, resulting from matters not wholly settled in the past. Altogether however, but little has been expended, except as steel rail, instead of iron, has been used to repair the track, where iron has given way, and the above are the chief items.

It will be seen from the statement of the superintendent, that about fifty miles of iron still remain in the track—main line—which must be replaced by steel as it gives way. It would be real economy, without doubt, to do this at once, and it must in any event, probably, all be done next year. Aside from this, there are no extraordinary expenses anticipated for some years.

Stockholders who read the semi annual statement of last December, will recollect that the floating debt, which had been upwards of a million in June before, had been nearly extinguished at the date of that statement. The January interest, and the rent for the Joliet and Northern Indiana road, both amounting to $224,960, and the taxes about $200,000, were paid in January and December, and all the wood and ties were bought during those months and February and March, absorbing about $350,000. Our earnings since December 1, owing partly to the depressed state of business, and partly to the action of the Baltimore and Ohio, have fallen off, between November and June, about $530,000. All these causes together, have again created a debt, which will be stated by the Treasurer, to whose statement, for the financial condition of the company, reference is made.

With increased, and very largely increased economy in the working of the road, which it is believed will become much more marked in the next than in the present year; with returning prosperity and the consequent natural increase of the business of the country, of which the regular and constant fast increase, from year to year, on the road, shows that we may reasonably expect our full share, with some little improvement which will be realized in the rates, there are well grounded hopes of an early restoration of value to the stock of the company, by reasonable dividends.

The whole number of locomotives on the main

line and branches is 211, being an increase of one over the previous year. The cars are classified as follows: 74 12-wheel and 9 8 wheel passenger, 80 12-wheel and 2 8-wheel second class, 1 officers, 1 pay, 2 comb. passenger and baggage, 3 postal, 17 12-wheel and 19 8-wheel baggage and mail, 99 way or conductors, 138 large and 137 small stock, 1,828 merchandise, 710 Blue Line, 500 combination stock, 21 refrigerator, 1,308 platform, 187 double deck, and 2 derrick cars, and 2 pile drivers.

The Treasurer, in his report, gives the following comparative statement of the business of the past year with that of the previous year.

From June 1, 1873, to June 1, 1874—

The gross receipts of the main line and branches were		$7,665,372 66
Operating expenses	$5,523,642 39	
Interest account	1,284,432 20	
		6,808,074 59
Net		$857,298 07

From June 1, 1874, to June 1, 1875—

The gross receipts were (from main line and branches)		$6,720,013 45
Operating expenses	$5,068,097 76	
Interest account	1,594,414 53	
		6,662,512 29
Net		$57,501 15

The bonded debt has been increased during the past year by the issue of $600,000 equipment bonds so that it now amounts for the main line to $11,335,000; of which amount $672,000 of the bonds of 1882 are in the sinking funds, which reduces the amount of outstanding bonds to $10,663,000.

The sum invested in the sinking funds, less the bonds of this company therein, amounts to $1,044,719 57, as shown in the report of the trustees.

The bonded debt of the leased roads, which have been assumed by this company, are as follows, all bearing eight per cent. interest:

Michigan air line	$1,900,000 00
Michigan air line, South Bend Division	200,000 00
Grand River Valley	1,500,000 00
Kalamazoo and South Haven	710,000 00
Jackson, Lansing and Saginaw	4,253,000 00
The bonds of the Detroit and Bay City Railroad Company have been indorsed by this company to amount of	$424,000 00
The capital stock stands as at last report	$18,738,204 00
Construction account amounts to	27,663,324 85
Bills payable now amount to	770,015 16

INCOME ACCOUNT.

Balance from previous year	$1,582,263 98
Receipts of the Main and Air Lines from June 1, 1874, to May, 31, 1875	5,520,906 90
	$7,103,170 88
Operating account Main and Air Lines	$4,140,769 18
Interest account	891,596 53
	$5,032,365 71

Balances to debit of Branch Roads:

Joliet & N. I. R. R. Co.	$118,080 23	
Grand River Valley	67,767 48	
Kalamazoo & So. Haven	37,318 63	
Nunica Division	31,950 35	
South Bend Division of Air Line	13,564 39	
Jackson, Lansing and Saginaw	162,358 95	
		431,040 03
Balance to new account		1,689,765 14
		$7,103,170 80

The total number of passengers carried during the year was 831,489, of whom 162,588 were through, and 668,901 local. Number of passenger carried one mile, 72,826,047. Total number of tons of freight moved, 1,641,280, of which 958,045 were through, and 683,235 local. Number of tons carried one mile, 318,366,003.

Miles run by locomotives: passenger, 1,028,171; freight, 2,390,323; miscellaneous, 259,328; switching, 1,337,793—total, 5,015,615.

Treasurer.—ISAAC LIVERMORE.

Vice Treasurer & Clerk.—JOSHUA CRANE.

Gen'l Superintendent.—WILLIAM B. STRONG.

Auditor.—WILLIAM BOOTT.

New Castle and Franklin Railroad.

This road is 36 miles in length, extending from New Castle, Penn., to Stoneboro', at which point it connects with the Jamestown and Franklin Railroad, and through that road with Oil City on the South and Cleveland, Ohio, on the North. At New Castle connection is made with the Erie and Pittsburg Railroad; and at Oil City with the Oil Creek and Allegheny River Railroad, extending thence to Irvineton, and with the Allegheny Valley Railroad, running from Pittsburg to Corry. Again at Irvineton connection is made with the Dunkirk, Allegheny Valley and Pittsburg Railroad, extending from Dunkirk to Titusville, and at Corry with the Buffalo, Corry and Pittsburg Railroad, extending from Corry to Brocton, a point on the Lake Shore and Michigan Southern Railway, 49 miles from Buffalo. In reference to the extension of the road to Meadville, the Sandy Lake News says:

Mr. A. Vandivort, superintendent of the New Castle and Franklin Railroad, informs us that steps will immediately be taken to commence the preliminary survey, and ere our readers shall read this article, the engineers will doubtless be at work. This will be welcome news to the thousands of anxious people along the projected route, and we believe that the project will be sustained by all who may be called upon to render assistance. The northern terminus will be Erie, as the Erie people are determined to have direct communication with the coal fields in this section, and large sums have been volunteered by business and moneyed men of that city. We are informed that they offered to grade the road from Erie to Meadville ready to receive the iron and rolling stock, independently of any assistance from the company. With such a determined feeling as this on the part of the capitalists there can be no chance of failure.

☞ The Salem, Oregon, Record learns from J. W. Osburn, of Corvallis, that the preliminary survey for the Yaquina Railroad has just been completed, and Mr. Hogg has made a proposition to the people interested that if $100,000 can be raised to aid the enterprise he will have a narrow track railroad completed and running from Eugene to Yaquina Bay in time to move the crop of 1876—that is one year from next fall. Sixty thousand dollars had already been subscribed toward it, and people were confident that the whole amount would be raised without great difficulty.

☞ The Havre de Grace Republican states that two of the wooden spans—Nos. 2 and 5—of the Philadelphia, Wilmington and Baltimore Railroad bridge over the Susquehanna River, at that place, are to be replaced with iron this season. The piles have been driven, and the trestling will be finished in a short time. These, when completed, will make six iron spans in place, leaving seven more to be put up in the future, as circumstances may require.

☞ The City Register of Baltimore has transferred to W. H. Ijams, treasurer of the Baltimore and Ohio Railroad Company, $2,337,000 in coupon bonds of the Pittsburg and Connellsville railroad. This is in accordance with the provisions of the ordinance under which the sale of the city's interest in the Pittsburg and Connellsville road to the Baltimore and Ohio for $1,000,000 was authorized.

☞ The sale of the Northern Pacific Railroad, which was to have taken place on the 2d inst., has been postponed to Thursday, August 12th.

American Railroad Journal.

Saturday, August 7, 1875.

Financial and Commercial Affairs.

Storms and floods at the West and North West, and their destructive consequences, especially in the instances of the crops yet ungathered, have taken the place of financial and mercantile failures, as the chief topics in business circles. The reports have had the effect of stimulating speculation in the commercial line, particularly at the Produce and Cotton Exchanges, and of strengthening values, materially. Money has been very freely offered all through the week in the local market, and rates on call have been quoted back to from 1¼@3 per cent; and in the discount line from 4@7 per cent per annum. On this basis responsible borrowers have had their wants very promptly supplied, leaving large balances without employment on anything like lucrative terms—though some lenders have been buying investment securities, including the more substantial of the Railway Mortgage Loans, to a liberal extent, at current quotations. The advices from the foreign markets are of easy Money, and generally tame movements in the financial and commercial lines. The City banks here have been gainers of legal tender reserve, while losing specie and deposits, and enlarging their loan and discount average. The U. S. Sub Treasury added largely to its coin and currency balances during the week. The Public Debt exhibit for August 1st shows a further liquidation of $1,294,087 in July. The customs revenue of the Government at all ports, and the internal revenues from all sources, in the fiscal year which ended with June 30, 1875, were

$266,267,189. From miscellaneous sources, the national income for the year was estimated at $23,000,000. It is now deemed certain that the excess of receipts over expenditures for the last fiscal year ending June 30, 1875, will be at least $15,000,000, and may reach $17,000,000. The aggregate expenses of the Government for the fiscal year ended June 30, 1875, exclusive of interest on the public debt, were in round numbers $274,500,000. The U. S. Sub Treasury receipts in July were $121,525,042, including $9,598,718 from customs; payments, same month, $124,084,589, including $7,832,434 of coin interest on the Public Debt. The City Banks last week augmented their reserve of legal tender notes $518,800, while reducing their deposit item $1,062,500, and their specie average $1,782,200. They report an addition of $1,358,500, to the loans and discounts, and a falling off of $23,300 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $59,185,501, against $56,470,779 the preceding week; and a coin hoard of $35,971,823, against $33,672,341 on the previous return. The City bank exchanges in currency during the week, were $392,741,661, or a daily average of $65,456,944. The customs revenue of the port, during the week, was $2,542,000. The City banks reported their average of gold last week at $15,737,200, and their green back average at $75,534,000. Their deposits stood at $251,066 100. The loan item was $278,907,700. The circulation was $18,576,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $28,504,675.

The aggregate of the outstanding U. S. currency, of all denominations, August 1, was $416,456,124. The outstanding amount of legal tender notes is $374,824,986. The National bank circulation is now $349,835,249, including $2,600,000 of national gold bank notes.

On Tuesday, the cash balances of the Treasury Department at Washington were of Currency, $4,316,970; special deposit of legal tenders for the redemption of certificates of deposit, $64,270,000. Coin, $68,942,700. Coin certifiates, $22,725,100.

The week's import entries of Foreign Merchandise at New York, were $5,803,769, and included of dry goods $2,118,365.

The income of the Government from internal revenues in the fiscal year, since July 1, 1875, has been about eleven millions.

In July, Government disbursed by warrants on expense account, $16,287,524. Government will sell gold during the month of August as follows: $1,500,000 on the first and third Thursdays each, and $1,000,000 on the second and fourth Thursdays each; total $5,000,000.

The Secretary of the Treasury has directed the retirement of $1,016,472 legal tenders, that amount being 80 per cent of the additional National bank notes issued last month. Until further orders the outstanding legal tenders will be $374,755,108.

Gold has been less active in the speculative line since our last, and the fluctuations in the price have not been very important—the extremes having been from 112¼@113¼, as against 111¾@116⅝ the preceding week. The customs demand has been more active, and the export movement very light. Government controlled a coin reserve of $68,942,700 on the 1st of August. The Gold exchanges of the City Banks last week were $45,360,104. The Sub Treasury operations for the week included the disbursement of $979,000 gold for interest and $468,000 in redemption of 5-20 bonds. The extremes of the week have been 112¼@113¼, closing on Wednesday at 112⅞, as against 113¾ on Wednesday of the preceding week. The specie outflow last week was only $230,595 against $815,279 the previous week The imports of specie at this port since Jan. 1, have been $7,973,010, against $2,846,619 same time last year. The customs demand for Gold last week averaged $423,667. Foreign Exchange has been in more demand at steadier rates. Bankers' sixty day bills on London closed on Wednesday at $4 86½@$4 87½; sight bills on London at $4 89@$4 90½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,325,682. The week's imports of Dry Goods and general merchandise were to the specie value of $5,083,769 against $7,208,727 same week last year.

Government Securities have been in more urgent request, on investment account, at the current quotations, closing firmly, on limited offerings of nearly all issues.

U. S sixes of 1881 closed on Wednesday of this week at 120½@120¾; U. S. Five-Twenties of 1862, at 114¼@114½; U. S. Five-Twenties of 1864 at 115⅞@116⅛; U. S. Five-Twenties of 1865 118¾@119¼; U. S. Five-Twenties of 1865 consolidated, 118½@118¾; U. S. Five-Twenties of 1867, 120¼@120½; U. S. Five-Twenties of 1868, 120¼@121¾; U. S. Ten-forties at 117@117¼; U. S. Fives of 1881, (Funding Loan) 115½@115¾; Six per cent. currency Sixes, 122@122½.

State and Railway bonds have been more sought after on investment account at generally firmer rates. And in the line of Railway and Miscellaneous share property, a fair business has been reported with values fluctuating less violently, and, at the close, showing firmness.

The aggregate gold values of the Imports into the United States in the fiscal year ending with June 30, 1875, were $533,000,309, as against $567,406,342 in the preceding year. The aggregate exports from the U. S., year ending June 30, 1875, were $559,224,304 of mixed values, and $14,058,322 of foreign gold values, as against $663,339,368 of mixed values, and $16,849,619 of foreign gold values in the previous fiscal year. The total specie exports year ending June 30, 1875, were $83,857,129 of domestic and $8,275,013 of foreign specie, against $59,699,686 of domestic, and $6,930,719 of foreign specie, the preceding fiscal year.

General business has been again quite active in the Produce lines, notably so in Breadstuffs, Provisions, Cotton and Linseed and Linseed Oil, which have been quoted much stronger as to values—influenced, in good part, by the Western advices relative to the destructive storms and floods. General merchandise has been in fair, though not brisk request. Groceries have been ruling firmer, most other articles have been without important alteration. The export movement in Breadstuffs has been checked by the advanced prices claimed. The Metal trade dealings have not been important. Prices have been generally quoted steady. Eglinton Pig Iron quoted here at $29 50@$30 50; Glengarnock, $31@$32; Coltness, $31@$32; No. 1 American Pig at $26@$28; No. 2 do. at $24@$26; Forge, $22@$24; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $26@$27. Wrought Scrap, $30@$32. Ocean freights have been fairly active especially for Grain and Petroleum, closing stronger as to rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

NEWCASTLE AND FRANKLIN R. R.

(of Pennsylvania)

1st Mortgage Bonds for sale at 80.

1st Mort. Bonds.....$360,000.
Cash Paid Stock.....324,000.
Length of Road.....36 miles.
Average Earnings 1875.....$24,000.

Address Box 73, N. Y. P. O.

City Securities.

Daniel A. Moran, 40 Wall St., N. Y., offers for sale a choice selection of municipal bonds of some of the leading cities of the country, viz: New York, Cincinnati, Jersey City, St. Louis, Cleveland, etc. As the bonds issued by cities of large population and commerce are among the best securities in which capitalists can invest, they will find Mr. Moran the right person to address or call upon in reference to the negotiation of such securities. Mr. Moran also deals in State and Railway bonds, and having had a long experience in the business is thoroughly posted in stocks and bonds of every description.

☞ The directors of the Boston, Revere Beach and Lynn Railroad Company have voted to expend the additional sum of $200,000 for the purpose of building a second track from East Boston to Lynn, to be completed early in the Fall, for purchasing three new engines and ten new passenger cars, to be immediately ordered, and for the erection of new and commodious depots at West Lynn, Revere and Winthrop, also the erection of a large depot on the wharf property at East Boston, all to be completed on or before November 4.

☞ The receipts of the New Castle and Franklin Railroad for the months of May and June, 1875, were $11,000 65. The operating expenses during the same time were $4,041 88. The office of the company is at New Castle, Penn. John M. Power is Auditor, and Cyrus Clark Secretary and Treasurer.

☞ The Pennsylvania Railroad Company have declared a quarterly dividend of two per cent on the capital stock of the company, clear of all taxes, payable on and after August 30th to stockholders, as registered on the books at 3 P. M., July 31.

Brown, Brothers & Co.,

California and Oregon Railroad.

We learn that Vice President Huntington, of the Central Pacific Railroad, one of the railroad party who passed here some days ago to see about making a continuation of the California and Oregon Railroad toward forming a connection with the Oregon branch, gave instructions to Chief Engineer Montague, who was with him, to secure some of the best engineers on the coast and devote his whole attention from this time forward to the building of this road. He thought brains were needed in regard to the building of a line above Redding, and all the conversation and actions of the entire party seemed to favor the route up the Sacramento river to Shasta valley. On this trip up and back, via the stage road north and the Klamath Lake route back, will enable the officers and directors to decide where connection will be made on behalf of the California and Oregon branches.—*Yreka Herald.*

Statement of the Public Debt of the United States August 1, 1875.

DEBT BEARING COIN INTEREST.

	Amount Outstanding.	Accrued Interest.
5 per cent. bonds, 1858	$260,000 00	$1,083 33

Totals	$64,623,512 00	$323,117 56

Interest paid by United States, $28,202,807 70; interest repaid by transportation of mails, &c., $6,214,159 89; balance of interest paid by United States, $21,988,647 81.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, July 31, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

Finances of Pennsylvania.

At a meeting of the Commissioners of the Sinking Fund held at Harrisburg on the 2d inst., the State Treasurer submitted a statement showing the balance in the Sinking Fund to be $435,533 08, whereupon the following resolution was offered by Secretary Quay, and was unanimously adopted:

Resolved, That the State Treasurer be directed to notify the Farmers' and Mechanics' National Bank of Philadelphia that the Commissioners of the Sinking Fund are prepared to redeem upon presentation the balance of the 5-10 loan of the Commonwealth amounting to $434,850; and further, that the State Treasurer be directed to notify the holders of the Chambersburg certificates issued under the act of May 27, 1871, to present the same for payment forthwith at the Treasury, and that interest be stopped upon all the indebtedness above mentioned on the 1st day of November next.

The amount of the loan thus called for is as follows:

Five-ten loan act of Feb. 2, 1867, $434,850; Chambersburg certificates act, May 27, 1871, $73,168 26; total, $508 018 26, exceeding by $72,485 18 the present available balance in the Sinking Fund.

The redemption of the loan for the present fiscal year will exceed $1,400,000, and will exhaust all loans of the Commonwealth now due or which can be reached at the option of the State by the present Board of Commissioners.

The Coal Trade.

The production for the week ending on the 24th ultimo, as stated by the Pottsville *Miners' Journal*, was 501,436 tons, and for the year 8 612,958 tons, against 8,905,835 tons to corresponding date last year, a decrease of 292 877 tons. The bituminous tonnage for the week was 86,542 tons, and for the year 1,981,697 tons, making a total of all kinds for the week of 587,978 and for the year of 10,594,656 tons, against 10,789,155 tons to same time last year, a decrease of 194,500 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 103,463 tons, and for the year 2,133 824 tons, of which 1,796,106 was coal and 346,528 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 31st ultimo there were receipts of 70,000 tons of coal, shipments of 70,000 tons, leaving 50,000 tons on hand. The receipts at Perth Amboy for the week ending July 24 were 11,727 tons; total to date, 35,685 tons; shipments for same week, 10,800 tons; shipments to date, 25,080 tons; on hand, 10,637 tons. The Philadelphia *Ledger* says:

The anthracite coal trade is fairly active under a steadily increasing tonnage. The Schuylkill region is throwing an immense amount of coal into the market. The shipments by road and the canal for the week ending on the 24th ultimo was nearly 241,000 tons, a large increase on the tonnage of corresponding week last year, and the tonnage of the region is now, notwithstanding the five months' coal suspension, within about 1,600,000 tons of what it was at this date in 1874. The other anthracite coal regions are also producing largely, and steadily gain on the production at the same time last year. The advance in the prices of anthracite coal for the month of August, which is quite small, goes into operation to-day. The demand for all the several sizes of prepared coal is good, the most of the operators and the Reading Coal and Iron Company being well supplied with orders.

Exports of Railway Iron from Great Britain.

The exports of railway iron from the United Kingdom in June exhibited considerable depression, having amounted in that month to 58,088 tons, as compared with 92,174 tons in June, 1874, and 72,962 tons in June, 1873. The exports of railway material to the United States receded in June to the remarkably small total of 1,846 tons, as compared with 12 521 tons in June, 1874, and 18,016 tons in June, 1873; but the shipments to the United States increased to 16,410 tons, against 8,451 tons in June, 1874, and 9,669 tons in June, 1873. In the six months ending June 30 this year we exported railway iron to the aggregate extent of 259,307 tons, as compared with 427,267 tons in the corresponding period of 1874, and 347,757 tons in the corresponding period of 1873. In these totals the United States figured for 15,784 tons, 64,969 tons, and 120,468 tons respectively: British America for 52,790 tons, 28,710 tons and 29,774 tons respectively; and Australia for 42,015 tons, 38,088 tons, and 9,293 tons respectively. Our railway iron exports have increased this year to Peru, Chili, British America, and Australia; but they have decreased in almost every other direction. The value of railway iron exported from the United Kingdom in June was £595,738, as compared with £1,111,893 in June, 1874, and £962,458 in June 1873, and in the six months ending June 30 this year £2,683,928, as compared with £5,494,764 in the corresponding period of 1874, and £4,586,877 in the corresponding period of 1873.—*Herapath.*

Rutland Railroad.

At the annual meeting of the stockholders of this company, held at Rutland, Vt., on the 28th ult., the following gentlemen were elected directors for the ensuing year: Jacob Edwards, Peter Butler, Edwin A. Burchard, James H. Williams, Jno. B. Page, James W. Hickok, Wm. Sohier, Jas. S. Whitney and Jno. Prout. At a subsequent meeting of the directors the following officers were chosen: John B. Page President, Joel M. Haven Treasurer, and B. B. Smalley Clerk.

The following statements, which were submitted by the President, cover a period of eighteen months from the date of last report, owing to the change in the time of holding the annual meeting:

BALANCE SHEET, JULY 1, 1875.

Capital stock, common	$2,479,700 00
Capital stock, preferred	4,168,700 00
Bills payable	646,015 45

Total rent for 18 months for Rutland and its leased roads	938,083 34
	$980,267 91

CREDIT.

Cash received of Cheshire and Connecticut River Railroads	$708,398 37
Due and unpaid, not including inter'st	271,869 54
	$980,267 91

Of the balance on rent accounts, $48,489 is due to stockholders in the Addison Railroad.

J. M. HAVEN, Treasurer.

We, the undersigned Auditors, have examined the books and accounts kept by the Treasurer of the Rutland Railroad Company from January 1, 1874, to July 1, 1875, and the foregoing trial balance and statements of receipts and disbursements, as showing the condition of the corporation July 1, 1875, have been verified by us and found correct. We have also examined and canceled the vouchers in the hands of the Treasurer. There has been paid since the last report $6800 of the then outstanding first mortgage bonds of the Rutland and Burlington Railroad Company, which we have canceled. There now remains outstanding of these bonds $19,100.

J. H. WILLIAMS, } Auditors
N. KELLOGG, }

Rutland, Vt., July 26, 1875.

☞ A decree was recently rendered in the U. S. Circuit Court at Boston to the effect that the Commonwealth of Massachusetts has no valid claim of any sort upon the surplus of £16,273 sterling which Baring Brothers & Co., of London, have in their hands remaining from the sale of bonds of the Boston, Hartford and Erie Railroad.

☞ The estimated earnings of the Union Pacific Railroad for the month of July, 1875, are $1,034,653; the actual earnings in July, 1874, were $902,881—an increase of $131,772.

☞ The bondholders of the Northern Pacific Railroad have confirmed the appointment of Charlemagne Tower as Trustee of the road, vice W. B. Ogden resigned.

☞ The Lehigh Valley Railroad shops, at South Easton, have commenced working full time.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, J. H. Butts, Ag't,
KINGSTON, N. Y. 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

Philadelphia and Erie Railroad.

The following is a copy of the settlement of accounts against the Philadelphia and Erie Railroad Company, as made between the committee of the Philadelphia and Erie Railroad Company and the president of the Pennsylvania Railroad Company, and confirmed by the Pennsylvania Railroad board of managers at their meeting July 14th:

January 1st, 1875.—Amount due by Philadelphia and Erie Railroad Company for use of equipment, motive power, machinery, etc., to date		$1,337,968 57
Amount of Allegheny Valley Railroad funded debt bonds to be received in settlement of said account at par	$1,338,000	
Add bonds to represent three months' interest, January 1st, 1875, and April 1st, 1875, cut off.	24,000	
		$1,362,000 00
Amount due by Philadelphia and Erie Railroad Company for cash advances made		$1,378,189 00
Amount Allegheny Valley Railroad funded debt bonds to be received in settlement of part of said account	$401,000	
Deduct present 3 months' interest as above cut off.	7,000	
	$394,000 a 80 pr. ct.—	$315,200 00
Philadelphia and Erie gold bonds, $1,329,000 at 80 per cent		1,063,200 00
		$1,378,400 00
Amount of bonds required on above basis—Allegheny Valley bonds		$1,338,000 00
		24,000 00
		401,000 00
Total Allegheny funded debt bonds.		$1,763,000 00
Philadelphia and Erie gold bonds..		1,329,000 00

☞ The Rutland Railroad Company have filed in the Franklin County Court of Chancery a bill against the Central Vermont Railway Company et al., returnable at the September term hearing, for a cancellation of the Rutland lease and a surrender of the possession of the road to its own company.

☞ The Commissioner of Internal Revenue has reversed the decision of April 12 last, concerning the stamp tax upon drafts, bills, checks or other orders drawn in the United States upon a bank, banker or trust company in a foreign country, and decides that they appear to him to be clearly taxable under the terms of the statute.

☞ The reported earnings of the Denver and Rio Grande Railway for the month of May were as follows: Gross earnings $35,535; gross earnings same month of 1874, $38,083—decrease, 6.7 per cent., or $2,547. Net earnings, $18,345; net earnings same month of 1874, $21,058—decrease, 12.8 per cent., or $2,712.

☞ Particular attention given to the Examination of Public Works for Capitalists seeking Investments.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

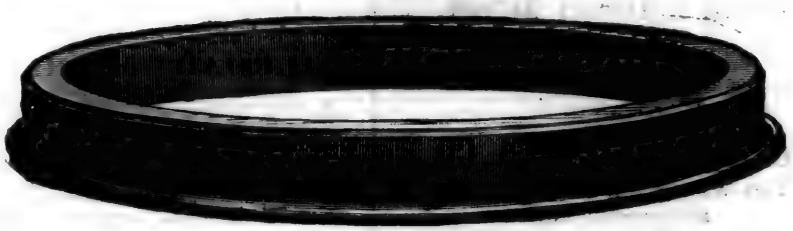
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.



Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, August 14, 1875.

The Pacific Mail Steamship Line and the Chilian Exposition.

The Pacific Mail Steamship Company give notice that they will issue Excursion Tickets to the Semi-centennial Exposition of Chili and return, good till March, 1876, for $851, gold; outward only $221, gold. The Exposition will open at Santiago, the capital of Chili, on the 16th of September. The Chilian government has with unusual liberality made large and special appropriations for the exposition, with a view to making its international character a decided success. A large public park upon the outskirts of Santiago has been selected as the place of holding the exposition. Extensive and expensive buildings have already been erected, and numerous railroad tracks have been constructed to and from the grounds at government expense. The last steamer from New York via Panama took out American goods aggregating in weight over 600 tons designed for the exposition, and it is confidently expected that the exhibitors from the United States will number one thousand. It is also said that upon the close of the Chilian exposition a majority of the European and South American exhibitors will forward their goods to this country to be exhibited at the centennial at Philadelphia next year.

Southern Pacific Railroad.

Work on the extension of the Southern Pacific Railroad is being pushed with increased vigor. There is no longer any delay on account of iron or ties. Of the contract for grading 100 miles south of Spadra, 79 miles have been already completed through the San Gornio Pass, and beyond the White Water river. The 100 mile contract will be completed before the 15th of September. Track laying, which earlier in the season was retarded by the non-arrival of iron, is now steadily progressing at the rate of one mile a day; the track is now laid about 10 miles south of San Bernardino. The cars are regularly running to San Bernardino, a distance of 89 miles from San Fernando; they will reach the 150th mile post some time in October. The work north of San Fernando (between San Fernando and Caliente) comprises the heaviest work on the Southern Pacific line, and includes the San Fernando tunnel, 8,000 feet long, and several shorter tunnels, in its passage over and through the Tehachipi mountains. The superintendent of construction of this division reports the heavy work named as well covered with men, numbering more than 3,200, with horses, plows, carts, wagons, pumps, stationary engines, and other appliances for successful work in that mountain region. To hasten the completion of this division three shafts have been sunk, at about equal distances from each other, in the long San Fernando tunnel, so as to drive the work night and day, with shifts of men from eight faces. The material is sand rock, and the tunnel is already in 500 feet at the south end and 150 feet at the north end. The superintendent of the work, J. B. Harris, says he will finish the tunnel in April, and that all the rest of the line will be ready for the iron by that time or before. It seems reasonably certain, therefore, that, with the opening of another summer, travelers may take a comfortable sleeping car at San Francisco, and, without change of conveyance, visit Los Angeles and San Bernardino; and that Governor Stanford's prediction of watering his locomotives at the Colorado river will be verified by midsummer of 1876.

Portland and Ogdensburg Railroad.

The Portland and Ogdensburg Railroad was completed on the 7th inst. through the White Mountain Notch, to its connection with the Boston, Concord and Montreal Railroad, at Fabyan's, a distance of 91 miles, by the driving of the last spike—a silver one, provided for the occasion—at James' Cut in the gateway of the Notch, four miles below the Fabyan House, by Gen. S. J. Anderson, the President of the company. Travelers can now leave Boston in the morning, dine at Portland, and take supper at Fabyan's or on the top of Mt. Washington.

The Eastern Railroad connection at North Conway is also an important one for that route, and enables parties over that route to reach the Crawford and Fabyan Houses easier and quicker than by and other way.

The business of the Portland and Ogdensburg road even thus far has exceeded the most sanguine expectations. The total receipts since it was opened (Sept. 12, 1870), have been $555,729 68, expenditures $348,907 33, net income $206,822 35—a very handsome exhibit. The net earnings the past year were 20 per cent increase of the previous year. The contractors, Messrs. Fuller and Harding, were paid as far as Bemis half in cash, half in the company bonds, but beyond there 80 per cent in cash and 20 per cent in bonds.

There remains but 19¾ miles to construct from Fabyan's to the Connecticut River, two miles of which is on the other side of the Boston, Concord and Montreal Road from Dalton, N. H. The P. and O. Road will use the B., C. and M. Road from Fabyan's to Wing Junction, 14 miles. The bridge across the Connecticut River will be built at once.

The money needed with which to complete the road from the Fabyan House to Connecticut River will be derived from the $3,300,000 bonds issued November, 1871, none of which have been put into the market.

☞ The estimated earnings of the Union Pacific Railroad for the month of July, 1875, are $1,034,658; the actual earnings in July, 1874, were $850,142—an increase of $184,511.

Pennsylvania Railroad and Leases.

We have heretofore published the text of the last two annual reports of the Pennsylvania Railroad Company (see issues of March 28, 1874, and March 13, 1875). As a corollary to the exhibits given in the reports referred to we have prepared the following tables, which show the results of operations on the several lines operated directly by the company, both in Pennsylvania and New Jersey.

GENERAL SUMMARY.

The aggregate gross earnings of all the lines of railroads (and canals) operated by the company in 1873 and 1874, the aggregate amounts paid for their working expenses, and the aggregate net earnings were comparatively as follows:

Earnings:	1873.	1874.
Pennsylvania R. R. and branches	$24,886,008 90	$22,642,371 35
Philadelphia and Erie R. R	3,842,067 20	3,506,919 28
United Railroads of New Jersey	8,516,739 73	8,700,969 36
Belvidere Delaware R. R. & branch	1,148,222 76	1,215,648 05
Delaware and Raritan Canal	1,590,100 12	1,320,519 23
Gross earnings	$39,983,138 91	$37,386,427 27
Expenses:		
Pennsylvania R. R. and branches	$15,440,305 16	$13,245,447 07
Philadelphia and Erie R. R	3,413,310 84	2,438,133 01
United Railroads of New Jersey	6,792 188 05	6,330,033 42
Belvidere Delaware R. R. & branch	825,912 65	773,647 94
Delaware and Raritan Canal	883,321 46	768,416 64
Working expenses	$27,355,038 16	$23,555,678 08
Net earnings:		
Pennsylvania R. R. and branches	$9,445,703 74	$9,396,924 28
Philadelphia and Erie R. R	428,756 36	1,068,786 27
United Railroads of New Jersey	1,724,551 88	2,370,935 94
Belvidere Delaware R. R. & branch	322,310 11	442,000 11
Delaware and Raritan Canal	706,778 66	552,102 59
Net earnings	$12,628,100 75	$13,830,749 19

EQUIPMENT.

The equipment of the whole line at the close of the years 1873 and 1874, was as follows:

	1873.	1874.
Locomotive engines	1,071	1,075
Passenger cars	595	604
Emigrant cars	71	71
Baggage cars	96	100
Mail cars	6	6
Express cars	72	72
Freight cars	19,009	19,577
Maintenance of way cars	1,640	1,515

MILEAGE OF ENGINES.

	1873.	1874.
Passenger	6,286,298	5,781,556
Freight	17,113,238	15,769,486
Distributing	1,098,725	811,941
Total mileage	24,498,261	22,362,983

Apportioned as follows:

	1873.	1874.
Pennsylvania R. R	16,111,315	14,644,822
Philadelphia and Erie R.R.	2,874,881	2,515,685
United Railroads of N. J.	5,512,065	5,202,476
Total, as above	24,498,261	22,362,983

PASSENGERS CARRIED.

	1873.	1874.
Pennsylvania R. R. and branches	5,879,684	6,088,103
Philadelphia and Erie R.R.	777,273	680,163
United Railroads of New Jersey	8,003,043	7,837,817
Belvidere Delaware R. R. and branch	397,153	414,480
Total	15,057,153	15,020,063

PASSENGERS CARRIED ONE MILE.

	1873.	1874.
Pennsylvania R. R. and branches	177,479,019	174,959,639
Philadelphia and Erie RR.	20,257,570	17,148,330
United Railroads of New Jersey	167,554,051	165,486,897
Belvidere Delaware R. R. and branch	6,757,833	6,937,450
Total	372,048,473	364,532,316

TONS OF FREIGHT MOVED.

	1873.	1874.
Pennsylvania R. R. and branches	9,211,231	8,626,946
Philadelphia and Erie R.R.	2,164,246	2,243,170
United Railroads of New Jersey	2,854,212	3,277,528
Belvidere Delaware R. R. and branch	1,417,820	1,457,278
Total	15,647,509	15,604,922

TONS OF FREIGHT MOVED ONE MILE.

	1873.	1874.
Pennsylvania R.R. and and branches	1,384,831,970	1,372,566,976
Philadelphia and Erie R. R	268,091,431	294,466,833
United Railroads of New Jersey	150,011,374	178,184,948
Belvidere Delaware R. R. and branch	67,602,762	71,372,938
Total	1,870,537,537	1,916,591,690

PENNSYLVANIA RAILROAD.

The statistics presented herewith refer to the main line between Philadelphia and Pittsburg, and the branches (owned and leased) operated in immediate connection therewith:

Length of road:	1873.	1874.
Main Line miles.	358	258
Branch lines "	511	519
Total railroad operated "	869	877

	1873.	1874.
Passengers carried	5,879,684	6,088,103
Do. carried one mile	177,479,020	174,959,639
Equal to through do	501,920	494,795
Freight (tons) moved	4,683 733	4,417,609
Coal (tons) moved	4,527,501	4,209,337
Company's fuel, &c., (tons) moved	787,560	491,473
Total tonnage	9,998,794	9,118,419
Earnings:		
Passenger	$4,169,141 97	$4,107,752 17
Emigrant	230,529 49	151,135 51
Mails	158 287 50	193,610 14
Express matter	450,241 40	373,544 82
General freights	19,608,555 07	17,227,504 69
Miscellaneous	269,253 47	588,824 02
Gross earnings	$24,886,008 90	$22,642,371 35
Expenses:		
Conducting transp.	$5,664,140 57	$5,179,058 19
Motive power	4,223,580 53	3,535,352 22
Maintenance of cars	1,926,095 53	1,256,452 76
Maintenance of road	3,246,832 20	2,859,373 06
General expenses	379,706 33	415,210 84
Working expenses	$15,440,305 16	$13,245,447 07
Net earnings	$9,445,703 74	$9,396,924 28

In the following exhibit is shown separately the earnings, working expenses (including rentals paid) and net profits of the branch roads, owned and leased.

	1873.	1874.
Gross earnings	$2,577,527 22	$2,343,040 47
Working exp., &c.	2,560,097 10	2,231,969 76
Net profits	$17,430 12	$111,070 71

Statement showing the net earnings in each year, and the payments therefrom:

	1873.	1874.
Net earnings	$9,445,703 74	$9,396,924 28
Interest, etc., received, less interest paid		1,790,556 10
	$9,445,703 74	$11,187,480 38
Divihends 10 per cent per annum.	$5,918,140 00	$6,779,688 12
Interest paid, less interest, &c., received	367,070 81	
Harrisburg and Lancaster R. R. lease.	132,651 46	132,572 94
Annual paym't, State works purchase	460,000 00	460,000 00
State taxes	369,074 33	615,725 83
Total payments	$7,246,936 60	$7,987,986 89
Surplus income	$2,198,767 14	$3,199,493 49

The following statement shows the rate per mile of earnings, working expenses and profits, and also the ratio of expenses to gross earnings:

	1873.	1874.
Earnings (main line) p. m.	$62 814 19	$56,702 04
Earnings (branch line) p.m.	5,053 96	4,514 53
Earnings (main & br.) p.m.	28,637 52	25,817 98
Expenses (main) p. m.	$36,062 87	$30,763 90
Expenses (branch) p. m.	5,009 97	4,300 52
Expenses (m. & br.) p. m.	17,767 90	15,103 13
Profits (main) p. m.	$26,251 82	$25,988 14
Profits (branch) p. m	43 99	214 01
Profits (m. & br.) p. m.	10,869 62	10,714 85
Ratio of exp. (main) p. c.	57.87	54.25
Ratio of exp. (branch) p.c.	99.13	95.26
Ratio of exp. (m. & br.) p.c.	62.04	58.49

The equipment of the Pennsylvania Railroad and branches, at the close of the year 1874, consisted of 654 locomotives; 232 passenger, 64 emigrant, 60 baggage, 4 mail, 63 express, 13,363 freight, and 844 maintenance of way cars.

The financial condition of the company at the close of 1873 and 1874, respectively, is shown in the following summary statement:

	1873.	1874.
Capital stock	$68,144,475 00	$68,719,400 00
First mort. bonds, due 1880	4,970,000 00	4,970,000 00
Second mort. bonds, due 1875	4,865,840 00	4,835,840 00
General mortgage bonds, due 1910.	19,558,760 00	19,934,760 00
Consolidated mort. bonds, due 1905.	8,245,000 00	14,550,000 00
State lien ($7,500,000)	5,401,675 41	5,201,675 41
Mort. and ground rents	104,509 32	94,809 32
Bills payable and acceptances	4,611,797 24	4,140 000 00
Accounts payable.	11,658,791 12	7,267,055 38
Securities (U.Co. of N. J.) held by Co.	4,822,225 25	8,900,484 60

PHILADELPHIA AND ERIE RAILROAD.

The Philadelphia and Erie Railroad extends from Sunbury to Erie City, a distance of 287.51 miles. The following compares the statistical returns for the last two years:

	1873.	1874.
Passenger train miles	626,568	461,822
Freight train miles	2,136,827	1,950,662
Passengers through	3,787	680,163
Passengers local	773,486	
Freight (tons) through	446 480	466,670
Freight (tons) local	1,717,766	1,776,500
Earnings:		
Passenger	$632,620 30	$527.910 68
Freight	3,042,806 00	2,772,813 25
Express	41,189 10	38,102 69
Mails	30,748 41	41,640 87
Miscellaneous	94,703 39	126,451 79
Gross earnings	$3,842,067 20	$3,506,919 28
Expenses:		
Transportation	$872,256 99	$756.492 64
Motive power	962,781 49	689 553 16
Maintenance of cars	398,390 03	216,060 28
Maintenance of way	1,179,882 33	776,026 93
Working expenses	$3,413 310 84	$2,438,133 01
Net earnings	$428,765 36	$1,068,786 27
Gross earnings per mile of road	$13,340 51	$12,176 80
Working expenses per mile of road	11,868 22	8,480 17
Net earnings per mile of road	1,472 29	3.717 38
Expenses to earnings	88.84 p. c.	69.52 p. c.

The equipment of the Philadelphia and Erie Railroad, at the close of the year 1874, consisted of 154 locomotives; 47 passenger, 6 emigrant, 15 baggage, 9 express, 3,389 freight, and 374 maintenance of way cars.

UNITED RAILROADS AND CANALS OF NEW JERSEY.

The company owning these roads are a consolidation of the Camden and Amboy, the New Jersey and the Philadelphia and Trenton Railroads, their branches and leased lines—in all 293 miles. The company also own the Delaware and Raritan canal, 61 miles. All are leased by the Pennsylvania Railroad Company, which assumed all the company's bonds and liabilities, and pay as rental to the stockholders 10 per cent per annum in quarterly instalments. Rolling stock furnished by lessees. The following are the statistics for the past two years of the—

UNITED RAILROADS OF NEW JERSEY.

	1873.	1874.
Passengers carried	8,003,043	7,837,317
Passengers carried one mile	167,263,599	165,486,897
General freight (tons)	2,438,242	1,756,054
Coal (tons)	415,940	1,521,474
Fuel and materials (tons)	197,395	190,424
Total freight tonnage	3,051,577	3,467,952
Earnings:		
Passenger	$4,660,122 37	$4,504,197 97
Freight	3,398,231 39	3,713,597 78
Express freight	271,865 20	270,251 03
Mails	47,511 07	67,121 14
Miscellaneous	137,009 90	144,801 44
Gross earnings	$8,576,739 93	$8,700,969 36
Expenses:

COMBINED ACCOUNTS OF RAILROADS AND CANAL.

The following gives the results of operations and the distribution of disbursements on account of the leased railroads and canals.

Earnings:	1873.	1874.
United Railroads of New Jersey	$8,516,739 93	$8,700,969 86
Delaware and Raritan Canal	1,590,100 12	1,320,519 23
Received from Belvidere Delaware Railroad Co	....	195,362 62
Received from investments United Railro'ds of New Jersey	....	239,614 80
Gross earnings	$10,106,840 05	$10,456,465 51
Expenses:		
United Railroads of New Jersey	$6,792,188 05	$6,330,033 42
Delaware and Raritan Canal	883,321 46	768,416 64
Total expenses	$7,675,509 51	$7,098,450 06
Net earnings	$2,431,330 54	$3,358,015 45
Interest on bonds	$1,168,570 24	$1,440,726 45
Dividends to stockholders	1,948,450 00	1,948,450 00
Total disbursements	$3,117,020 24	$3,389,176 45
Deficit	$685,689 70	$31,161 00

BELVIDERE DELAWARE DIVISION.

The Belvidere Delaware Division consists of the Belvidere Delaware Railroad 68 miles, and the Flemington Branch Railroad 12 miles—in all 80 miles.

	1873.	1874.
Passengers carried	397,153	414,480
Passenger mileage	6,751,601	6,937,450
Fuel and materials (tons) moved	26,753	16 675
Coal (tons) moved	1,224,528	1,311,696
General freight (tons) moved	193,292	145,582
Total tonnage	1,444,573	1,473,953
Earnings:		
Passenger	$195,220 62	$197.972 28
Mails	5,758 98	6,274 24
Expresses	3,974 07	4,123 70
Freights	938 228 30	1,001 502 33
Miscellaneous	5,040 79	5,775 45
Gross earnings	$1,148,222 76	$1,215,648 05
Expenses:		
Transportation	$248,956 40	$242,928 83
Motive power	210,289 27	183,614 78
Maintenance of cars	73,686 60	100,488 14
Maintenance of road	292,980 28	246,666 19
Working expenses	$825,912 95	$773,647 94
Net earnings	$322,310 11	$442,000 11

The total earnings of all the lines west of Pittsburgh, operated by the Pennsylvania Company, or controlled through other organizations in the interests of the Pennsylvania Railroad Company, for the year 1874, were $25,551,923 99; the expenses, (excluding rentals) $16,410,896 08—and the net earnings $9,141,027 91. Deducting rentals and interest, ($8,296,689 48,) the net profits were $844,338 43.

The gross earnings of all the lines east and west of Pittsburgh, for the year 1874, were $62,938,351 26; the expenses, (excluding rentals, interest, dividends, &c.,) $39,422,645 29—and the net earnings, $23,515,705 97.

Wooden Rails.

H. R. Mehrling, the superintendent of the Muncy Creek Railroad, running from Hall's station to Hughesville, Penn., is about to try the experiment of laying wooden rails on that portion of the road between Hughesville and Tivoli, or two miles beyond. For several miles above Hughesville the road has been graded ready for the track for some time.

With a view to testing the feasibility of wooden rails, Mr. Mehrling recently had seven hundred feet of track laid on a curve just beyond Muncy creek, and it has been found to answer the purpose much better than was anticipated. The rails are of sugar maple, seven by four inches, and about twelve feet in length. The ties are laid down in the ordinary way, notched, and the rails "let into them" about four inches. They are then keyed firmly with wooden wedges driven on the sides, which makes the track very solid and firm. The locomotive and heavy cars have passed over this track at different rates of speed, and it has been found to work admirably, and give every assurance of success.

The cost of laying wooden rails, manufactured out of this hard material—that becomes almost as solid as bone when seasoned—is $450 per mile. Iron costs $4000 per mile. No iron spikes are required, as the rails are secured with wooden wedges, and the cost of track laying is about the same as putting down iron.

These wooden tracks have been tried at different places in the country, and invariably been found to work well. The highest rate of speed for locomotives to pass over them with safety has been fixed at sixteen miles per hour, but even if this rate were reduced to twelve or ten miles, the saving in expense would more than compensate for the reduction in speed. It has also been shown by experiment that these wooden rails will last, ordinarily, from three to four years, which is another important item to be taken into consideration.

Cheap Passenger Trains.

Some time since a large number of the residents on the line of the Boston and Maine Railroad petitioned the Board of Railroad Commissioners to recommend that corporation to run cheap trains for working men between Boston and Reading. There is in Massachusetts a statute under which this class of trains is made compulsory, under certain conditions as to the number of tickets sold, cost of operating, etc., but this petition was to secure the influence only of the Board. In their report the Commissioners say:

In the matter of the petition of J. A. Grosvenor and 1480 others, asking the Board of Railroad Commissioners, for "counsel and aid as to the proper course to be pursued to obtain from the Boston and Maine Railroad a cheap train for workingmen between Boston and Reading."

A hearing on the foregoing petition was held at the office of the Board in Boston on the 10th day of July, 1875, at which both parties were represented, the petitioners by certain of their number and the Railroad Company by its President. The application at this time was not made for the establishment of a cheap morning and evening train under the provisions of chapter 348 of the acts of 1872, but for the intervention of the Board through the general recommendatory powers conferred upon it by sections 9 and 10 of chapter 372 of the acts of 1874, with a view to procuring for the petitioners a system of trains on the Boston and Maine road similar to those which have been run during the last three years on the Eastern Railroad.

The corporation objected to being called upon to furnish the desired accommodation at the present time upon the ground that its business, in common with that of most other railroad corporations was suffering under a temporary depression; that its profits barely sufficed for the payment of reasonable dividends to stockholders, and that the establishment of the trains petitioned for would tend to still further diminish them.

This objection would be entitled to great consideration were the running of trains of the character of those asked for a novel and untried experiment. This, however, is not the case. They have been in use on the Eastern Railroad for nearly three years and their success has exceeded all expectations. They were established on that road in compliance with a suggestion of this Board and with great doubts publicly expressed whether any real demand for them would be found to exist. They had been in operation less than one year when the financial troubles of 1873 came on, but the statistics of the corporation show, as appears in the last report of this Board (Sixth Annual Report pp. 26-7) that the number of passengers traveling in them increased 42 per cent. in 1874 over the number carried in 1873, or from 187,016 to 266,560. During the first seven months of the present year also, notwithstanding the general depression of the railroad business, the Board is further informed that the increase has been 7.8 per cent. over the similar months of last year, or from 129,810 to 139,930. Neither is there any evidence that this large increase in the travel on these particular trains represents simply a corresponding decrease of more remunerative travel on the regular trains of the Eastern road. On the contrary, during the present, as during the previous years, the returns from the stations served by the cheap trains show conclusively that the increase in the number of passengers on the regular trains is as large as it has ever been before. The returns indicate, therefore, that the cheap trains have called into existence a new and reliable description of travel which does not confine itself to them, for, while the increase of passengers on the workingmen's trains during seven months of this year has been 10,120, that on the regular trains from the same stations has been 12,784. The Board also understands that the running of the cheap trains has largely contributed to the settlement of the territory served by them, and in this way indirectly to the general receipts of the railroad company. Neither does the Eastern Railroad in any way profess to consider the running of those trains as a burden of which it would gladly be relieved; but, on the contrary, its officers freely acknowledge that the experiment has proved surprisingly successful, and for that reason, of their own option and without any request from the Board, they have extended the system to other portions of their line. A similar train has also voluntarily been placed on a portion of its line by the Old Colony Railroad Company in this State, and the Philadelphia and Reading Railroad Company in Pennsylvania.

As the Boston and Maine Railroad serves a thickly populated region directly contiguous to that served by the Eastern Railroad, the presumption is strong that the same results would follow the establishment of the trains petitioned for on the one road which have already followed them on the other. These trains on the Eastern Railroad are also run at rates of fare excessively low, twenty tickets, good for as many trips upon them, being sold for one dollar. This rate was originally fixed at the suggestion of this Board for the avowed object of testing the experiment at such rates of fare as would preclude all possible question as to its thoroughness. If it broke down it was not to be said that it was because it was not cheap enough. (Fourth annual report 1873, p. 42.) Even at these rates the trains have proved remunerative. The experiment having, however, been fully tested, the Board is not prepared to urge on other corporations rates equally low, and in recent cases has adopted the sale of fifteen tickets to the dollar, or an increase of twenty five per cent. on the Eastern Railroad rates. This the petitioners for such trains have all agreed to be a fair increase.

On general principles, therefore, and with a due regard to the interests of that company, this Board is unable to see any good ground on which it can decline to recommend to the Boston and Maine Corporation the establishment of the trains requested. The case for the petitioners, however, does not rest here. They appear throughout to this Board to have been remarkably reasonable in their requests and conciliatory in their demeanor to the corporation. They have asked as a favor far less than the existing law of the commonwealth entitles them to demand as a right. The statute of 1872 (chap. 348), which is still in force, makes it obligatory on all corporations owning railroads running out of Boston, on the application of not less than 200 persons, to put trains on their roads on terms far more onerous to the companies than those suggested by the petitioners. The Boston and Maine is one of these corporations, and the applicants exceed sixfold the number specified. The petioners have, however, throughout expressed the utmost unwillingness to enter into any hostilities with the corporation or to have recourse to the law; they have contented themselves with simply asking the friendly intervention of this Board to obtain for them less than the law allows, and less than what has proved remunerative to a neighboring road.

Under these circumstances the petitioners appear to have made out a case of the strongest character, calling for a distinct recommendation on the part of this Board. For that reason, and in pursuance of the provisions of section 9 of chapter 372 of the acts of 1874, the Board recommends the Boston and Maine Railroad corporation on and after the first of October next, to run trains on the road operated by them between Reading and Boston, reaching and leaving the latter city in the neighborhood of six o'clock in forenoon and afternoon—tickets good for single trips of any distance upon which shall be sold at the rate of fifteen for one dollar—such tickets to be good for trips on other trains run by the corporation.

C. F. Adams, Jr.,
A. D. Briggs,
F. M. Johnson,
} Railroad Commissioners.

Atlantic and Great Western Railroad.

THE REVISED OFFICIAL SCHEME OF ARRANGEMENT.

This measure to which we referred some weeks back, is now before the Proprietors, and the statement will be found in our advertising columns. It seems to be very complete. It is the joint production of the Committee of bondholders and of Mr. James McHenry, the two parties previously in opposition. This junction of forces is of the utmost importance to the company in this crisis of its affairs. Division meant defeat. Combination is equally indicative of success, and success we have no doubt will attend the combined movement now on foot. The principles on which the revised scheme is based are thus stated:

"1. That the nominal par value and priorities of the existing securities be maintained; and that the annual charges shall be within the net revenues of the company.

"That the administration of the company be placed in the hands of a Committee of Directors resident in London, so that the Proprietors shall at all times have full knowledge of the progress of the revenues and the actual position of the Railway.

"3. That the election of Directors shall be at the disposal of the first and second mortgage bondholders through trustees holding the shares for that purpose.

"4. That the right of foreclosure be suspended for ten years."

Relieved from the danger of absolute forfeiture by the Dutch bondholders, supplied with the comparatively small means necessary for valuable improvements, such as the change of gauge, and one or two other pressing matters, the Atlantic and Great Western will soon exhibit its powers of traffic recovery, and indeed we have no doubt that under the new condition of things, and with a revival of trade in America, which may be looked for, the Atlantic and Great Western will rapidly

show its heels to the "Bears," and achieve a large measure of prosperity. Lines in that part of the world recover very quickly from depression, and amply repay the provision of full equipments and suitable appliances for traffic conveyance. There is no question that the line itself is a good one, and worth saving from destruction. All the bondholders and shareholders should at once record their approval of the scheme in the form prescribed.

The prior lien securities to be created as a first charge over the whole property in order to pay off the Ohio (Dutch) bonds, due it seems October 1st, 1876, to narrow gauge the line, &c., &c., are to be for not more than 7,000,000 dollars, and bearing interest at 6 per cent, the charge will be only 420,000 dollars, or £84,000 a year. There can be no difficulty in issuing such securities as these.—*Herapath.*

South Mountain and Boston Railroad.

A company under the name of the South Mountain and Boston Railroad Company of New York has been recently organized under the General Railroad law of this State, and the necessary papers have been executed and filed. The directors are: William H. Bell, President Pennsylvania Division of the South Mountain and Boston Railroad; J. G. Heilman, Secretary of the same; Isaac Wildrick, Treasurer of New Jersey Division; Marshal Hunt, Secretary, and Jacob Van Horn, Aaron A. Barton and John Bunnell, Directors in the same; C. A. Wortendyke, President New Jersey Midland Railroad; Daniel Thompson, President Middletown and Crawford Railroad; John C. Westbrook, E. Wilson, and F. R. Trill, of Pennsylvania and Thaddeus Hait, of Modena, N. Y. The following officers have been appointed: President, William H. Bell, of Jamestown, Penn.; Vice President, Aaron A. Barton, Hainesburg, N. J. This road will run from Pine Bush, N. Y., to the Pough keepsie bridge, and it is said that it will be completed at an early day.

☞ The Pennsylvania Railroad Company has issued a new order requiring the conductors to wear satchels, in which all the company's property in possession of the conductor is to be carried about while he is on duty. The satchel is suspended on the right hip, over the clothing, by a broad band passing over the left shoulder. Accompanying the satchel are very explicit orders, one of which is that all the tickets taken up are to be dropped through an aperture just large enough to admit them into a compartment which is locked, and the key kept at each end of the road to unlock it. It is understood, also, that the conductors will be required to wear a uniform in which there are not any pockets whatever.

☞ On application of Mr. Robert Callahan and other creditors of the Southern Maryland Railroad, receivers have been appointed by the Circuit Court of Prince George's county. The receivers are Messrs. Robert C. Coombs, of St. Mary's, and Richard B. B. Chew, of Prince George's county.

☞ Superintendent H. A. G. Pomeroy, of the New York and New England Railroad, has resigned, and Mr. Charles P. Clark one of the Trustees of the road, has been temporarily appointed as his successor.

☞ The Canada Central Railway Extension to Pembroke has been commenced, and will be completed by January next.

Intercolonial Railway.

A Halifax (N. S.) paper states, on authority which it believes to be reliable, that before the present year closes the whole track will be laid, and cars will run from Montreal to Halifax. From Riviere du Loup the line has for some months been open to Ste. Favie, 85 miles. From the latter point track laying has been proceeding at the rate of about 5 miles a week. The track will all be laid by the middle of September. Two large bridges across the Metapedia are completed, and the track will be laid this month, and the entire line will be open for regular trains by the end of October, though some ballasting will remain to be finished next spring. The bridging on the entire line is very heavy. It has been very difficult and costly. The whole of the work throughout the line is heavy, averaging considerably more per mile than that on any other railway in Canada. All the masonry is of the very best character and the bridges of iron. The rails are all of steel. The rolling stock and station buildings are ample for a considerable traffic. It is claimed that this is the best built railway on the continent of America. Its cost, when finished, will be about £8,500 sterling, or $42,000 per mile.

☞ Riehle Bros. (Phila.) state that notwithstanding the dull trade, they have turned out more Railroad Track Scales and Testing Machines this year than in any previous year. Their last month's sales amounted to more than at any time since they were in business. Railroad authorities will do well to examine the new "Self Adjusting" Track Scale made by this firm before purchasing elsewhere. The Chief Engineer of the Philadelphia and Reading R. R. Co. recommends them for their "accuracy and soundness of construction," and they are endorsed by other practical men.

☞ The report of Gen. Anderson, Receiver of the Chicago, Danville and Vincennes Railroad, shows the bonded indebtedness of the road to be $6,000,000, the floating indebtedness $1,732,845, and the actual cash floating indebtedness, due and unpaid July 31, 1875, $738,149. The length of the road now operated is 150 miles. The receiver accompanies his report with several recommendations, which, if observed, he believes will enhance the credit and prosperity of the corporation.

☞ The St. Louis, Kansas City and Northern Railroad Co. has leased the road running from Ottumwa, Iowa, to the Missouri State line, a distance of forty three miles, owned by the Cedar Rapids and Missouri River Railroad Company, for 28 years at an annual rental of $22,500. The same road has also leased a branch running from Centralia, Mo., to Columbia, a distance of 23 miles, at an annual rental of $7,000.

☞ In a recent suit by a Montreal bank against a New York house, Judge Curtis, of the Superior Court of New York, has decided that a telegraphic dispatch agreeing to accept a draft is the equivalent of a written acceptance. The sanction of law is thus given to what has hitherto been a matter of honor.

☞ A motion was made before Judge Westbrook on the 10th inst., and denied, to set aside the election of Directors of the Erie Railway Company held last month.

Centennial Cars.

The Cumberland Valley Railroad Company are about having constructed a number of passenger cars, in which seats will be numbered, and overhead there will be a receptacle provided with lock and key for the baggage of the seat holder. The excursionist buys a ticket, and with it he receives a key with a check attached, and on the check he finds a number stamped corresponding with the number of the seat to which he is entitled. He will find the key to unlock the closet over his seat, but not the closet over any other seat. When he reaches Philadelphia he can lock up as much baggage as he chooses and sally forth. The train will be run upon a siding convenient to the centennial grounds. At any time the excursionist desires he can walk over to the train, unlock his closet and take out or put in anything he chooses. He may even put his lunch there. At night on the way home the check and key are taken up with the return ticket.

☞ At Detroit, Mich., are situated the immense car works of the Pullman Palace Car Company. They cover an area of several acres, and in them nearly six hundred workmen are employed. Everything appertaining to the construction of the cars of the company with the exception of the iron casting, is done in the shops, and from them the completed cars for use in this country are turned out, whilst those that are to be used in Europe are shipped in sections in charge of gangs of workmen to their place of destination.

☞ In order to complete the Texas connection of the New Orleans and Pacific as soon as possible, it is proposed to begin construction at Alexandria, and build from that point northwest to Marshall, Texas, where connection will be made with the Texas and Pacific. The distance from Alexandria to Marshall is about 150 miles. The river route of about 250 miles can then be used until the railroad can be completed from New Orleans to Alexandria.

☞ The Oxford Press says that Mr. Donahue, contractor for that portion of the Columbia (Pa.) and Port Deposit (Md.) Railroad between Washington borough and Turkey Hill, has received orders to put on all the men he can work, so as to finish up the ballasting as soon as possible. Similar orders have been issued to the other contractors, and it is supposed the entire road will be ready for the iron in two months from the present time."

☞ The officers of the Parker and Karn's City Railroad Company, recently elected, are: S. D. Karns, President; F. Parker, Vice President; W. C. Mobley, Secretary, Treasurer and Superintendent. The total cost of road and equipments has been $278,056 83. The gross earnings from July 31, 1874, to same date 1875, were $108,630 58; operating expenses, $49,472 80.

☞ Surveys for the proposed railroads from West Waterville and Lewiston to Augusta, Me., will be commenced simultaneously on the 23d inst. by competent engineers.

☞ Mr. Walter Shanley, the eminent Engineer, has accepted a position of consulting engineer on the Georgian Bay Branch of the Canadian Pacific Railway and Canada Central Extension.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, August 14, 1875.

Financial and Commercial Affairs.

Some additional failures, chiefly in the mercantile line, have been reported during the week; but they were not of much importance in their bearing on the course of values, and they did not disturb the ease—so long maintained—in the Money line, to all strictly responsible borrowers. Advices from Europe were of a more confident tenor. In the local market, Money has been in very liberal supply. Rates on call have been quoted steady at from 1¼@3 per cent; and in the discount line from 4@7 per cent per annum. On this basis lenders were prompt in responding to the calls of strictly first class borrowers, especially in a controllable form. The City banks enlarged their line of loans and discounts, while reporting a gain of specie, and deposits, and a reduction of the legal tender reserve. The U. S. Sub Treasury augmented its coin and currency balances as the result of the week's business. Reports from the West and Southwest toward the close were of a more hopeful character, and tended to strengthen the belief that the damage to the crops by the recent storms and floods has been far less serious than was apprehended a week ago. The City Banks last week reduced their reserve of legal tender notes $1,932,700, while enlarging their deposit item $396,700, and their specie average $597,200. They report an addition of $1,526,600, to the loans and discounts, and a falling off of $54,300 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $60,220,880,

against $59,185 501 the preceding week; and a coin board of $36,930,369, against $35,971,723 on the previous return. The City bank exchanges in currency during the week, were $364,950,426, or a daily average of $60,825,071. The customs revenue of the port, during the week, was $2,802,000. The City banks reported their average of gold last week at $16,834,400, and their green back average at $73,601,800. Their deposits stood at $251,462,800. The loan item was $280,434,300. The circulation was $18,521,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $27,070,000.

The aggregate of the outstanding U. S. currency, of all denominations, August 1, was $416,456,124. The outstanding amount of legal tender notes is $374,755,109. The National bank circulation is now $348,937,939, including $2,599,000 of national gold bank notes.

On Tuesday, the cash balances of the Treasury Department at Washington were of Currency, $4,496,509; special deposit of legal tenders for the redemption of certificates of deposit, $65,480,000. Coin, $70,847,819. Coin certificates, $22,670,500.

The week's import entries of Foreign Merchandise at New York, were $4,786,292, and included of dry goods $2,022,635.

The income of the Government from internal revenues in the fiscal year, since July 1, 1875, has been about 12½ millions.

Gold has advanced, on a more confident speculative movement, though the export inquiry has been moderate, and the customs drain about an average one for the season. The extremes of the week have been 113@114 3/16, closing on Wednesday at 114, as against 112⅞ on Wednesday of the preceding week. The specie outflow last week was $1,123,918 against $230,591 the previous week. The imports of specie at this port since Jan. 1, have been $8,034,096, against $2 871,000 same time last year. The customs demand for Gold last week averaged $467,000. Foreign Exchange has been in fair demand at essentially unchanged rates. Bankers' sixty day bills on London closed on Wednesday at $4 86½@$4 87½; sight bills on London at $4 89@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,214,657. The week's imports of Dry Goods and general merchandise were to the specie value of $4,786,292 against $7,009,676 same week last year.

Government Securities have been more sought after on investment account, at advanced prices. The dealings have been checked by the meagre offerings of bonds; especially of the later issues.

U. S sixes of 1881 closed on Wednesday of this week at 121⅜@121⅞; U. S. Five-Twenties of 1864, at 116⅛@116¾; U. S. Five-Twenties of 1865 119⅜@119⅝; U. S. Five-Twenties of 1865, consolidated, 119⅜@119⅝; U. S. Five-Twenties of 1867, 120½@120¾; U. S. Five-Twenties of 1868, 121@121½; U. S. Ten-forties at 117¾@118; U. S. Fives of 1881, (Funding Loan) 116⅜@117; Six per cent. currency Sixes, 122¼@122½.

State and Railway bonds have been very moderately dealt in at generally unchanged rates. And in the line of Railway and Miscellaneous share property, business has been much less active, especially toward the close, when the transactions dwindled down to a very limited aggregate at irregular prices, though the fluctuations were not important.

An active movement has been noted in most kinds of produce, especially so in Flour, Wheat, Corn, Pork, and Cotton, at variable rates, closing more steadily. The inquiry for Breadstuffs has been largely on export account. Lard has also been freely sought after for shipment. And toward the close, export buyers were operating moderately in Cotton at the current rates. General merchandise has been in fair request and without decided changes as to values. Groceries closed tamely. Hides, Leather, Boots and Shoes, Hardware and Dry Goods, in more demand. The Metal trade has been generally slow. Some 5,000 tons American Pig Iron have been taken for water pipe purposes; and 3,500 tons Steel Rails, on p. t. Otherwise, business dull.. Eglinton Pig Iron quoted here at $29@$30 50; Glengarnock, $31@$32; Coltness, $31@$32; No. 1 American Pig at $26@$27; No. 2 do. at $24@$26; Forge, $22@$24; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $26@$27. Wrought Scrap, $30@$32. Ocean freights have been more active, especially for Grain and Petroleum, closing at steadier rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Northern Pacific Railroad.

The decree made by Judge Shipman, in the United States Circuit Court, in the suit of Jay Cooke et al. vs. The Northern Pacific Railroad Company, empowering United States Marshal Fiske and United States Commissioner White to sell the road for the benefit of the bondholders, was amended on the 10th inst. by Judge Shipman. Under the original decree, the land grants to the company and the land granted and conveyed to it could be sold separate from the road proper; but under the amended decree the land grants can go, as franchises, with the road, and the sale of the lands granted and conveyed to the company can be postponed for the present. The following provision in the original decree in relation to the application of the proceeds of the sale has been stricken out: "To the payment all sums due for moneys borrowed to pay interest upon the mortgage debt, or to pay for labor and materials, for the repayment of which any former or present officer of the company, or any other person at his or their instance, is security, not to exceed $100,000 in the aggregate, to be paid pro rata."

☞ The Monetary Times says that Hon. A. B. Foster was recently in Renfrew receiving the reports of the engineers on the Canada Pacific Railway, and arranging matters for beginning operations on the extension to Pembroke.

☞ C. H. Allen has been appointed receiver of the Paducah and Memphis Railroad, with W. H. Smithers as Company receiver, who are required to give bonds of $50,000.

☞ The People's Railway, running from the Vine street ferry to Fairmount Park, on Callowhill street, Philadelphia, was formally opened on the 30th ult.

☞ It is proposed to extend the Parker and Karns City Narrow-gauge Railroad to St. Petersburg, in Clarion county, Penn.

James River and Kanawha Canal.

Hon. A. H. H. Stuart, of Staunton, Va., has written an exhaustive paper, in which he argues in favor of the immediate extension of the canal from Buchanan to Clifton Forge. He contends, upon data furnished by experts familiar with the route, as well as with the work already completed, that the project is feasible, and ought to be carried out. He enlarges upon the benefit which will accrue not only to Richmond, Lynchburg, Norfolk and Petersburg, but also to the credit of the State, from the enhanced value of the stock of the James River and Kanawha canal and the Chesapeake and Ohio railroad, in both of which the State is heavily interested.

Illinois Central Railroad.

During the month of July, 1875, 460.67 acres of land were sold for $3,662 46. The cash collected on land contracts was $16,111 68. The traffic on the Main Line in Illinois was $516,329 61, against $508,863 03 in July, 1874. The traffic on the Iowa lines, (leased at 35 per cent of gross receipts) was $186,454, against $118,591 26 in July, 1874

☞ The following named have been elected Directors of the Central Railroad Company in San Francisco for the ensuing year: Reuben Morton (President), A. W. Bowman (Vice President), A. J. Gunnison (Treasurer), A. A. Cohen, George H. Howard, Thomas Hayes, Horace Davis, Calvin Paige, Michael Reese and N. P. Arnot, Jr. (Secretary.)

☞ W. K. Muir, General Superintendent of the Detroit and Milwaukee Railroad, has resigned, to take the general management of the Canada Southern Railroad. He will be succeeded by S. R. Calloway.

☞ The Secretary of the Interior has accepted that portion of the Texas and Pacific Railroad between Marshall and the boundary line of Texas and Louisiana; also from Marshall to Texarcana, and from Sherman to Brookston.

☞ The first rail on the Lafayette and Muncie division of the Lafayette, Bloomington and Muncie Railroad was laid on the 6th inst. at Muncie, Indiana, and connection made with the Cleveland, Columbus, Cincinnati and Indianapolis Railroad.

☞ The sale of the Rockford, Rock Island and St. Louis Railroad, which was to have taken place on the 10th, has been postponed to the 16th inst.

☞ The Levis and Quebec Railway will at once be extended to St. Joseph de la Beauce. The rails for this additional fifteen miles have been shipped from England.

☞ The early construction of a narrow gauge railroad between Atoka, Choctaw Nation, and Hot Springs, Arkansas, is contemplated.

☞ The report of the President of the Texas and Pacific Railroad says the work will be resumed in September.

☞ The street railway of Chillicothe, Ohio, is 1⅔ miles long, cost $12,000, and is profitable and popular.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

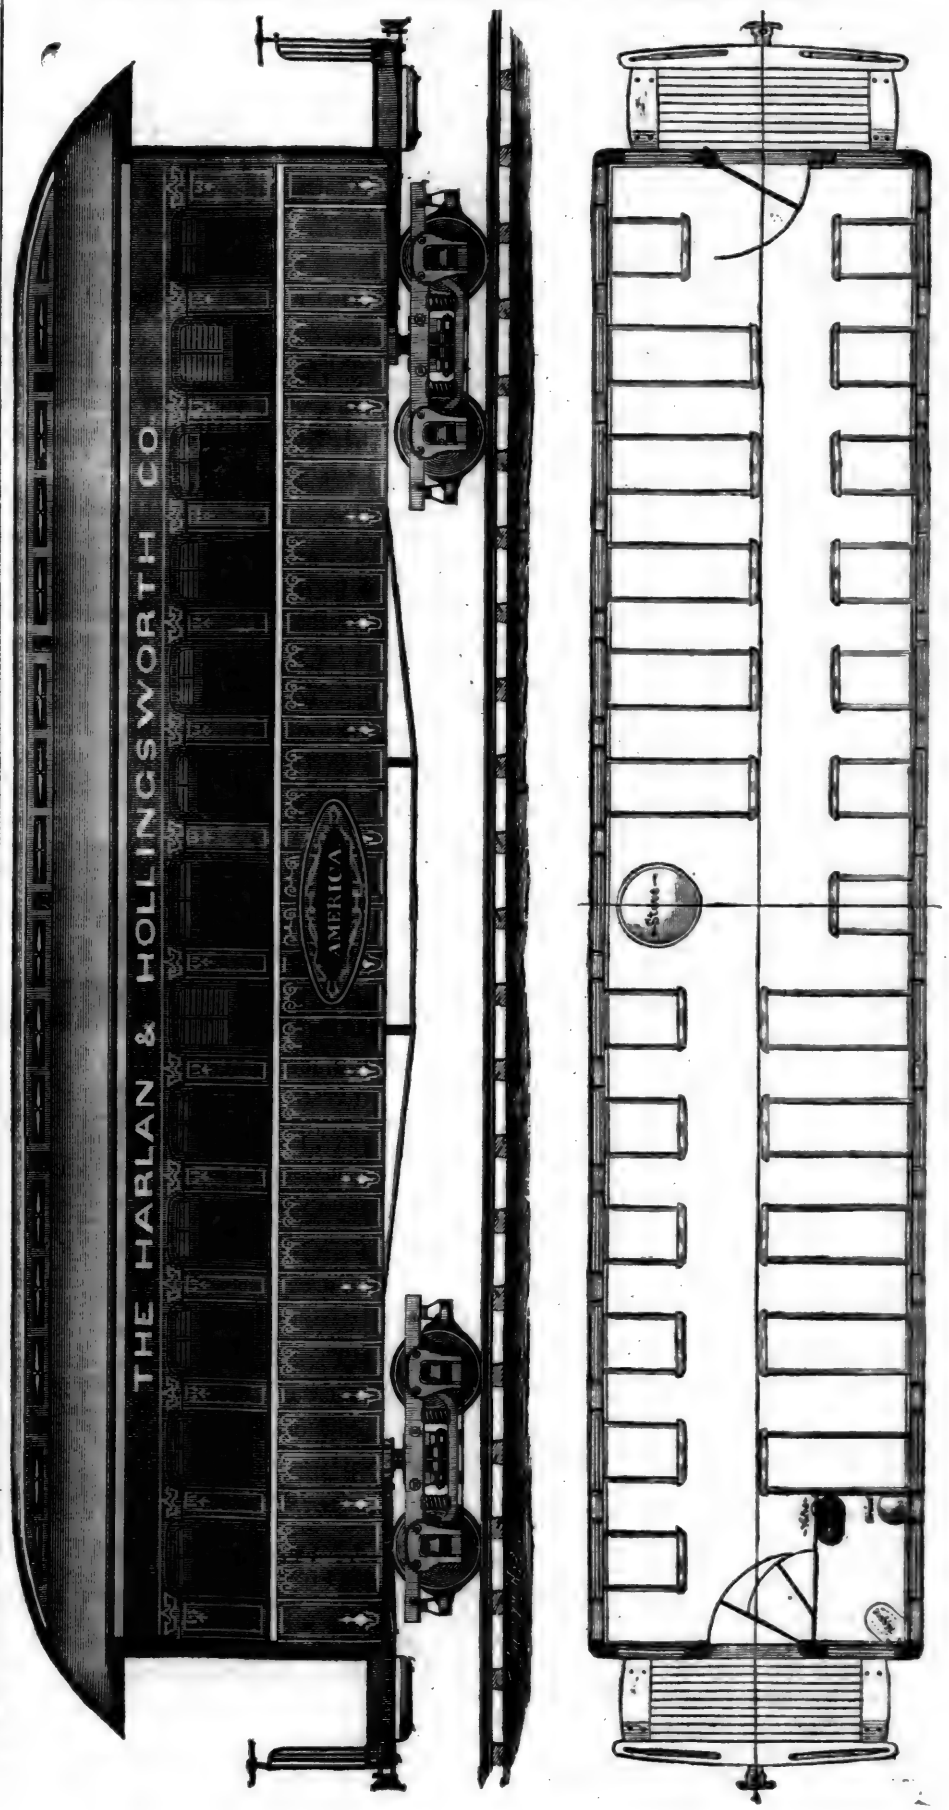
Narrow Gauge Railways.

A writer in Van Nostrand's Magazine says that the best answer to Dr. Pole's assertions respecting the policy adopted by the Indian Government regarding their new lines is to be found in the every day experience now being gained with the narrow gauge railways, and then adds:

Everywhere almost we find such lines spreading. In the United States upwards of two thousand miles of such lines have already been laid, while in Canada, South America and our Australian colonies narrow gauge railways have taken deep root. Nearer home, too, we find such lines constructed and in course of construction, in France, Germany, Italy, Russia, Norway and Switzerland, and everywhere we hear good accounts of the results obtained from them. In a paper on the Rigi Railway, read before the Institution of Civil Engineers in 1873, Dr. Pole remarked, that although the railway in question "is in every respect a special and exceptional line, and intended for the lightest character of traffic, the Swiss, with their usual good practical sense, have avoided the foolish fallacy of narrowing the gauge;" it may, however, interest Dr. Pole to know that the Swiss, "with their usual good practical sense," are not only now building metre gauge lines, but are also contemplating the introduction of narrow gauge tramways. The fact is that with very few exceptions narrow gauge lines have one great source of attraction denied to many of their more pretentious brethren. They pay. It was at one time considered that it would be impossible for narrow gauge lines to provide the engine power necessary for carrying heavy loads or for working steep gradients. This, however, has now long been proved to be entirely a fallacy, the Fairlie system affording the means of placing, on even the narrowest lines, really powerful locomotives. Thus the Festiniog Railway of 1 foot 11½ inch gauge has now a Fairlie engine with 730 square feet of heating surface, while Mr. Fairlie has built engines with 829 square feet of surface for the Patillos Railway, Peru, a line of 2 feet 6 inch gauge, and others with 1,325 square feet of surface for the 3 feet 6 inch Livny Railway, Russia.

Narrow-Gauge Passenger Car.

The engravings represent an elevation and plan of a first class narrow gauge passenger car built at the works of The Harlan & Hollingsworth Company, Wilmington, Del. The dimensions do not differ essentially from those adopted by other builders, and are as follows:



Length of car in frame, 35 feet; width in frame, 7 ft. 6 in.; extreme width over mouldings, 7 ft. 11 in.; height inside from floor to head lining in centre of aisle, 7 ft. 9 in. The total weight of car, finished, is 17,000 lbs.

The inside work is of hard wood throughout, being a combination of black walnut and ash, with veneered panels between and over windows; hard woods ash and blinds, engraved ornamental glass and patent ventilators in sides of raised roof, decorated head lining, the under side of raised roof tastefully ornamented with carved hard wood brackets; Buntin patent iron seat frames with plated arm caps and carved revolving backs upholsted and covered with plush; two centre lamps in roof over aisle, and one bracket lamp to light saloon; one stove with box for coal or wood, in centre of car.

The outside of the car paneled, and the roof covered with best quality of tin. First class trucks with double elliptic cast steel springs under swinging bolsters, and steel spiral springs on equalizing bars; 24-inch best passenger car wheels on wrought iron hammered axles.

NARROW GAUGE PASSENGER CAR.

BUILT BY THE HARLAN & HOLLINGSWORTH COMPANY, OF WILMINGTON, DELAWARE.

The Coal Trade.

The production for the week ending on the 31st ultimo, as stated by the Pottsville *Miners' Journal*, was 635,440 tons, and for the year 9,004,544 tons, against 10,815,087 tons to corresponding date last year, a decrease of 1,810,543 tons. The bituminous tonnage for the week was 87,165 tons, and for the year 2,558,860 tons, making a total of all kinds for the week of 722,605 and for the year of 11,063,404 tons, against 12,628,962 tons to same time last year, a decrease of 1,565,558 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 107,486 tons, and for the year 2,247,310 tons, of which 1,899,120 was coal and 361,000 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 7th inst. there were receipts of 85,000 tons of coal, shipments of 80,000 tons, leaving 55,000 tons on hand. The receipts at Perth Amboy for the week ending July 31 were 14,459 tons; total to date, 50,146 tons; shipments for same week, 13,795 tons; shipments to date, 38,875 tons; on hand, 11,202 tons.

Nevada County Narrow Gauge Railroad.

Working forces are distributed all along the unfinished portion of the line, and the most satisfactory progress is now making and will continue to be made until the entire line is finished. With the exception of the Bear river and Greenhorn creek bridges, and the tunnel between those streams, the road is graded from Colfax to the lower end of the Barker ranch, and the graders are at work as far up as the Buena Vista ranch. An advance party has also been set to work at Kress's place, the summit, three miles from town, where some tolerably heavy but easy cutting is to be done. This is all on the Turton & Knox contract, and from the rapidity with which they are driving their work, it will be but a few weeks until they finish their portion to Union Hill. Cloonan, who has a mile each way from Grass Valley to grade, is driving along steadily, and has his work toward Union Hill well advanced. The contract for grading from the Idaho mine to the Town Talk tunnel has been let, and ground was broken yesterday. The work is light and will soon be completed. Good headway is being made on the Town Talk tunnel, which is through ground of easy excavation. Beyond the tunnel, to Nevada City, contracts have been let to Thomas Hughes and W. J. Organ, both of whom have commenced operation, and will have the track ready for the ties by the time the track-laying force can reach them. A large number of ties have been sawed and a portion delivered upon the track. The bridge work is going on steadily, and both piers of that over Bear river have been erected; but at present it looks as if the road will be graded before the bridges are completed. The engineers pronounce the general progress of the work as very satisfactory, and have entire confidence that the road will be opened within contract time.—*Grass Valley Union*, July 31.

☞ The new wharf of the Pacific Mail Steamship Company is almost completed at Pier No. 43 North River. It was constructed by the Department of Docks, while the immense shops and offices connected with it were built by Messrs. Rowland and Ross, at the company's expense. The improvements were much needed, on account of the dilapidated condition of the old wharf at Pier No. 42, which had become unsuited to the demands of the company. As soon as the new offices are completed, the old offices of the company in Wall street will be abandoned, and its business concentrated at the new pier under the general superintendence of Mr. H. J. Bullay.

Railway to Mexico.

We are now sanguine of a speedy connection with the land of Montezumas. The distance from St. Louis to the Rio Grande is 1080 miles, and but 285 miles of this remain to be built. From the Rio Grande to the City of Mexico is a distance of over 900 miles, part of which is in progress of construction. The hope is indulged that within five years cars will leave St. Louis, cross Texas and the Rio Grande, enter the country of the Aztecs and roll to the Capital of the Mexican Republic. The resources of Mexico are in the infancy of their development, and this continental railway will afford a long needed outlet. The mines of Utah and Nevada are said to be insignificant compared with those in the States of Sonora nda Chihuahua. All kinds of tropical fruits flourish Coffee, sugar, cotton and tobacco will form the chief items of commerce. The coffee grown in the region of Colima is pronounced superior to Mocha. As the northern terminus of this tropical highway, St. Louis will reap a rich harvest, and her merchants will no doubt take an active interest in the completion of the remaining links.—*St. Louis Times.*

☞ The New Orleans and Mobile Railroad Company has recently purchased 10,000 barrels of creosote oil, to be used for the protection of their timbers and piling against the attacks of the marine worm, the *teredo navalis*. The *teredo* is so destructive to timber on the South Atlantic and Gulf coasts that piling is frequently rendered entirely worthless in the space of eighteen months.

☞ Count Michaeloff, the celebrated engineer, and M. Zviaginzeff, of St. Petersburg, Russia, are in this country for the purpose of inspecting canals and railways.

☞ The Collector at New York has been notified that machinery, composed in part of steel, shall be chargeable with duty at 45 per cent ad valorem, as a manufacture in part of steel.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

S. M. Brigham, KINGSTON, N. Y — **J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.**

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

Pacific Mail Steamship.

The Pacific Mail Steamship "City of Sydney" was launched from the yard of the Delaware River Iron Shipbuilding and Engine Works at Chester, Penn., on the 5th inst. The following description of the vessel is from the Philadelphia *Ledger*:

The steamship City of Sydney is of 3500 tons burthen, Custom House register, and is the "sister" of the steamships City of San Francisco and City of New York, previously built for the Pacific Mail Company at the same yard. She will be bark-rigged, and will spread 17,000 square feet of canvass, will carry ten metallic life boats and ten life rafts, and will be fitted with first class accommodations in all respects. She will be able to carry 153 persons in the cabin and 1200 in the steerage.

Her machinery will consist of two compound engines with a surface condenser and six boilers, and with separate engines for working the air and circulating pumps, and the feed and blige pumps. The boilers will be cylindrical, 13¼ feet in diameter by 10½ feet long, with a working pressure of 90 pounds to the square inch. Each boiler will have three furnaces, and the entire heating surface will be 12,000 square feet. The propeller will be of the Hirsch patent, with a diameter of 20 feet and a pitch of 25 feet. The shaft will be 120 feet long by 16 inches in diameter. It is calculated that the maximum performance of the engines will be from 65 to 70 revolutions per minute, and that in good weather the vessel will make a speed of from 15 to 16 knots an hour.

The vessel will be divided by seven bulkheads into eight water tight compartments, as a precaution against sinking in consequence of collision or other accident. Her machinery, like that of her sister ship, the City of New York, will be constructed in the yard at Chester. The machinery of the steamship City of San Francisco is being constructed at the Morgan Iron Works, in New York, and the vessel will be ready for sea in about a month. The steamship City of New York will be ready for sea in about two months.

It is stated that when the Pacific Mail Steamship Company at first intended to have these vessels constructed, there was a probability that they would be built abroad. Estimates for their construction were invited from several of the principal American ships builders, and the lowest of their estimates largely exceeded the lowest foreign estimate. Mr. Roach thereupon offered to build the vessels at Chester for the same price as the lowest foreign bid, and the contract was awarded to him. On the three vessels his price was $195,000 less than that of any other American builder. This shows that the best iron steamships can be constructed as cheaply and rapidly in this country as abroad.

The Messrs. Roach have now from 1200 to 1300 men employed in their yard. They are engaged in rebuilding the Monitor Miantonomah for the U. S. Government.

☞ The new railroad from New York to Philadelphia is progressing rapidly. The line has been graded from Jenkintown station, on the North Pennsylvania Railroad, to the Delaware River, excepting the bridges over the Pennypack and Neshaming and the small culverts. It is calculated that the road will be completed to Bound Brook early next spring.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Railway Bridges Across Navigable Streams a Necessity of Commerce.

RAILWAYS ARE HIGHWAYS OF COMMERCE AS WELL AS RIVERS.—EXTREME CAUTION MUST BE USED BY MASTERS OF VESSELS WHEN PASSING THE PIERS.—DECISION OF THE U. S. SUPREME COURT.

In the case of the steamboat Mollie Mohler, her boats, &c., The Northwestern Union Packet Company, claimant, and Peyton S. Davidson and Joseph A. Shepherd, stipulator, appellants, vs. The Home Insurance Company of New York—Appeal from the Circuit Court for the Eastern District of Wisconsin—Mr. Justice Davis delivered the opinion of the Court.

The appellee was the insurer of a cargo of wheat shipped on a barge appurtenant to the steamer Mollie Mohler, on the 12th of May, 1866, at Mankato, on the Minnesota River, in the State of Minnesota, and destined to St. Paul on the Mississippi. The barge was wrecked by collision with a bridge pier just above the city of St. Paul, and the cargo became a total loss, which the Insurance Company paid, and filed its libel in the District Court to recover the amount under its right of subrogation.

It is insisted that the loss occurred through a peril of navigation, which was one of the exceptions contained in the bill of lading, and that, therefore, the carrier was excused from a delivery of the wheat. Both the lower courts held that this excuse was not justified by the evidence, and that the officers of the steamer were guilty of a wrongful act in attempting to pass through the piers of the bridge in the state of the weather at the time.

The burden of proof lies on the carrier, and nothing short of clear proof, leaving no reasonable doubt for controversy, should be permitted to discharge him from duties which the law has annexed to his employment. This burden has been assumed by the carrier, and the case was heard on the testimony introduced by the respondents, the libellant having called no witnesses. The answer sets up that the accident occurred through a sudden and unexpected gust of wind, which overtook the boat as she was about passing through the piers, and that she is, therefore, not answerable for the consequences of the collision. It may be true that the boat would have safely made the passage if the wind had not driven her against the pier; but this does not solve the difficulty. The inquiry is whether the passage should have been undertaken at all in the general bent of the weather on that day. If the carrier had sufficient warning to put him on his guard, and chose to neglect it and take the chances of a venture, when common prudence told him there was danger in it, he cannot escape on the ground that the particular peril which finally overcame him was a sudden gust of wind. The general doctrine that a carrier is not answerable for goods lost by tempest has no application to such a case. It is undeniable that the weather was boisterous during the afterpart of the day on which the loss occurred, and that the boat laid up at Mendota, near the mouth of the Minnesota River, on account of the wind. After sundown she proceeded on her voyage, the wind having "abated," the master says, or, according to the testimony of the mate, having "calmed down some."

There is a singular discrepancy in the testimony of the two officers as to the condition of the wind after the boat left Mendota. The master swears there was no wind to effect the boat until the Julia, an ascending boat, got near the Mohler, while the mate says the wind rose after the Mohler left Mendota, and blew hard by spells all the way down. They also disagree as to the point where the Julia was met. The master says it was not more than a quarter of a mile above the piers, while the mate fixes the distance at one and a half miles. Both had equal opportunities of judging, and there is nothing in the record affecting the credibility of either. In such a case the defence fails, for the respondents have no right to ask the Court to prefer the testimony of one witness over the other when there is nothing in the record to show that one is more reliable than the other. Apart from this there is enough in the evidence to establish satisfactorily that the weather had not cleared, nor the direction of the wind changed, and that the boat should either not have left her moorings at Mendota or have landed at some proper point before the piers were reached. It won't do to say that the wind had moderated, and that the officers of the boat thought they could get through without trouble. They had no right to think so; for on such a day squalls were likely to arise at any moment, and it was bad seamanship, being forewarned, to attempt to go through such a dangerous place in the river. It is difficult at all times to make the passage of these piers, and especially so in sudden gusts of wind blowing from the south which was the case on that day, and this difficulty is enhanced in the night time, and when the current, by reason of high water, is increased. Any prudent officer would have stopped until the weather became calm. At any rate it was the duty of the master of the boat in question to have done so, and, failing in his duty, he is chargeable with the consequences of his negligence, which in this case were lamentable, for not only was the property in his charge destroyed, but a human life lost.

The officers of the steamers plying the Western waters must be held to the full measure of responsibility in navigating streams where bridges are built across them. These bridges, supported by piers, of necessity increase the dangers of navigation, and river men, instead of recognizing them as lawful structures built in the interest of commerce, seem to regard them as obstructions to it, and apparently act on the belief that frequent accidents will cause their removal. There is no foundation for this belief. Instead of

the present bridges being abandoned, more will be constructed. The changed condition of the country, produced by the building of railroads, has caused the great inland waters to be spanned by bridges. These bridges are to a certain extent impediments in the way of navigation, but railways are highways of commerce as well as rivers, and would fail of accomplishing one of the main objects for which they were created—the rapid transit of persons and property—if rivers could not be bridged. It is the interest as well as the duty of all persons engaged in business on the water routes of transportation to conform to this necessity of commerce. If they do this and recognize railroad bridges as an accomplished fact in the history of the country, there will be less loss of life and property and fewer complaints of the difficulties of navigation at the places where these bridges are built. If they pursue a different and contrary course it rests with the courts of the country, in proper case, to remind them of their legal responsibility. The decree of the Circuit Court is affirmed.

The United States and Brazil Mail.

The Postoffice Department has completed arrangements for mail service between Baltimore and Brazil and Rio Janeiro by the King line of steamers for the sea postages as compensation. The steamer King Richard will sail from Baltimore at 10 o'clock, Saturday, the 28th inst., and monthly thereafter, carrying the mails. The contract with the Garrison line expires September 1, and will not be renewed unless the line agree to transport mail for sea postages. They now receive $150,000 from the United States government and the same amount from the Brazilian government, making a subsidy of $300,000. The sea postage will not amount to $10 000 per annum.

Baltimore and Ohio Railroad.

The following is a comparative statement of the earnings and working expenses of the Main Stem of the Baltimore and Ohio Railroad for the years ending September 30, 1873 and 1874, including the Winchester and Potomac, Winchester and Strasburg, the Strasburg and Harrisonburg, the Washington County, and the Metropolitan Branch Railroads:

Earnings:	1873.	1874.
From passengers	$1,593,844 63	$1,518,522 68
" tonnage	10,658,999 15	10,175,432 87
Total	$12,252,843 78	$11,693,955 55
Expenses viz:		
General expenses	$104,130 33	$122,742 22
Losses by accidents	63,445 53	55,374 33
Expenses of transportation	2,380,864 24	2,291,900 77
Repairs railway	1,974,408 14	1,540,223 58
Repairs water stations	65,538 86	34,974 99
Repairs and construction of depots	138 738 36	140,759 75
Repairs bridges	259,953 89	245,822 24
Repairs telegraph line	29,772 67	38,913 13
Repairs stationary machinery	212,281 78	155,720 12
Watching cuts	50,412 80	57,654 37
Watching tunnels	4,528 00	6,334 25
Watching bridges	14,485 90	23,257 57
Pumping water	31,350 78	32,951 53
Repairs locomotives	659,091 63	598,384 30
Repairs pass. cars	141,641 50	167,391 26
Repairs burden cars	598,688 96	542,199 58
Cleaning engines and cars	131,984 47	131,874 30
Contingent expenses of the machinery department	8,168 37	8,282 45
Fuel	391,139 01	423,119 16
Preparing fuel and filling tenders	57,422 47	58,015 36
Total	$7,318,047 79	$6,675,895 26
Net earnings	$4,934,795 99	$5,018,060 29

The ratio of expenses to earnings in 1874 was 57.08, against 59.72 in 1873, a decrease of 2.64.

It is shown that the earnings of 1874, in comparison with the fiscal year 1873, have decreased $558,888 23, and the working expenses $642,152 53, making a comparative increase in the net profits of $83,264 30.

The sinking fund for the redemption of the city loan has increased to $1,647,753 20, showing a gain of $108,900.

Under the action of the sinking fund for the redemption of the sterling loan of 1895, £71,600 of bonds have been purchased in London; thus, at $4 84 per pound sterling, reducing the debt $346,544, and showing a gain during the fiscal year of £19,600, equivalent to $94,864.

The sum invested in the sinking fund for the redemption of the sterling loan which matures in 1902, amounts to £63,200, which, at $4 84 per pound sterling, reduces this debt $305,888. £24,000 per annum are appropriated for this sinking fund, which, with the interest accruing from its accumulations, will, it is expected, redeem and cancel these bonds prior to their maturity.

In January, 1874, £2,000,000 six per cent bonds, which will mature in 1910, were negotiated on very satisfactory terms by Messrs. J. S. Morgan & Co., in London. An accumulative sinking fund of £18,000 per annum will be applied half yearly, in the months of November and May, to purchase the bonds of the loan at the market price, if not above par. Otherwise the amount will be invested in securities for account of the sinking fund, which can only be applied in the redemption of these bonds. It is expected that this appropriation from the revenue annually, with the interest accruing thereon, will liquidate the entire loan prior to its maturity.

The entire mortgage indebtedness of the company September 30, 1874, (including the above loan of £2,000,000) in currency and sterling was $29,061,564 80. The surplus fund of the company at that date amounted to $32,144,160 15. It is thus shown that the surplus fund, representing capital derived from net earnings, invested in its branch and connecting roads, and in improvements on the Main Stem, which is not represented by either stock or bonds, exceeds the entire mortgage indebtedness of the company $3,082,595 35.

Semi annual dividends of five per cent upon the capital stock were paid on the 15th of November, 1873, and on the 1st of May, 1874.

Profit and loss account shows an increase for the past year of $3,111,028 97.

It is shown by the report of the transportation department that there has been a large expansion of tonnage of through merchandise East and West, viz: from 640,265 tons in the preceding year to 752,256 tons. For 1872 this traffic was 557,609 tons. 1,000,778 barrels of flour and 2,668,361 bushels of grain were brought to Baltimore during the fiscal year, showing an increase of 60,151 barrels and 2,157,704 bushels.

The coal trade shows an aggregate of 2,209,762 tons, which includes 431,184 tons for the company's supply. The quantity transported for the public is 1,778,628 tons.

Statement of profit and loss for the years ending September 30:

	1873.	1874.
Balance from previous year	$26,152,269 36	$29,033,131 18
Net earnings	4,934,795 99	5,018,060 29
Straitsville Divisi'n	3,787 91	648 71
Chicago Division	.....	27,195 39
Dividends upon Washington Br. stock owned by the Main Stem	102,780 00	102,780 00
Increment from the sinking fund	89.300 00	108,900 00
House rents	14 229 67	14,310 97
	$31,397,162 93	$34,305 026 54
Dividends on stock	$1,314,330 00	$1,314,340 00
Interest and taxes, less int. received.	173,948 60	409,718 51

WASHINGTON BRANCH.

Statement of earnings and expenses for the years ending September 30:

Earnings:	1873.	1874.
Passengers	$352,629 03	$295,178 45
Tonnage	88,146 51	78,144 86
Total	$440,775 54	$373,323 31
Expenses:		
Repairs of railway	$132,624 56	$111,354 70
" depots	10,716 57	5,074 13
" water stations	2,411 53	982 79
" bridges	5,005 57	1,606 70
Pumping water	6,003 39	7,016 04
Total	$156,761 62	$126,034 36
Net earnings	$284,013 92	$247,288 95

The earnings of 1874 show a decrease as compared with those of the previous year of $37,452 23; the expenditures charged are $30,727 26 less —showing a decrease in net earnings of $36,724 97.

A dividend of five per cent was paid on the 31st of October, 1873, and a similar dividend on the 17th of April, 1874.

Statement of profit and loss for the years ending September 30:

	1873.	1874.
Balance from prev. yr.	$622,299 68	$737,753 28
Net earnings	284,013 92	247,288 95
Total	$906,313 60	$984,942 18
Dividends on stock	$165,000 00	$165,000 00

PARKERSBURG BRANCH RAILROAD.

The following is a comparative statement of the earnings and expenses for the years ending September 30:

Earnings:	1873.	1874.
Passengers	$182,454 53	$198,201 48
Tonnage	765,274 76	703,865 05
Total	$947,729 29	$802,066 53
Expenses:		
Transportation	$233,564 59	$236,265 63
Repairs railway	335,741 48	438,262 22
" water stations	6,384 45	9 025 33
" telegraph	1,639 35	1,375 35
" stationary machinery	7,038 29	15,841 55
" locomotives	62,280 78	64,329 16
" burden cars	38,555 83	39,415 17
" passenger cars	6,153 49	9,753 26
" bridges	53,272 30	49,407 68
" depots	11,111 48	4,878 97
Pumping water	3,235 62	3,344 80
Losses by accidents, etc.	2,395 49	2,688 85
Fuel, preparing, etc.	47,455 67	46,241 63
General expenses	6,355 60	4,261 71
Cleaning engines & cars	8,784 37	8,210 16
Contingent expenses	103 18	180 91
Taxes	7,595 10	8,770 60
Total	$831,661 98	$942,252 98
Net earnings	$116,067 81	.....
Deficit	.....	$140,186 45

It will be seen that the earnings were $145,662 76 less than in 1873, while the expenses increased $110,591—showing a loss as compared with 1873, of $256,253 76.

The aggregate earnings of the Main Stem, including the Winchester and Potomac, Winchester and Strasburg, the Strasburg and Harrisonburg, the Washington County, and the Metropolitan Branch Roads, and of the Washington Branch and Parkersburg Branch for the years ending September 30, 1873 and 1874, were as follows:

	1873.	1874.
Main Stem	$12,252,843 78	$11,693,955 55
Washington Branch	440 775 54	373,323 31
Parkersb'g Branch	947,729 29	802,066 53
Totals.	$13,641,248 61	$12,869,345 39

The aggregate expenses of operating and repairs were as follows:

	1873.	1874.
Main Stem	$7,318,047 79	$6,675,895 26
Washington Branch.	156,761 62	126,034 36
Parkersburg Branch.	831,661 98	942 252 98
Totals	$8,306,471 39	$7,744,182 60

And the aggregate net earnings, after deducting the cost of operating and repairs, as follows:

	1873.	1874.
Main Stem	$4,934.795 99	$5,018 060 29
Washington Branch.	284 013 92	247,288 95
Parkersburg Branch.	116,067 81	*140,186 45
Totals	$5,334,877,22	$5,125,162 79

* Deficit.

—showing a decrease in the gross earnings of $772,003 22; with a decrease in expenses of $562,288 79—making the decrease in net earnings $209 714 43.

The earnings of the Central Ohio Division for the fiscal year were $1,004,856 13, the expenses $843,049 77, and the net earnings $161,306 36.

The earnings of the Lake Erie Division for the same time were $787,168 18, the expenses $624,066 63, and the net earnings $163,101 55.

The earnings of the Chicago Division were $64,053 08, the expenses $36,857 69, and the net earnings $27,195 39.

The earnings of the Wheeling, Pittsburg and Baltimore Railroad were $49,888 96, the expenses $48,547 61, and the net earnings $1,341 35.

The earnings of the Newark, Somerset and Straitsville Railroad were $172,278 68, the expenses $119,946 37, and the net earnings $52,332 31.

The gross revenue of the Main Stem and Branches including the Central Ohio, Chicago and Lake Erie Divisions, the Wheeling, Pittsburg and Baltimore Railroad, and the Newark, Somerset and Straitsville Railroad, is thus shown to be $14,947,090 42, the expenses $9,416,650 67, and the net earnings $5,530,439 75. The aggregate working expenses were 62.99 per cent of the whole revenues.

During the year 363,221 new cross ties, 1,798 tons of iron, and 7,946 tons of steel rails were used in repairing and constructing additional tracks on the Main Stem; 28,055 cross ties, 640 tons of steel and 29 tons of iron rails on the Washington Branch; 62,290 cross ties, 2,495 tons of steel and 476 tons of iron rails on the Parkersburg Branch; 2,068 tons of new iron and 1,515 tons of re-rolled rails on the Central Ohio Division; 3,015 tons of new iron rails on the Lake Erie Division; and 197 tons of new rails on the Newark, Somerset and Straitsville division.

At the commencement of the fiscal year 1874 there were in service on the Main Stem and Branches 473 locomotives. During the year 36 first class locomotives were purchased and built, making the total number at the close of the year 509—of these 87 were passenger and 422 freight locomotives; 469 were first class, 33 second class and 7 third class. On the Central Ohio Division there were 31, and on the Lake Erie Division 9—making a total of 549.

The number of cars in service at the commencement of the year on the Main Stem was 10,553; to which there were added in 1874, 1,086—making

the total at the close of the year, 11,589; of these 186 were passenger, 36 mail, baggage, etc., 11 post office, 1 pay, 10 officers', 6 palace, 1 compartment, 6 sleeping, 14 emigrant, and 11,318 tonnage, stock, coal and other cars. There were also on the Central Ohio Division 19 passenger, 8 mail, etc., and 341 freight cars; and on the Lake Erie division 10 passenger, 9 mail, etc., and 210 freight cars—making a total of 12,186.

The mileage of engines in 1873 and 1874 was as follows:

	1873.	1874.
Main Stem	10,292 259	9,858,751
Washington Branch	662 266	649,107
Parkersburg Branch	1,258,361	1,270,279
Total	12,112,886	11,778,137

Official List of Patents Relating to Mechanics, Metallurgy, &c.

(For week ending August 7, 1875.)

166,178. Railroad Car Springs, J. E. Wootten, Reading, Pa.

166,179. Railroad Car Springs, J. E. Wootten, Reading, Pa.

☞ The Great Northern Telegraph Company, which has cables along the Chinese coast, has entered into a contract for the construction of an overland telegraph between Amoy and Fuhchow, a distance of about 160 miles. The company are to get $154,500 for building the line, and $30,000 annually for its maintenance.

Northern Pacific Railroad.

According to adjournment, the Northern Pacific Railroad, with all the franchises of the company, including the franchise to be a corporation, and all property of the company except those lands which have been patented or certified, was sold under a decree of the United States Circuit Court, by auction, on the steps of the Custom House, at New York on the 12th inst. The whole was bid in as an entirety by the purchasing committee, consisting of Messrs. Livingston, Billings, Stark, Moorhead, Hutchinson and Dennison, representing the general body of the bondholders who have assented or may hereafter assent to the plan of purchase and reorganization. There being no competition the price realized was a nominal one of $100,000, and was paid down in cash, and was fixed in amount in the decree as the minimum, in order to pay the legal expenses of settling the affairs of the company. The sale results in a transfer of all the company's property and right to the bondholders, the bonds to be surrendered and cancelled, and the holders to receive preferred stock in the reorganized company, pursuant to the terms of the plan represented by the purchasing committee. The amended decree of the court, striking out the words "land grant," included in the property covered by the sale in the first decree, to effect which the sale was previously adjourned, was read by the auctioneer before the sale. The Farmers' Loan and Trust Company was designated by the purchasing committee as the custodian of the securities which are to be called in. The managers of the road affirm that the foreclosure is in the interest of the road, in order to put it into the hands of the bondholders and enable them to go on with its construction. The total bonded indebtedness under the mortgage amounted to about $30,000,000. On this sum interest at the rate of 8 per cent was to be paid for five years, which would have amounted to over $12,000,000. It was provided in the decree of sale that if the road should be sold for more than the sum fixed by the court the amount bid above $100,000 might be paid in bonds. Under this provision, if any outside person had bid off the road, he, holding no bonds, would have been obliged to pay in money cash down, while any bondholder bidding above him could pay in bonds instead of money. Thus it was made practically impossible for the road to become the property of any persons but the bondholders. The plan of reorganization provides first for the appointment of the purchasing committee, which is to assume the management of the road pending the election of a new board of directors. It provides also that no assessment shall be levied upon the bondholders, but that all costs of purchase, expenses of foreclosure, etc., shall be paid out of the assets and income of the company. The length of time within which bondholders may join and participate in the benefits of the purchase of the property is left to the discretion of the purchasing committee, which will probably make early announcement of the limit within which a bondholder may come in or hold on to his bonds, and accept in final settlement of his claim his share of the proceeds of the sale of the property, $100,000. The object of the new organization is to convert the 7-30 bonds, which are those of the mortgage just foreclosed, into preferred stock, by adding the interest to the principal of the bonds at 8 per cent per annum from July 1, 1873, the date of the last payment of interest, to and including July 1, 1878. This will give the stockholder $1400 of preferred stock for every $1000 bond that he holds. The amount of $1400 is arrived at by its bearing the same relative proportion to $1000 that the whole amount of $51,000,000 bears to the entire indebtedness of the road, which is made up of mortgage bonds, $30,500,000; interest, $4,000,000; land warrant bonds, $732,500; floating debts, amounting in all to about $36,000,000. The stock is to be entitled to dividends up to 8 per cent, as it is earned, after July 1, 1878. The preferred stock is to be convertible at par into any lands owned or to be owned by the company east of the Missouri river in Minnesota or Dakotah. These lands now amount to nearly 8,000,000 acres. The proceeds of their sales are to be applied to the purchase of preferred stock. The common stock is not to be entitled to dividends until 8 per cent per annum is paid on preferred stock, and it can have no voting power until after July 1, 1878. For the construction and equipment of the road the issue of first mortgage bonds, not to exceed an average of $25,000 per mile of road actually completed and duly accepted, is provided for. These bonds are to be a first and paramount lien on the whole road, including its equipment, lands and franchises, but subject to the rights of the preferred stock, until any default is made in the provisions of the mortgage. Bondholders representing over $24,000,000 of the $30,000,000 of bonds of the road, we see it stated, have already assented to the adoption of this plan.

Pennsylvania and Erie Coal and Railway Company.

On the petition of Hugh J. Jewett, Receiver of the Erie Railway Company, Judge Westbrook, in Supreme Court, Chambers, on the 18th inst., made an order permitting the execution of a contract whereby the interests of the Erie Railway Company in Pennsylvania coal lands shall be consolidated with those of the Shawmut Company, the lands of which adjoin, and to some extent surround, those owned by Erie. This consolidation is permitted under the provisions of a contract whereby it is provided:

1. That a mortgage is to be executed on the property so united to secure bonds to be issued to the amount of $4,000,000; the transfer by Mr. Jewett to the consolidated company of the Erie interest, or, in other words, the entire stock of the Northwestern Mining and Exchange Company, to wit 5,000 shares, in exchange for $1,866,667 of the said mortgage bonds at par, subject to the payment of the balance due on the purchase of the lands of the Northwestern Company, amounting to $544,080 96; the said Shawmut Company to receive a certain number of the said mortgage bonds in payment for its interest in the mortgaged premises.

2. The consolidation of the Buffalo, Bradford and Pittsburg Railroad Company, the Pittsburg, Buffalo and Rochester Railroad Company, and the Brandy Camp Railroad Company, (all of which facilitate the working of the lands,) with a capital stock of such consolidated company amounting to $4,000,000 in shares of $100 each, whereof 22,990 shares being a majority of the stock is to be delivered to the Erie Railway Company, or the Receiver. The consolidated company is also to guarantee the payment of the principal and interest of the said $4,000,000 of bonds of said Northwestern Mining and Exchange Company.

3. William D. Shipman is appointed Trustee to dispose of this $4,000,000 of bonds.

4. The name to be assumed by this new consolidated company is the Pennsylvania and Erie Coal and Railway Company.

5. The proceeds of the bonds, or so much as

necessary, is to be used to construct a line of rail road to furnish an outlet to market for the coal, in connection with the roads already named.

By this agreement, Mr. Jewett claims, very great advantages are to be secured to Erie, including an abundant supply of coal for the use of the railway at reasonable rates, and substantially a monopoly of the right to receive from and transport all the freight and passengers carried over and going beyond the line of said Pennsylvania and Erie Coal and Railway Company. He is satisfied, moreover, that he will thereby make the best disposition of the stock which Erie at present holds in coal lands, and best serve the interests of the company's stockholders. The entire body of land which will be held by the conrolidated company will amount to 33,107 acres, containing immense deposits of bituminous coal of great value.

Intercolonial Railway.

The opening of the Intercolonial Railway from Moncton to Riviere du Loup will soon be an accomplished fact. A few weeks since we announced that the rails were laid from Moncton to the Miramichi. Later, that communication by rail was established between the Miramichi and Campbellton, and the line is complete between Riviere du Loup and Point Flavin on the St. Lawrence. There are two gaps where the rails are not laid—a distance of half a mile at the Northwest Branch of the Miramichi, and twenty five miles between Fraser's and the Forks of the Metapedia. The latter is being rapidly covered with rails and will be complete in a few weeks. The bridge at the Northwest Branch is rapidly approaching completion. The abutments and three piers are already finished, and the two remaining piers are in an advanced stage toward completion. A large portion of the track is yet to be ballasted, but it is confidently expected that the whole line will be ready for the opening between Moncton and Riviere du Loup on the first of November next. It is hoped that the line may be kept open during the winter and that we shall have the long desired boon at last—Canadian Intercolonial communication throughout the winter.—*St. John News.*

Kentucky River Bridge.

The Baltimore Bridge Company will shortly commence the construction at the crossing of the Kentucky river, near the Shaker Ferry, of a bridge, which, when completed, will be the highest structure of the kind in the world. It will be used by the Cincinnati Southern Railroad for the passage of its trains, and will consist of an iron deck truss of three spans of 375 feet each, centre to centre, supported by two piers and two abutments. The piers will be built of masonry to a hight of 64 feet and 6 inches above low water mark, and the additional distance below low water mark will soon be determined by borings, under control of the resident engineer. These piers will be 120 feet long, end to end of cut water, and 35 wide on the top, built hollow, with the walls 24 feet from the end. Upon the masonry will rest the iron trestle work. The grade line is 275 feet 6 inches above low water. The abutments will be built upon the cliffs on each side of the river, and are to be 48 feet high, depending upon the shape of the ledges of rock.

☞ The first train through on the Intercolonial Railway north left Moncton for Metapedia on the 16th inst., with the Administrator of the Government, Gen. Haley, accompanied by Sanford Fleming and party, as excursionists.

Railroads and the Wheat Supply.

In the summer of '75, which is proving far from favorable to the crops, the immense advantages of the extension of our railroad lines into the far Northwest, will be appreciated not only in America but in Europe. The wheat crop of Europe is likely to be scant, and the same is likely to be the case in many of the older states of the Union. When a deficit is so probable and which deficit would ordinarily produce famine prices, the effect is largely modified by the extension of the railway lines into Nebraska, Dakota, the extremes of Kansas, Iowa, and Minnesota. Tens of millions of bushels of wheat will be raised in sections where in '70 there was scarcely a bushel grown; and that enormous increment in the production of wheat has been solely caused by the construction of the Northern Pacific Railroad west to the Missouri river, the numerous lines which are traversing Minnesota, Western Iowa, Kansas and Northern Texas. These railways will prove in 1875 to be the benefactors of the human race; for a famine price for bread is appalling to the workingmen of every nation.—*Mil. Wis.*

Centennial Exhibition Buildings.

Much progress has been made in the erection of buildings for the centennial exhibition at Philadelphia next year. The eastern and western sections of the main building, covering 1,416 out of the entire 1,880 feet occupied by that structure, have been erected. Machinery Hall is sufficiently advanced to admit of the laying of foundations for the 1,400 horse power engine which is to furnish the motive power for this portion of the exhibition. Horticultural Hall is well advanced, and the materials for Agricultural Hall are in readiness to be put together, as contracted for, by the close of the year. The only important building which is likely to be behind time is the art gallery, which is to be known as Memorial Hall. The delays in that structure have been due to frequent changes of plan.

East Tennessee and Western North Carolina Railroad.

Gen. A. E. Jackson, president of the East Tennessee and Western North Carolina railroad, which taps the East Tennessee, Virginia and Georgia railroad at Johnson City, Tenn., made sale of that unfinished improvement on the 11th inst. to Messrs. Pardee, Hoke & Co., who have obligated themselves to complete it as far as now graded against September 1, 1877. These gentlemen have also purchased the Granberry iron property, the objective point of this improvement, on top of the Unaka mountain, paying therefor $175,000 down. The firm is composed of Mr. Pardee, of Philadelphia; Gen. R. F. Hoke, of North Carolina, and others, and they are said to represent $20,000,000.

The Potter Law.

The Milwaukee Wisconsin says that the papers in the celebrated case of H. M. Ackley et al. vs. The Chicago, Milwaukee and St. Paul Railway have been filed in the Circuit Court for the removal of the cause to the Supreme Court of the United States for a final decision, and then adds:

This case is an action under the Potter law, the plaintiffs refusing to pay the old railroad rates for the delivery of two car loads of lumber at Oconomowoc in June, 1874. The case was decided in favor of the plaintiffs in both the Circuit Court of this District and the State Supreme Court. The constitutionality of the law regulating railroad rates is now to be tested by the Judges of the United States Supreme Court.

Dover and Portsmouth Railroad.

The annual meeting of this company was held in Portsmouth, N. H., on the 11th inst., the President, F. Jones, in the chair. The road is leased to the Eastern Railroad Company at six per cent. on the cost for fifty years. The amount of stock authorized by law is $800,000; the amount issued $678 000, of which the city of Dover holds $225,000 and Portsmouth $300,000. The Treasurer, George L. Treadwell, reported notes coming due to the amount of $63,000 and a floating debt of $15 000; stock not issued, $122 000. Thirty eight shares belonging to the estate of the late George H. Peirce of Dover were sold there at auction recently for $75 per share, par being $100.

The old Board of Directors voted to pay Mr. Treadwell for services as Treasurer of the road from the start to date, $2,000. The business of the road is constantly increasing, being $600 more during July this year than last. The following directors were elected: Frank Jones, Daniel Marcy, Moses H. Goodrich and Albert R. Hatch of Portsmouth; Andrew H. Young, Oliver Wyatt and Chas. H. Sawyer of Dover. Frank Jones was re-elected President, George L. Treadwell Treasurer, and William H. Hackett Clerk.

Bleecker St. and Fulton Ferry R. R.

A suit of foreclosure has been commenced in the Supreme Court against the Bleecker Street and Fulton Ferry Railroad Company, and the complaint in the case has been filed in the County Clerk's office. The suit is brought in the name of John M. Harlow, as trustee for the original bondholders of the railroad company, against the company and Smitten V. Tripp, George E. Ketchum and Francis A. Palmer, as trustees for the second mortgage bondholders. It is set forth in the complaint that the road was incorporated in 1864; that on January 2, 1865, $700,000 in bonds were issued, the interest of which was to be paid semi-annually at the Butchers and Drovers' Bank; that a bond and mortgage was duly executed as security for the payment of the bonds, and that the interest on the same, due on the 1st of July last, has not been paid. It is further stated that the company is in arrearage $30,000 for non payment of taxes; that $803 remains unpaid for rent of its depot. The amount of unpaid coupons is stated at $24,500.

☞ A large and enthusiastic meeting of citizens was held at Alliance, Ohio, recently, to celebrate the commencement of work on the Lake Erie, Alliance and Wheeling Railroad. This line will connect with the Youngstown Narrow Gauge, having its entreport at Fairport, one of the best harbors on Lake Erie, and will extend to Wheeling on the Ohio River, by way of Alliance and Cadiz. It will run nearly its whole length through the great coal fields and iron mines of Ohio.

☞ The question is being agitated in Washington of a new route to the Chesapeake by a narrow gauge railroad from that city to Fair Haven. This summer resort, which is growing in popularity every year, is said to be the nearest point on the bay to Washington. It is about twenty five miles east by land from the navy yard, Washington, while it is about fifty miles south by water from Baltimore. In its course the road would touch several villages and the county seat of Prince George's county.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, August 21, 1875.

Financial and Commercial Affairs.

Cable advices have been all favorable to ease in Money. The home markets have been devoid of any excitement. No further failures of any great magnitude, financial or commercial, have been reported. Crop reports from the several sections of our own country have been much more favorable. Fall trade movements in produce and merchandise have been on a more liberal scale. Money lenders have been offering accommodations very freely to responsible borrowers, especially on call—keeping rates down to very low figures—1¼@3 per cent; generally 2 per cent. Speculation at the Stock and Gold Boards has been less animated, and the consequent need of pecuniary aid has been correspondingly less urgent. In the discount line, the offerings of strictly choice to prime grades of mercantile paper have been comparatively moderate, and have been readily marketed, where of undoubted character, within the range of 4@6 per cent per annum. The City banks have been losing in the line of reserves, but have had ample means to meet with promptness all the calls of their customers. The U. S. Sub Treasury increased its currency, while diminishing its specie balance, during the week. The City Banks last week reduced their reserve of legal tender notes $2,875,100, their deposit item $3,429,600, and their specie average $2,892,800. They report an addition of $3,107,600, to the loans and discounts, and a falling off of $109,100 in their circulation. The U. S. Sub Treasury in this city closed the

week with a currency balance of $60,665,191 against $60,220,880, the preceding week; and a coin board of $34,953,085 against $36,930,369, on the previous return. The City bank exchanges in currency during the week, were $303 253,766, or a daily average of $50,542 294. The customs revenue of the port, during the week, was $2,557,000. The City banks reported their average of gold last week at $13,422,100, and their greenback average at $70,726,200. Their deposits stood at $248,033,200. The loan item was $283,541,900. The circulation was $18,412,700.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $22,160,000.

The aggregate of the outstanding U. S. currency, of all denominations, August 1, was $416,456,124. The outstanding amount of legal tender notes is $374,755,109. The National bank circulation is now $349,205,093, including $2,600,000 of national gold bank notes.

On Wednesday, the cash balances of the Treasury Department at Washington were of Currency, $4,886,315; special deposit of legal tenders for the redemption of certificates of deposit, $67,160,000. Coin, $70,496,845. Coin certificates, $19,806,700.

The week's import entries of Foreign Merchandise at New York, were $8,843,937, and included of dry goods $4,037,731.

The income of the Government from internal revenues in the fiscal year, since July 1, 1875, has been about 15 millions.

Gold has been comparatively quiet through the week. The speculative demand has been limited, and the customs call moderate; while the export drain has not been remarkably heavy. The market has lacked buoyancy. The later dealings indicated more firmness. The extremes of the week have been 112⅞@113¾, closing on Wednesday at 113⅜, as against 114 on Wednesday of the preceding week. The specie outflow last week was $1,572,520 against $1,123,918 the previous week. The imports of specie at this port since Jan. 1, have been $8,134,509, against $2,956,000 same time last year. The customs demand for Gold last week averaged $426,167. Foreign Exchange has been in moderate demand and quoted about steady. Bankers' sixty day bills on London closed on Wednesday at $4 86@$4 86½; sight bills on London at $4 89@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,740,000. The week's imports of Dry Goods and general merchandise were to the specie value of $8,843,937 against $5,252,836 same week last year.

Government Securities have been moderately active at easier prices, influenced mainly by the fall in Gold. The offerings have been limited at the ruling figures. The first call of the Secretary of the Treasury for the redemption of the 5-20 6 per cent. loan of 1864 was made on the 13th inst. The bonds will cease to bear interest if not presented by the 13th of November next. The call first pays off a small sum of $946,000 registered under the act of March 3, 1864, and then $9,054,090 of registered stock and coupon bonds under the Act of June 30, 1864, about equally divided between the two classes. This will leave $49,000,000 of the loan of 1864 to be redeemed under subsequent calls, to be made.

U. S sixes of 1881 closed on Wednesday of this week at 121½@121⅜; U. S. Five-Twenties of 1864, at 115⅝@116; U. S. Five-Twenties of 1865 118½@118¾; U. S. Five-Twenties of 1865, consolidated, 118⅜@118⅝; U. S. Five-Twenties of 1867, 120⅛@120⅜; U. S. Five-Twenties of 1868, 121@121½; U. S. Ten-forties at 118@118¼; U. S. Fives of 1881, (Funding Loan) 116¼@116¾; Six per cent. currency Sixes, 122⅞@123⅛.

State and Railway bonds have been much less freely dealt in at generally easier prices. And in the line of Railway and Miscellaneous share property, business has been comparatively dull, especially toward the close, at easier and irregular prices, closing, however, more steadily.

Business in Produce and Merchandise has been generally more active, though at variable prices. A livlier movement has been reported in Dry Goods, Boots and Shoes, Hardware, Leather, Tobacco, and East India Goods. Breadstuffs and Provisions have been fairly active, closing more firmly. Cotton has been quite freely dealt in, and at the close has been quoted stronger in price. Naval Stores, Petroleum, Hides, Fish and Groceries have been in fair request at the ruling figures. Seeds have been attracting more attention and quoted higher. The Metal trade has been on a moderate scale. Of Iron Rails, some 1500 tons American have been reported sold at $53, at the Mills. Scotch Pig Iron has been held with firmness. American Pig Iron, depressed. Copper quoted a shade dearer. Eglinton Pig Iron quoted here at $27@$30; Glengarnock, $32; Coltness, $32; No. 1 American Pig at $26; No. 2 do. at $23 50@$25; Forge, $21 00@$23 50; English Rails at $48@$50, gold; American Rails at works, $50@$53; Old Rails, $26@$27. Wrought Scrap, $30@$32. Ocean freights have been less active, and rates have been quoted lower.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

The American Institute Fair.

The Board of Managers of the American Institute have decided to open the forty fourth exhibition of the Institute at the Rink, Sixty-third street and Third avenue, on the afternoon of Wednesday, September 8, at two o'clock. The exhibition will remain open until Saturday, November 13, unless it is deemed expedient by the Board of Managers to continue it one week longer. The buildings on Second Avenue are now open for the reception of machinery. The buildings on Third Avenue and on Sixty-third and Sixty-fourth streets will be opened for the reception of goods on the 30th of August. An entrance fee of $7 will be charged upon all goods entered for competition and $15 upon all goods entered for exhibition without competition. No goods will be admitted after the 15th of September unless by a vote of the Board of Managers.

☞ The Santa Rosa (Cal.) Democrat of July 31st says that the contract is let for the extension of the North Pacific Railroad from Tomales to Duncan's Mills. Engineer Wade will commence the survey this week, and a large force will be at once set to work. The road will be completed through to Duncan's by the 1st of May next.

Union Pacific Railroad.

The gross earnings of the Union Pacific Rail road for the month of June, 1875, were $1,042,534 37, the operating expenses $435,407 55, and the net earnings $607,126 82. For the month of June, 1874, the gross earnings were $902,881 48, the operating expenses $408,418 52, and the net earnings $494,462 96—showing an increase in gross earnings of $139,652 89, an increase in operating expenses of $26,989 03, and an increase in net earnings of $112,663 86. Percentage of expenses for June, 1875, 41.76; for June, 1874, 45.23—decrease 3.47.

For the first six months of 1875, ending June 30, the gross earnings were $5,525,774 19, the operating expenses $2,313,498 96, and the net earnings $3,212,275 23. For the corresponding period in 1874, the gross earnings were $4,563,632,-77, the operating expenses $2,422,102 72, and the net earnings $2,141,530 05—showing an increase in gross earnings of $962,141 42, a decrease in operating expenses of $108,603 76, and an increase in net earnings of $1,070,745 18. Percentage of expenses in 1875, 41.87; in 1874, 53.07—decrease 11.20.

☞ The Indian Rubber, Gutta Percha, and Telegraph Works Company (Limited), have received news by telegraph of the successful completion of their cable between Callao and Islay, in Peru. This section, about 460 miles in length, is the first of a series of cables, with stations at Arica and Iquique in Peru, and Caldera in Chili, which will place those ports, as well as Lima and Valparaiso, in telegraphic communication with Europe; first by the Transandine wires and the Brazilian cable system, and ultimately by the Isthmus of Panama, when a cable shall have been laid thence to Callao.

☞ There were filed in the office of the Secretary of State of California on the 7th inst., articles of incorporation of the Mendocino Railroad and Lumber Company. Principal place of business, San Francisco. Term of existence, fifty years. Number of shares 150,000. Amount of shares, $100.

☞ The Zanesville (Ohio) Street Railway company has filed a certificate of incorporation with the Secretary of State, capital stock $30,000, in shares of $500 each. Josiah Burgess and others are the incorporators.

☞ The Woodland Hills and Newburgh Street Railroad company, of Cleveland, Ohio, capital stock $50,000, has filed a certificate of incorporation with the Secretary of State.

☞ Mr. Alfred S. Heidelbach will represent the interest of his father, the late Mr. Max Heidelbach, in the firm of Heidelbach, Frank & Co.

☞ Messrs. Diamond & Copeland contractors for the proposed new road between San Diego and Campo, have just been over the route, and report an excellent road can be easily built.

☞ The narrow gauge railway track from Topique, N. B., to Fort Fairfield, Maine, is graded all the way from Topique to the State line.

☞ The New York and Long Island Bridge Company have agreed to extend the time for the reception of plans to the 7th of September.

INVENTORS.

If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C.

☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

☞ The Rockford, Rock Island and St. Louis railroad was sold at auction on the 16th inst., at Chicago, under a decree of Judge Drummond, in the United States Circuit Court, on foreclosure of mortgage. H. Osterbere, of Germany, who represents the German bondholding interests, bid $1,-320,000, and took possession of the road and its interests.

CITY PASSENGER RAILROAD SHARE AND BOND LISTS

☞ The contract for building a lock 300 by 40 feet in the Great Kanawha river, near Browns town, W. Va., has been awarded to D. M. & C. P. Dull, of McVeytown, Pa. It was estimated that the work would cost $75,000 to $100,000, but the offer of the successful bidders is not known. Congress appropriated $300,000 for locks and dams to improve the Great Kanawha.

The Welland Canal Enlargement.

The enlargement of the Welland Canal has commenced. This canal cuts through the Canadian peninsula west of the Niagara river, between Lake Erie and Lake Ontario, and it is to be enlarged to a width of 190 feet at the top and 100 feet at the bottom, and a depth of 14 feet, solidly walled for considerable distances with masonry. It will take in the largest lake steamers. At the same time, it is said that the Dominion policy is not to enlarge the canals on the St. Lawrence above their present dimensions, and that consequently the new commerce will make its depot at Kingston. Ogdensburgh on the American side will also come in for a share of it. The competition with the Erie canal is likely to be sharper than ever. It is claimed that the Welland will be free from ice an average of one month longer than the Erie, but this advantage will be offset by the earlier closing of navigation on the St. Lawrence. The work of enlarging the Welland is expected to occupy three years, and cost from $10,000,000 to $20,000,000.

Texas and Pacific Railroad.

The Secretary of the Interior recently addressed the following letter to the President, and it has been returned to him with the recommendations approved:

DEPARTMENT OF THE INTERIOR, WASHINGTON, August 4.

SIR: On the 7th of April, 1874, so much of the Texas Pacific Railway as lies between Marshall and Dallas, Tex., was accepted on the report of Mr. Isaac H. Sturgeon, Commissioner, who had examined and found it constructed in substantial compliance with the requirements of the printed instructions of the department. In addition to the portion thus accepted by you, Mr. Sturgeon also made favorable report on said road constructed from Marshall eastward to the line bounding the States of Texas and Louisiana, from Marshall northeastward to Texarcana, and from Sherman eastward to Brookston. These portions were not then accepted, because they did not come within the act authorizing the construction of said road. Since then, however, the act of 22d of June, 1874, has declared said portions to "be deemed and taken to be a part of said Texas Pacific Railway, and shall hereafter be subject to all the provisions and limitations of the act of Congress incorporating said company and of the supplements thereto." In view of this act I have the honor to recommend that said portions, viz., from Marshall to the boundary line dividing Texas and Louisiana, from Marshall to Texarcana, Ark., and from Sherman to Brookston, Tex., of said road, favorably reported on by said Commissioner, be accepted.

I am sir, very respectfully,
(Signed) C. DELANO,
The President. Secretary.

Allouez Mining Co.

At the annual meeting of this company, held in Boston on the 10th inst., the following directors were chosen: J. E. White, Boston; Edward P. White, Edward G. Arthur, New York; William H. Matthews, New Bedford; Isaac Butts, D. L. Demmon, Boston; William Harris of Michigan. J. E. White was chosen President and D. L. Demmon Secretary. 16,038 shares were represented. The balance of assets over liabilities is now $26 431 63. The agent reports No. 1 shaft sunk from third to fourth level and now ten feet below fourth, where it shows rich Copper, and in drifting the lode continued to show the richness of the shaft. The vein is ten feet wide and fully ½ per cent. richer than in third level. No. 2 shaft, sunk to fifth level, continues to improve, increasing in richness with the depth. In this level the Copper ground is fully 100 feet longer than in the fourth level. Shaft No. 3 is down 70 feet below the fourth level; here the rock resembles the Calumet and Hecla more than in any other part of the mine, and also shows more Copper. The number of miners employed is 216. The fire and want of water have interfered with the product, but the water question is now settled by bringing it from the Gratiat River at an expense of $5000. There has been a steady improvement in richness from the first level to the fifth, and ground enough uncovered to last a year.

LACHINE

Canal Enlargement.

NOTICE TO CONTRACTORS.

Sealed Tenders addressed to the Secretary of Public Works, and endorsed "Tender for the Lachine Canal," will be received at this office until the arrival of the Eastern and Western mails on THURSDAY *the Sixteenth day of September next*, for the enlargement of this canal, consisting of the widening and deepening of the channel from near the new basin east of Wellington Street bridge, upwards, to the river St. Lawrence at Lachine, embracing the construction of new locks at St. Gabriel and Cote St. Paul, also the taking down and rebuilding the upper portions of the present locks at these places: building regulating weirs, culverts, bridge piers: the construction of a new entrance lock at Lachine, and the formation of a channel and basin on the south or river side of the existing entrance.

The works will be let in sections of the respective lengths indicated on a map of the line which, together with plans and specifications of the various works, can be seen at this office, and at the Lachine Canal Office, Montreal, on and after FRIDAY, *the* THIRD *day of September next*, at either of which places Printed forms of Tender can be obtained.

Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank cheque, or other available security, for the sum of from *one to three thousand dollars*, according to the extent of work on the section, must accompany each Tender, which shall be forfeited if the party tendering declines or fails to enter into contract for the works, when called upon to do so, at the rates stated in the offer submitted.

The amount required in each case will be stated on the form of Tender.

The cheque or money thus sent in, will be returned to the respective parties whose Tenders are not accepted.

For the due fulfilment of the contract, satisfactory security will be required on real estate, or by deposit of money, public or municipal securities, or bank stocks, to the amount of five per cent on the bulk sum of the contract, of which the sum sent in with the Tender will be considered a part.

Ninety per cent only of the progress estimates will be paid until the completion of the works.

To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By Order,

F. BRAUN,

Department of Public Works, Ottawa, 9th August, 1875. Secretary.

The Coal Trade.

The production for the week ending on the 7th instant, as stated by the Pottsville *Miners' Journal*, was 685,092 tons, and for the year 10,013,446 tons, against 11,560,251 tons to corresponding date last year, a decrease of 1,546,805 tons. The bituminous tonnage for the week was 75,920 tons, and for the year 2,134,781 tons, making a total of all kinds for the week of 661,012 and for the year of 12,148,227 tons, against 13,415,554 tons to same time last year, a decrease of 1,267,327 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 55,868 tons, and for the year 2,303,178 tons, of which 1,938,178 was coal and 367,810 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 14th inst. there were receipts of 75,000 tons of coal, shipments of 75,000 tons, leaving 55,000 tons on hand. The receipts at Perth Amboy for the week ending August 6th were 10,662 tons; total to date, 60,809 tons; shipments for same week, 10,994 tons; shipments to date, 48,481 tons; on hand, 12 359 tons.

Pacific Mail Steamship Co.

The Pacific Mail Steamship Company has just entered into a contract with the government of New South Wales and New Zealand by which the company is to send its steamers to the principal ports of those countries from San Francisco. The contract provides that the company shall dispatch steamers monthly between San Francisco and Sydney, in New South Wales, and Port Chalmers, in New Zealand. For carrying the mails the two governments agreed to pay £88,950 annually for eight years. The company have made a sub contract with John Elder & Co., of Glasgow, for that firm to furnish two steamers, while the Pacific Mail Company will furnish two others for the proposed mail service. The Pacific Mail Company will hold another steamer in reserve to take the place of any disabled vessel, or supply any exigencies that may occur. By this arrangement a person can reach New Zealand or Sydney in thirty five days from New York, or, by traveling westward, reach London in forty five days. The arrangement will go into effect immediately.

New York and Oswego Midland Railroad.

John G. Stevens and Abram S. Hewitt, receivers of the mortgaged property of the New York and Oswego Midland Railroad under a foreclosure suit, applied some time since to Judge Blatchford, in the United States Circuit Court, for injunctions restraining the tax collectors of several towns in New York from selling the property in the hands of the said receivers to satisfy certain claims for State taxes. Temporary injunctions were granted for that purpose and continued in force until the 17th inst., when they were dissolved by a decision of Judge Blatchford.

It is stated in the decision that one ground of the application is that the imposition of taxes on the corporation, or its property, is in violation of the constitution of the United States, as infringing the obligation of a contract made between the State and the corporation. Referring to this question, he says:—"So far as appears the warrants in the hands of the tax collectors are regular on their faces, and the tax collectors are acting thereunder in good faith in the discharge of their duty." In conclusion, he says, that the property, although held under authority of the Court by the receivers, is as subject to taxation as other property, and that the tax collectors were not guilty of a contempt of court in levying upon it.

☞ A new Woodruff palace car, named the Lotta, was recently placed on the West Jersey Railroad between Philadelphia and Cape May. The car combines all the latest improvements, and is handsomely finished and luxuriously furnished. This is the third car of this kind in use by the company, one of which is now attached to each express train running between Philadelphia and Cape May.

☞ The Midland (Canada) Railway will shortly be opened for traffic to Waubushene; the first locomotive arrived there on the 9th inst.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY.
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

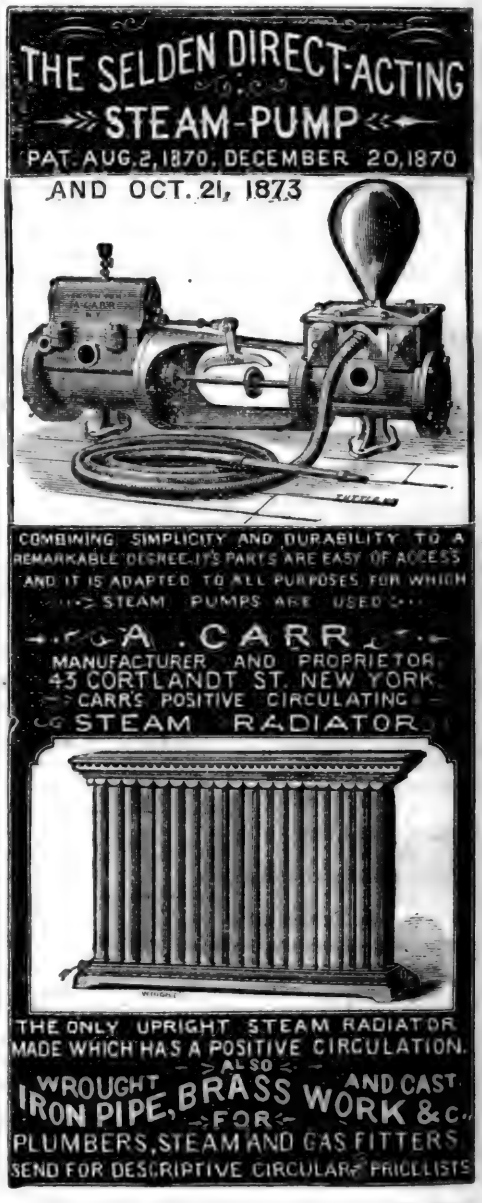
WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average **300 lbs.** Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.



LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

Liability of Express, Telegraph and Insurance Companies.

CLAIMS FOR LOSS OR DAMAGE MUST BE ASSERTED WITHIN THE TIME STIPULATED IN THE AGREEMENT.—DECISION OF THE UNITED STATES SUPREME COURT.

In the case of the Southern Express Company, plaintiff in error, vs. Robert D. Caldwell—in error to the Circuit Court for the Western District of Tennessee—Mr. Justice Strong delivered the opinion of the court:

The defendants in the court below, having been sued as common carriers for their failure to deliver at New Orleans a package received by them on the 23d day of April, 1862, at Jackson, Tenn., pleaded that when the package was received, "it was agreed between them and the plaintiff, and made one of the express conditions upon which the package was received, that they should not be held liable for any loss of, or damage to, the package whatever, unless claim should be made therefor within ninety days from its delivery to them." The plea further averred that no claim was made upon the defendants, or upon any of their agents, until the year 1868, more than ninety days after the delivery of the package to them, and not until the present suit was brought. To the plea thus made the plaintiff demurred generally, and the court sustained the demurrer, giving judgment thereon against the defendant. Whether the judgment was correct is the only question presented by the record which we can consider.

Notwithstanding the great rigor with which the courts of law have always enforced the obligations assumed by common carriers, and notwithstanding the reluctance with which modifications of that responsibility, imposed upon them by public policy, have been allowed, it is undoubtedly true that special contracts with their employers limiting their liability are recognized as valid if in the judgment of the courts they are just and reasonable—if they are not in conflict with sound legal policy.

The contract of a common carrier ordinarily is an assumption by him of the exact duty which the law affixes to the relation into which he enters when he undertakes to carry; that relation the law regards as substantially one of insurance against loss or damage except such as results from what is denominated the act of God, or of the public enemy. But the severe operation of such a rule in some cases has led to a relaxation of its stringency when the consigner and carrier agree to such a relaxation.

All the modern authorities concur in holding that to a certain extent the extreme liability exacted by the common law originally may be limited by express contract. The difficulty is in determining to what extent, and here the authorities differ. Certainly it ought not to be admitted that a common carrier can be relieved from the full measure of that responsibility which ordinarily attends his occupation without a clear and express stipulation to that effect, obtained by him from his employer, and even when such a stipulation has been obtained the court must be able to see that it is not unreasonable.

Common carriers do not deal with their employers on equal terms. There is, in a very important sense, a necessity for their employment. In many cases they are corporations chartered for the promotion of the public convenience; they have possession of the railroads, canals, and means of transportation on the rivers; they can and they do carry at much cheaper rates than those which private carriers must necessarily demand; they have on all important routes supplanted private carriers. In fact, they are without competition except as between themselves, and that they are thus in most cases a consequence of advantages obtained from the public. It is, therefore, just that they are not allowed to take advantage of their powers, and of the necessities of the public to exact exemptions from that measure of duty which public policy demands. But that which was public policy a hundred years ago has undergone changes in the progress of material and social civilization. There is less danger than there was of collision with highwaymen. Intelligence is more rapidly diffused. It is more easy to trace a consignment than it was. It is more difficult to conceal a fraud. And, what is of equal importance, the business of common carriers has been immensely increased and subdivided. The carrier who receives goods is very often not the one who is expected to deliver them to the ultimate consignee. He is but one link of the chain; thus his hazard is greatly increased. His employers demand that he shall be held responsible, not merely for his own acts and omissions and those of his agents, but for those of other carriers whom he necessarily employs for completing the transit of the goods. Hence, as we have said, it is now the settled law that the responsibility of a common carrier may be limited by an express agreement made with his employer at the time of his accepting the goods for transportation, provided the limitation be such as the law can recognize as reasonable and not inconsistent with sound public policy.

This subject has been so fully considered of late in this court that it is needless to review the authorities at large. In York Company vs. The Central Railroad Company (3 Wallace, 107,) it is stated that the common law liability of a common carrier may be limited and qualified by special contract with the owner, provided such special contract do not attempt to cover losses by negligence or misconduct. And in a still later case, (Railroad Company vs. Lockwood, 17 Wall., 357,) where the decisions are extensively reviewed, the same doctrine is asserted. The latter case, it is true, involved mainly an inquiry into the reasonableness of an exception stipulated for, but it unequivocally accepted the rule asserted in the first mentioned case.

The question, then, which is presented to us by this record, is, whether the stipulation asserted in the defendant's plea is a reasonable one, not in-

consistent with sound public policy. It may be remarked, in the first place, that the stipulation is not a conventional limitation of the right of the carriers employed to sue. He is left at liberty to sue at any time within the period fixed by the statute of limitations. He is only required to make his claim within ninety days, in season to enable the carrier to ascertain what the facts are, and having made his claim he may delay his suit. It may also be remarked that the contract is not a stipulation for exemption from responsibility for the defendants' negligence or for that of their servants. It is freely conceded that had it been such it would have been against the policy of the law and inoperative. Such was our opinion in Railroad Company vs. Lockwood. A common carrier is always responsible for his negligence, no matter what his stipulations may be. But an agreement that in case of failure by the carrier to deliver the goods a claim shall be made by the bailor or by the consignee, within a specified period, if that period be a reasonable one, is altogether of a different character. It contravenes no public policy. It excuses no negligence. It is perfectly consistent with holding the carrier to the fullest measure of good faith, of diligence, and of capacity which the strictest rule of common law ever required. And it is intrinsically just as applied to the present case.

The defendants are an express company. We cannot close our eyes to the nature of their business. They carry small parcels, easily lost or mislaid, and not easily traced. They carry them in great numbers. Express companies are modern conveniences and notoriously they are very largely employed. They may carry, they often do carry, hundreds, even thousands of packages daily. If one be lost, or alleged to be lost, the difficulty of tracing it is increased by the fact that so many are carried, and it becomes greater the longer the search is delayed. If a bailor may delay giving notice to them or loss, of making a claim indefinitely, they may not be able to trace the parcels bailed and to recover them, if accidentally missent, or if they have in fact been properly delivered. With the bailor the bailment is a single transaction, of which he has full knowledge; with the bailee it is one of multitude. There is no hardship in requiring the bailor to give notice of loss, if any, or make a claim for compensation within a reasonable time after he has delivered the parcel to the carrier. There is great hardship in requiring the carrier to account for the parcel long after that time when he has no notice of any failure of duty on his part, and when the lapse of time has made it difficult, if not impossible, to ascertain the actual facts. For these reasons such limitations have been held valid in similar contracts, even when they seem to be less reasonable than in the contracts of common carriers.

Policies of fire insurance, it is well known, usually contain stipulations that the insured shall give notice of loss, and furnish proofs thereof within a brief period after the fire, and it is undoubted that if such notice and proofs have not been given in the time designated, or have not been waived, the insurers are not liable. Such conditions have always been considered reasonable, because they give the insurers an opportunity of inquiring into the circumstances and amount of loss, at a time when inquiry may be of service. And still more, conditions in policies of fire insurance that no action shall be brought for the recovery of a loss unless it be commenced within a specified time, less than the statutory period of limitations, are enforced, as not against any legal policy. (See Riddleberger vs. Hartford Insurance Company 7 Wall., 386, and the numerous cases therein cited.)

Telegraph companies, though not common carriers, are engaged in a business that is in its nature almost, if not quite, as important to the public as is that of carriers. Like common carriers, they cannot contract with there employers for exemption from liability for the consequences of their own negligence. But they may by such contracts, or by their rules and regulations brought to the knowledge of their employers limit the measure of their responsibility to a reasonable extent. Whether their rules are reasonable or unreasonable must be determined with reference to public policy, precisely as in the case of a carrier. And in a case where one of the conditions of a telegraph company, printed in their blank forms, was that the company would not be liable for damages in any case where the claim was not presented in writing within sixty days after sending the message, it was ruled that the condition was binding on an employer of the company who sent his message on the printed form.

Our conclusion, then, founded upon the analogous decisions of courts, as well as upon sound reason, is that the express agreement between the parties averred in the plea was a reasonable one, and hence that it was not against the policy of the law. It purported to relieve the defendants from no part of the obligations of a common carrier. They were bound to the same diligence, fidelity, and care as they would have been required to exercise if no such agreement had been made. All that the stipulation required was that the shipper, in case the package was lost or damaged, should assert his claim in season to enable the defendant to ascertain the facts; in other words, that he should assert it within ninety days. It follows that the Circuit Court erred in sustaining the plaintiff's demurrer to the plea. The second assignment of error we need not consider. If it is one that can properly be made, which is at least doubtful, it is unimportant in view of our judgment upon the first. The judgment of the Circuit Court is reversed, and the cause is remanded for further proceedings in conformity with this opinion.

Northern Pacific Railroad.

Suit was brought by Wietjen and others, bankers, of Amsterdam and Rotterdam, to recover iron rails, bought with their money, realized on bonds of the Northern Pacific Railroad Company, and which rails have been sold and pledged to various parties. The suit has been before the State courts in various shapes. Recently Judge Donohue decided in favor of the special defendants in this matter, that as the iron had passed to them they were not responsible to the plaintiffs, and sustained their demurrer on that ground. Appeal was taken to the General Term of the Supreme Court and decision was rendered on the 24th inst., Judge Daniels giving the opinion. He says the affidavits in the case on the other occasion cannot be resorted to for the purpose of aiding and extending the plaintiffs' case, by reason of the additional facts which could fairly be inferred from what was contained in them. By their assistance sufficient then appeared to justify the presumption that the misconduct of Moorehead, the acting trustee, was concurred in and approved by the other two trustees in the mortgage given to secure the bonds given by the plaintiffs and the other parties they propose to represent. That was then deemed sufficient for the purpose of enabling the plaintiffs to maintain the action for their own equitable protection. But the case now stands alone upon the facts set forth in the complaint, which wholly fails to show any misconduct whatever or mismanagement of the affairs of trust by Horace Thompson, one of the three trustees to whom the mortgage was given for the security and protection of the bondholders. It is not even alleged that he knew of the misconduct complained of as the foundation of the action, and no facts are set forth from which such knowledge can be reasonably presumed. If there had been, that, possibly, might have been sufficient to make him a party to and responsible for the misconduct alleged upon the part of Moorehead. The opinion concludes that the complaint presents a good equitable cause of action, but not in favor of the plaintiffs, as long as one of the trustees must be considered free from even connivances with the breach of trust. The order of the Court below should be affirmed.

Calumet and Hecla Mining Company.

The annual meeting of this corporation was held in Boston on the 18th inst., when the following gentlemen were unanimously elected Directors: Alexander Agassiz, H. H. Hunnewell, George Higginson, Henry S. Russell, of Boston, and James N. Wright of Michigan. The Treasurer's report represents the assets of the Company as amounting to $2,479,581, and the liabilities to $257,464, leaving a surplus of $2,222,117. This statement is made up to May 1, and a dividend of $400,000 due and payable on the 15th, should properly be deducted, leaving the actual surplus, $1,822,117 18.

The President stated that there was available ground now open of first quality, to last three years and of second quality two more, so that the mine is opened five years ahead as good as at present. The amount of copper actually sold within the fiscal year April 30, 1874, to April 30, 1875, was 20,247,462 pounds at an average of 20.51 cents per pound, realizing $4,160,720 16. The amount of copper smelted within the year was 20,704,788 pounds, which represents the actual product of the mine. Expense of freight, selling, etc., $285,824 53, at an average cost of 1.10 cents per pound.

Valuation of Boston.

The assessment of Boston, just completed, fixes the total valuation of real and personal property in that city at $793,767,900. There is a gain of $4,569,350 on real estate, and a loss of $9,556,500 on personal property—decrease in total valuation since last year, $4,987,160. The rate of taxation is reduced to $1 90 per thousand, and the amount to be raised by taxation is $1,522,766 less than last year. The Boston Journal commenting on these figures, says that the valuation of the city has decreased about three fifths of one per cent., while the tax levy has been reduced twelve and a half per cent.

South Carolina Railroad.

The following is a comparative statement of the earnings and expenses of this road, for the years ending December 31, 1873 and 1874:

Earnings:	1873.	1874.
From passengers ...	$246,756 26	$226,016 06
" freight.....	1,221,239 68	1,121,779 95
" mails.....	23,020 00	18,176 10
	$1,491,015 89	$1,365,972 11
Expenses:		
Conducting transp....	$311,857 21	$294,528 01
Motive power.....	230,951 11	220,224 57
Maintenance of way...	228,627 62	211,104 45
Maintenance of cars...	98,275 00	81,310 13
General expenses.....	44,839 63	43,348 26
	$914,550 57	$850,515 42
Net earnings.....	$576,465 32	$515,458 69

Compared with 1873 the gross earnings show a decrease of $125,043 78, or 8.38 per cent; the expenses show a decrease of $64,035 15, or 7 per cent: and the net earnings a decrease of $61,008 68, or 10.58 per cent. The ratio of expenses to earnings in 1873 was 61.34 per cent; and in 1874, 62.26 per cent—a difference in favor of 1874 of 0.92 per cent. The president in his report says:

The reduced earnings shown in the above statement are not confined to any one branch of the road's business. All of the sources of revenue contribute their full share.

The loss from freight divided into eastward, $658,876 88, and westward $467,903 07, is $99,459 68.

The loss from passengers similarly divided into eastward $114,903 70, and westward $111,112 86, is $20,740 20.

These comparatively unfavorable results of the year are thus clearly established as due to the deep and widespread depression of all industries, consequent upon the financial revulsion of 1873. The force of this revulsion was felt and fully comprehended, when the board last met you, but its extent and duration were not anticipated. We have every reason for believing, however, that though our business has suffered loss, in common with that of perhaps every railroad in the country, that in comparison we have no special cause of dissatisfaction. And though we may not be able to discern in the immediate situation around us, any special causes of satisfaction at the prospect of an early, and complete restoration of commercial activities, we have reason to believe that the full force of these adverse circumstances has been expended, and that hereafter we will find it easier to accommodate our policy to meet them.

An interesting and very satisfactory feature developed in the statements accompanying this paper, is the proportion of local to through tonnage.

The entire amount of freight passing over and beyond the road, West is	$467,903 07
And East, is	653,876 88
Of this amount, there was moved from Charleston beginning here	$285,898 22
And there stopped here	408,536 75

The amount of that originating here was, distributed as follows, viz:

To Augusta and beyond	$61,099 16
To Columbia and beyond	113,249 16
To way stations	111,549 90
	$285,898 22

The amount of that received here to local consignment was divided as follows:

From Augusta and beyond	$114,494 82
" Columbia and beyond	122,872 97
" way stations	171,169 46
	$408,536 75

And the most gratifying feature of the view we are presenting is, that of the large proportion of local business shown in comparison of through and local, our own lines and our own territory contributed so great a share.

Thus, to particularize: the total business sent from and received at Charleston amounts to $694,434 97.

Of that sum, Columbia and beyond receive	$113,249 16
And send	122,872 97
Total	$236,122 13

In this review of the statements, it has been matter of much interest to observe, that of the entire freight earnings of the road, $1,121,779 95, the large proportion, amounting to $883,542 31 is furnished by points practically within our own control; and not less, to note that the business derived from the Greenville and Columbia Railroad exceeds that done with the Georgia Railroad, and the entire system of connections west of Augusta, in the large sum of $94,204 62.

These are facts which should be cause of satisfaction and encouragement to the company, as indications that a large proportion of the business is comparatively free from the injurious effects to be apprehended from the reckless management of competing lines, whose frantic efforts to secure a share of the through business resulted in a reduction of rates for that business, to figures barely covering the cost of transportation. To develop and encourage the situation we have been presenting to you, has been the policy of the board to the utmost extent of their ability since the war, and it is only owing to their want of means, that their favorite idea of connecting with the South Carolina Railroad as a trunk, all the interior roads of the State, has only been partially accomplished. From what has been shown, it is readily seen, that such a combination including, with the Greenville, the Laurens, the Spartanburg and Union, and the Charlotte and Columbia Roads, would render us entirely independent of outside connections, the effort to obtain whose business entails expenses quite incommensurate with its value, and in a great measure relieve us from fluctuations of revenue inseparable from the reckless manner in which competition for our business at distant points is conducted—so conducted during a considerable portion of the business year, as to have forced rates of transportation upon leading articles down to mere cost of movement.

The expenses of the year are	$850,515 42
The ratio to earnings is 72.264 per cent.	$64,035 15

(though the ratio is slightly increased.)

The ratio of the reduction of expenses to reduction of earnings is 51.210 per cent.

With the most active effort on the part of the general superintendent, whose earnestness in this direction has been marked, it was not found practicable to accomplish more. Nor is it, indeed, an easy matter to preserve, within distinct lines, the expenses of two hundred and forty two miles of road and force them to conform to certain relations to earnings, when those earnings are necessarily uncertain—the outlay and preparation for business being a present and pressing necessity. The disturbance, too, of the equilibrium of tonnage, moved in opposite directions (a condition so constantly striven for, in railroad management, because of its essential connection with economic results), is very marked in the movement of this year's business, as is seen in a comparison of the

Tons moved eastward	151,678
And those moved westward	118,605

and is entitled to due weight in considering the subject of expenses.

So too, and on the direct line of saving, are those extraordinary expenditures which go towards maintaining and improving the property, and which, this year, embrace an increased number of tons of rails put in the track, the new depot at Orangeburg, the rebuilding of Locomotive Gadsden, and heavy repairs to Nos. 43 and 44, sold to the Greenville and Columbia Railroad, and not necessarily of annual recurrence.

Whilst we do not feel that it is practicable, with a just regard to the efficiency of the management, to accomplish results materially varying from those which are here exhibited, it shall be our constant aim to keep the expenses of the departments to the lowest possible mark.

The balance of earnings, as before stated is	$515,456 69
Add, received from other sources	1,529 29
Income of the year	$516,985 98

Against this sum are charged:

Interest on first mortgage sterling bonds	$73,419 43
Premium on first mortgage sterling bonds	17,462 87
Interest on first mortgage domestic bonds	64,155 00
Interest on second mortgage bonds	51,152 50
Interest on non-mortgage bonds and bills payable	207,571 88
	$413,761 18
Balance carried to profit and loss	103,224 80
	$516,985 98

The treasurer's report is accompanied with the usual tables, explanatory of the transactions in that department.

There is not in these papers any matter inviting special notice. The board in reviewing in their last report the financial condition of the company, referred to the trouble occasioned them in the management of the finances, by the necessity of meeting annually large amounts of maturing bonds, which immediately had to take the shape of bills payable at higher rates of interest, and wait gradual reduction through balance of earnings. During this year the last of those troublesome obligations fell due, amounting to $224,000, which will account for the increase of the bills, but this increase is more than counteracted by the decrease of the bonds payable.

Notwithstanding the increase of the bills payable, from the causes stated, it is worthy of note, that the payments on account of interest are below those of the previous year. During the latter part of the year, the indications of lower prices of money, consequent upon the accumulation of capital at the commercial centres, encourage the expectation that there is to be permanent relief from this oppressive tax upon industry and enterprise, endured by our section since the war. The realization of that fact would find, in connection, and as a necessary result, increased demand for your securities and an ability so to place them, as to work out the scheme of disposing of your floating debt through a sale of your second mortgage bonds.

The recommendation of the committee of bondholders to charge off the amount standing against the Southwestern Railroad Bank has only been postponed, for the purpose of including certain outstanding obligations of the bank not yet matured. These will all mature and be paid the ensuing year, when the amount will be transferred, as a whole, to profit and loss.

Immediately after their organization the board proceeded to the consideration of the disposition of the Southwestern Railroad Bank, in view of what they understood to be the wishes of the stockholders; and appointed a committee to confer with a committee from the directors of the bank, as to the fittest action to be had. The following report of that joint committee will at once explain their conclusion and the present status of the bank:

The joint committee of the South Carolina Railroad Company and the Southwestern Railroad Bank, appointed to consider the propriety of closing the bank and removing the transfer office, beg leave to

REPORT:

That it is inexpedient at present to make any change in the mode of transfer of stock, as such change could only be effected by surrendering the charter of the bank. They therefore recommend that the bank be removed to the office of the railroad company; that Mr. W. J. Magrath be elected President of the Bank, to fill the vacancy created by the retirement of Mr. Cochran, and that transfers be made as heretofore.

They further recommend, that, as no salary is attached to the office of President of the Bank, and the duties of the transfer department devolve upon the Cashier, that the salary of the latter be fixed at $1,800 per annum. This will then, constitute the entire expense of the Bank.

Respectfully submitted.

(Signed) GEO. W. WILLIAMS,
Chairman Committee S. C. R. R. Co.
JAMES CONNER,
Chairman Committee S. W. R. R. Bank.

The income of the company this year has not been benefitted by any receipts from its steamship investments. We have not their reports of the year, but exposed even in a greater degree than the Railroads, to the causes which have affected the earnings of the latter, they would be fortunate to have sustained themselves and paid expenses.

The Greenville and Columbia Railroad, it is encouraging to know, will exhibit, for the business of the year, figures not materially below those of the last. The difference being not quite six per cent.

The whole number of bales of cotton received

from that road, make 125,585 and are in excess of last year 26,862.

This excess has more than made up the deficiency at Augusta and beyond.

In pursuance of their policy, already referred to, the board submitted to the stockholders of the Charlotte, Columbia and Augusta Railroad Company, proposals for a lease of their road, for a period of not less than ten years, on terms which they regarded quite fair, perhaps liberal. These proposals were invited by favorable approaches from some of the stockholders of that company, and are believed to be quite acceptable to nearly a majority. They have been referred to a committee instructed to confer with us, etc.

The accomplishment of this lease would be a matter of peculiar satisfaction to the board, and whilst the benefit to the South Carolina Railroad's business would undoubtedly be marked, the restoration to the city of the business formerly so profitably and agreeably transacted with that section of the State, but of late years so diverted by opposing interests, would be none the less felt.

Under the direction and through the agency of the president of the company, but not in direct connection with it, arrangements have been made to rebuild the Laurens Railroad, and put it in a condition for efficient service. Work on it has made considerable progress, and long before the commencement of the ensuing season, we shall, through the thirty one miles of this road, be again in connection with this important section of our State, so long debarred from the inestimable privileges of regular and speedy communication with main lines of transportation.

In contemplating the results of the year, and considering the causes which have produced them, whilst it would have been very grateful to the board to have made a larger show of earnings, they find no ground for an abatement of their confidence in the ability of the road to fully realize its average income, in the face of whatever opposition it may have to contend with; and a comparison of the results, we have shown, with those of other roads of neighboring States, for the same period, would amply sustain us.

Perhaps at no former period have the board, in the discharge of their trust, been called upon to consider circumstances so full of difficulty, or which have so constantly occasioned the most anxious thought. To determine the extent, force and duration of a commercial prostration, which had come upon the country like a blight, and accommodate the expenses of management to speculation upon a matter so uncertain as the influence to be experienced, and, at the same time, to meet a competition for our business, so conducted as fitly to describe it, would be offensive; which forced us not only to work at greatly reduced figures, but to maintain a readiness for service of the highest efficiency, and thus measurably affect our control of expenses; created a situation which could not fail to excite the utmost solicitude.

To meet it the board has sometimes been called upon to exert their utmost energies, but confident of its temporary character, and with an implicit faith in the power and resources of our great road, they have not, for a moment, doubted of success, nor abated their assurance of a future which, with patience and courage, would amply repay present sacrifices.

The company have 41 locomotives, 23 first class and 26 second class passenger, mail and baggage cars, 399 box, 14 stock and 117 platform, wood and coal cars. Miles run by locomotives with passenger trains, 181,119; with freight trains, 646,712; distributing, 67,170; switching, 62,269—total, 857,270, against 897,530 in 1873, a decrease of 40,260. The tonnage for the year has been: eastward, 151,673; westward, 118,605—total, 270,278, against 294,784 in 1873, a decrease of 24,506. The number of pas engers carried in 1874 was: first class, 83,378; second class, 87,740—total, 171,118, against 188,607, in 1873, a decrease of 17,489.

Gen'l Superintendent.—S. S. SOLOMONS.

Treasurer.—J. H. WILSON.

Auditor.—J. R. ENERY.

Mineral Resources of Virginia.

A correspondent of the Baltimore Sun, writing from Richmond, Va., under date August 16th, says:

The mineral resources of Virginia have again commanded attention from the fact of recent discoveries of copper, lead and silver. The Central Virginia copper mine, at Tolersville, Louisa County, forty miles from this city, has been shipping sulphuric ores (pyrites) containing 47.70 per cent. of sulphur, 50 per cent. of iron, and a small percentage of copper, mostly to the manufacturers of sulphuric acid, but they have now, at a depth of 300 feet, found copper ore in veins exceedingly rich in this mineral. Two miles from this mine the Walton gold mine is being worked by Mr. Gorham, the president of the Gorham Silver Plating Company. Within two miles of this a third mine is being developed by New York parties. This mine was recently discovered, and a sample of the ore submitted for examination to Dr. Rae, a mining engineer of New York of established reputation. His report was very favorable, he estimating it as containing $1,000 of silver to the ton, and he accompanied it with a proposition to purchase or lease the mine. This offer to lease was accepted, and he now reports the result as highly satisfactory and as fully substantiating his opinion. He is working a force there with ultimate intentions, which I am not now at liberty to reveal, but which, if carried out, must largely increase the wealth and development of this section of country.

Railways of Gt. Britain.

The annual Blue Book containing the railway returns for the United Kingdom, up to the end of the past year, has just been presented to Parliament, and embraces as usual a mass of valuable and detailed information. The total length of line open for traffic at the end of 1874 in the United Kingdom was 16,449 miles, of which 8,749 were double or more, and 7,700 single. The increase of mileage open being but 367 upon that of 1873, and 635 upon the total mileage for 1872. Few new lines have therefore been opened during the past year.

With regard to the total amount of capital authorized, it has increased from £676,686,586 in 1873, to £704,338 299 in 1874, being an increase of over 27½ millions sterling. Of this increase £21,000,000 represents shares and stock, and £6,000,000 loans and debenture stock. Coming to the capital paid up during the year we find it totals £609,895,981 against £588,820,308 for 1873, the increase being made up of £11,315,871 debenture stock, £7,788,620 preference, £5,019,939 guaranteed, and £4,078,486 ordinary stock, whilst there is a decrease upon the year of £6,622,244 loans, leaving a net increase of paid up capital upon the year of about 21½ millions sterling. The amount of capital paid up per mile of line open is £37,078 in 1874 against £36,574 in 1873.

From that portion of the summary which deals with the traffic on all the railways we glean that 477,840,411 passengers were conveyed during the year exclusive of season ticket holders against 455,820,188 in 1873, being an increase of 22,520,223 passengers. The total amount received from passenger traffic on all the railways in the United Kingdom in 1874 amounted to £24,893,615, being in the proportion to total receipts of 42.01, against £23,853,892 in the preceding year, and equal to 41.31 of the total receipts. The total from goods traffic in 1874 amounted to £32,005,883, equal to 54.01 of the total receipts, against total receipts from goods in the preceding year of £31,821,529, or 55.11 of total receipts. The total amountr eceived from traffic during the year was £56,899,498, being £3,459 per mile of line open, and equal to 5s. 8d. per train mile. The corresponding figures for the year 1873 were—total traffic receipts £55,675,421, being £3,462 per open mile, or 5s. 7¾d. per train mile. Adding the miscellaneous receipts, there is a grand total of receipts for 1874 of £59,255,715, against £57,742,000 in 1873, being an increase of £1,513,715.

On the other side of the account we find that the total working expenditures upon our railways in 1874 amounted to £32,612,712, being in the proportion of 55 per cent. to the total receipts, leaving a net revenue of £26,643,003, equal to 4.37 per cent. of the total capital. The total working expenditure in 1873 was £30,752,848, being in the proportion of 53 per cent. to the total receipts, leaving a net revenue of £26,989,152 equal to 4.59 of the paid up capital. It thus appears that although there was a total increase in 1874 of £1,513,715 in receipts over that of the preceding year, this augmentation in revenue was more than counterbalanced by an increase in the working expenditure of £1,859,864, the result being a decrease of net revenue in the year 1874 of £346,149. Taking, however, into consideration the general circumstances of the country, the dullness of trade and stagnation in business, and more especially the difficulties with which railways had to contend from the prostration of the iron and coal trades during the past year, we are inclined to doubt if any of the other great industries in the kingdom can show so fair, satisfactory, and hopeful a balance sheet for their year's working as that exhibited by the statistics to which we have been referring.—*Herapath.*

Texas and Pacific Railroad.

The gross earnings of this road for the year ending May 31, 1875, were $1,183,313 33, the expenses $789,803 85, and the net earnings $393,509 48. The receipts from all sources, including a balance on hand at the beginning of the year, were $1,357,194 67, operating expenses $789,803 85, balance to credit of income, $567,390 82; from which must be deducted legal, office and other expenses and county taxes to the amount of $62,401 76, leaving a surplus of $504,989 06. The accounts of the company unpaid at the close of last year were $470,568 93; unpaid at the close of this fiscal year, $202,395 18, a decrease of $268,173 80. The percentage of expenses to earnings was 66.70.

☞ The new railway from New York to Philadelphia via Bound Brook will be opened by the 1st of March, 1876. At Bound Brook this road forms a junction with the Central Railroad of New Jersey. It also connects with the Northern Pennsylvania Railroad eighteen miles from Philadelphia. The grading of the road has been finished along the entire line, and nearly all the bridges have been completed. This road will be shorter by several miles than the Pennsylvania Railroad line.

☞ The Delaware and Hudson Canal Company has placed upon its road, running from Ticonderoga and Lake George, what is termed an observation or twilight car. The sides are wholly removed as low as the window sills, leaving a clear, open space for viewing the scenery. Strong curtains are fixed above the opening, so that in case of a storm they can be lowered and fastened. Two seats run the entire length of the car, back to back.

☞ The Huntingdon, Penn., *News*, says that an Industrial Company has been organized in that place, who design purchasing two farms adjacent to Almesville, in Clearfield county, and building a railroad from what is known as the Morgan Run drift, to connect with the Pennsylvania Railroad. This coal property is said to be very valuable.

☞ Anthracite coal in large quantities has been discovered in the Shenandoah Mountains of Virginia, 19 miles from Harrisonburg.

Commerce of New York.

The foreign imports at New York for the month of July, 1875, are officially stated as follows:

	1874.	1875.
Entered for consumpt'n.	$14,771,441	$12,029,470
Do. for warehousing	10,225,286	8,285,645
Free goods	7,653,244	5,990,042
Specie and bullion	557,758	813,981
Total entered at port	$33,207,729	$27,119,138
Withdrawn fr. wareh'use	8,434,063	8,866,912

The foreign imports at New York for seven months from January 1, were:

	1874.	1875.
Entered for consumpt'n.	$104,993,540	$91,324,852
Do. for warehousing	75,716,043	63,465,169
Free goods	68,002,686	56,226,549
Specie and bullion	3,068,408	3,354,958
Total entered at port	$251,780,727	$219,871,528
Withdrawn fr. wareh'se.	65,497,724	57,026,868

The duties received at New York for seven months ending July 31, were:

	1874.	1875.
January	$10,042,084 05	$8,072,846 12
February	10,186,365 68	11,811,046 96
March	10,793,792 81	10,323,619 78
April	9,596,770 71	9,603,087 82
May	8,369,597 45	7,474,171 61
June	7,899,243 17	6,656,462 06
July	9,654,569 49	9,273,546 61
Total	$66,542,422 76	$63,214,780 95

The exports from New York to foreign ports in the month of July, were:

	1874.	1875.
Domestic produce	$25,948,400	$23,681,774
Foreign free goods	130,591	140,754
Do. dutiable	875,387	623,941
Specie and bullion	3,503,728	5,968,301
Total exports	$29,958,106	$30,414,770
Do. exclusive of specie.	26,454,378	24,446,469

The exports from New York to foreign ports for seven months from January 1, were:

	1874.	1875.
Domestic produce	$164,114,175	$140,870 688
Foreign free goods	1,276,843	1,441,011
Do. dutiable	4,494,969	3,652,338
Specie and bullion	33,122,894	56,323,639
Total exports	$203,008,381	$202,287,676
Do. exclusive of specie.	169,885,987	145,964,037

☞ An arrangement has been effected between the St. Paul and Pacific Railroad Company and a committee of the bondholders, by virtue of which all pending litigation is withdrawn for a year; and if the agreement is ratified by the principals in Holland, two uncompleted portions of the line will be pushed forward to completion—the connection from St. Paul with the Northern Pacific Railroad at Brainerd and with the Canadian Pacific Railroad now building from Fort Garry to Pembina.

☞ The Receiver of the Toledo, Peoria and Warsaw Railroad reports the receipts from June 2 to August 2, 1875, (including $50,647 on hand at commencement) at $287,109 07, and the disbursement at $220,706 93, leaving a balance on hand of $66,402 14.

☞ The interest maturing September 1, 1875, on the eight per cent convertible bonds of the Hannibal and St. Joseph Railroad Company will be paid at maturity at the Bank of North America, New York. The amount of this issue is $3,798,000.

Portland and Ogdensburg Railroad.

The Portland and Ogdensburg Railroad Company was organized with a capital of $2,000,000, of which $111,000 have been paid in. The company has also been authorized to issue $3 300,000 of bonds, of which $800,000 have been reserved to build the 110 miles from Portland to the Connecticut river. These have all been issued, and the interest, $24,000 gold, semi-annually, is promptly met each January and July. There are also $167,000 in bonds out to contractors for work, the interest on which, $5000 gold, semi-annually, is met each May and November. By a vote of the city of Portland, July 9th, 1874, the municipality took $1,850,000 of these bonds in exchange for city securities, and it is upon this advance the company now propose to push through the work. Already 90 miles to Fabyan are in excellent working order, while thence 20 miles to Dalton, on the Connecticut river, a temporary arrangement has been made with the Boston, Concord and Montreal, to use its track for most of this distance. The 3 mile connections for the Vermont division, now running 70 miles to Hyde Park, is now grading, and with the 20 miles running in Canada, only 80 miles remain to be finished. This will all be done before another season, and the 270 miles through to Montreal be secured. The difficulties and expense of getting through the Crawford Notch in the White Mountains have been very much less than was anticipated, the road bed being 300 feet above the highway. The freighting business steadily increases, and docks and warehouses are being prepared in Portland for its better accommodation.

Railroads in Utah.

A writer in the *Galaxy* says that the Utah Western Railroad is now under way, and by the next season will have been finished forty five miles to Stockton Lake, the nearest approach to the rich mining districts of Ophir and Dry Canons. The Utah Central, thirty eight miles in length, unites the Union and the Central Pacifics with Salt Lake; the Utah Southern extends seventy seven miles further to the south, and will soon reach the southern confines of the territory. Utah will in a short time have a possibly complete system of railroads, connecting with the Pacific roads.

☞ The Governor of Michigan has certified to the completion in a substantial and satisfactory manner of the last section of the Flint and Pere Marquette Railroad, from a point in Osceola county to Ludington, 56.41 miles, enabling the company to secure the grants of land made by Congress and the Legislature to aid in the construction of the road.

☞ The Kansas Central and Black Hills Narrow Gauge Railroad Company, with a capital of $100,000, has been organized in Omaha. The road will be built at once from that city through the agricultural country south of the Platte River, and will be pushed toward the Black Hills as soon as the development of that region warrants it.

☞ The directors of the Coburg and Peterboro Railway and Iron Company, recently elected, are: W. I. Stanton, J. Harshman, J. H. Shoenberger, G. K. Shoenberger, E. S. Winans, P. McCallum, Jr., John Sutherland, Isaac W. Butts, W. P. Chamblis.
